Further evidence of the tire shortage on the "outside" is reflected in the curtailed use of all automobile equipment in the relocation centers. As a further concession to the tire shortage, all Project workers will, beginning Tuesday, Sept. 8, walk to and from work.

"Tires must be conserved for only the most essential needs," Project Director Elmer L. Shirroll said. "But if we walk, it is no more than the people throughout the country are doing. This is war, and before the war is over we shall probably be required to give up other conveniences. We are all in this business together, and the full cooperation of all personnel and residents of this community will greatly facilitate the successful and harmonious prosecution of our duties here."

Lack of transportation to and from work will necessitate a slightly modified change in the work schedule. Beginning Tuesday, Sept. 8, office hours will be from 8 to 12 and from 1:15 to 5:15. The extra 15 minute lunch period will allow ample time for workers to walk to their respective mess halls and return.

This schedule will require a slight modification of mess hours. Breakfast will be served at 7 a.m. as usual; lunch from 12:15 to 5:15. All chefs will be instructed to serve meals at these hours.

Before taking this action, all work groups were consulted and their suggestions invited. This new schedule met with almost unanimous approval.

CONSTRUCTION ISSUE SETTLED

A labor trouble in the Construction Engineering department that was brewing for the past several days has been amicably settled, Saturday. All the workers in this department will go back to work Tuesday morning.

COAL STORY CORRECTED

In reference to the coal story which appeared in Wednesday's DISPATCH, it was inadvertently stated that the block managers were the first to favor the plan of Colony volunteers to work with coal delivery.

The block managers wish to have it known that they merely wished to cooperate for the benefit of the whole colony.
