COLONISTS TO TEACH
A Curriculum Conference is being held in San Francisco this week, at which time the program of studies for the schools at the Relocation Centers will be mapped out by the educators from all of the colonies of the region.

It is hoped that at least 20% of the teaching staff may be recruited from among the colonists. Temporary requirements are a college degree, and a minimum of ten hours in education courses to become eligible for a teaching position.

Students who do not meet the full requirements will be recruited for work as assistant teachers.

A survey is being made of the college students within the colony to determine who may be available for recruitment under the standards agreed upon.

Nursery schools will continue to function under the supervision of Miss Robinson for the summer months, and it is hoped by fall that there will be an established school in each ward.

Adult Education classes under the supervision of Dr. Frank C. Smith, employment chief of the Tule Lake Project; Frank Miyamoto, former Associate of the University of Washington; and Toshio Takemoto, political science instructor of the Adult Education program in Tule Lake.

EDITORIAL POLICY

The editorial policy of The Tulean Dispatch is no different from any other American newspaper published outside in this time of war. Tule Lake colonists are here primarily to help America at war.

We have been relocated on this plateau at least 1,500 feet above sea level; a society unique in character is being born. It is going through a painful process of birth.

Like a doctor helping a pregnant mother giving birth to a child, The Tulean Dispatch is being published primarily to aid the Tule Lake Colony out of its struggle and agony of organization as painless as possible. That has always been the position of a newspaper in any pioneering community.

We therefore attempt to guide the colonists by pointing the way in time of their confusion and perplexity. We attempt to help the Colony wisely a public opinion so that it may have some sort of social order, social pattern, and in time a Colony Culture.

It is the policy of the newspaper to print the news of the Pacific as accurately as possible and to print entertaining stories so that the life in the Colony may be as less drab as possible.

The Tulean Dispatch is a friend, counselor and servant all put together. We hope to live up to your policy without mental reservation.

H.N.K.

WAGE SCALE

Controversial has been the matter of wage policies throughout the entire evacuation process. Should everyone be paid equally or should there be classifications? How should workers be classified? Is the present set-up satisfactory? Opinions on these questions are varied and conflicting.

The forum tonight will discuss "Would the Community Benefit from the Uniform Wage Policy?" Uniform wage has been the demand of many for quite some time. But, will the advantages of such a policy outweigh the disadvantages or will it brew more discord? Attend the forum and express your views. The forum are held for your benefit; hear how the others feel about wages.

ENOUGH DISPATCH

Dear Editor: I haven't received my copy of the Dispatch for some time. What is the matter with your paper?

A RESIDENT

("Your block manager receives enough copies to be distributed to each apartment in his block. Ask him for your paper.

SOMETIMES YOUR LUCKY!

Editor, Dispatch: Something must be definitely wrong with me. At least, a few of the people on our block think so. Anyway, I just can't clean any of the slop we are fed. During the past week, our menu runs somewhat like this: chop suki, suki yaki, chop suki, suki yaki, chop suki, suki yaki, chop suki, suki yaki.

I sometimes wonder how it would be if we were to be fed something cooked alone; then without the dinners being cooked a la slop with the left overs.

I don't think, I'm that queer. Some of you block four residents, I think, should be getting pretty sick of it all. I suggest we resign to the chin handball court.
