

The Science Seminar Series at Pacific

Inaugural seminar

Ariel L. Escobar, Ph.D.

School of Engineering
University of California, Merced

Ionic basis of ventricular action potentials

Dr. Escobar will talk about his cutting-edge approach to understanding molecular mechanisms underlying electrical activity in the heart.

October 4th, 2016

12 pm

**Room R107 in The Rotunda
at the School of Pharmacy
and Health Sciences**

All faculty, students and staff are welcome
