My Dear Friend,

McGovern/Shriver '72 meant total involvement by those of us who sought real change for America. The results were disappointing. But George McGovern asked us not to give up the campaign, "not to embrace those policies which we deplore."

Because our candidate got fewer votes does not mean that our principles must be abandoned. We who are concerned with restructuring this country must continue to work against racism, put an end to the war and end hunger and malnutrition. We should strive for economic stabilization and insist on decent educational opportunities.

I will continue to speak out on these issues. The inadequacy of health care and the slippage of justice in the hysteria of seeking "law and order" must not be continued.

Many of us gave our time and money in an effort to bring decency to American government. I believe we ought to carry on that dedication and commitment.

Frankly, I intend to seek the Governorship of California in 1974. I have enclosed a copy of a newsletter which I will have published on a regular basis.

I invite you to read it. I invite you to discuss it with me. If you are inclined I invite you to help me publish it with your contributions.

I have set a goal of winning the 1974 election. I invite your ideas, your help, your enthusiasm, your knowledge, your support.

Sincerely,

George R. Moscone
