Introductions

Michele Gibney, University Libraries, mgibney@pacific.edu
Barbara Sasso, Office of Research and Sponsored Programs, bsasso@pacific.edu

And you?
What is a data management plan (DMP)?

1. Description
2. Collection
3. Organization
4. Ethics
5. Storage
Why does it matter?

● Grant funding requirements
● Journals requiring the research data alongside the article/study
  ○ Increase impact and visibility
● Reproducibility
  ○ Maximize transparency, accountability and scrutiny of research findings
● Enable reuse and new research projects
Funder Requirements: NIH example

U.S. Department of Health & Human Services
National Institutes of Health
Turning Discovery Into Health

Sherpa Juliet

National Institutes of Health

Funder Information

- **Funder Name**: National Institutes of Health (NIH) [English]
- **URL**: http://www.nih.gov/ [English]
- **Identifiers**: FundRef DOI: 10.13039/100000002
- **Country**: United States of America

Requires Open Access Archiving

- **Requirement**: National Institutes of Health *requires* Open Access Archiving
- **What to archive**: Peer-reviewed publications
- **Publication version**: Author's final version
- **When to archive**: When accepted for publication
- **Permitted Embargo**: 12 months
- **Where to archive**: Named repository
- **Named Repositories**: PubMed Central http://www.ncbi.nlm.nih.gov/pmc/ (Required)

Requires Open Data Archiving

- **Requirement**: National Institutes of Health *requires* Open Data Archiving
- **Types of Data**: Research Data
- **Supporting Documentation**:
- **When to archive**: Within a reasonable time after completion of the work
- **Where to archive**: Any appropriate repository (Required)
- **Named Repositories**: NIH Databases http://www.nlm.nih.gov/databases/ (Example)
- **Effective for all new projects from**: 1 October 2003
- **Special Conditions**: Applies to applications seeking $500,000 plus in direct costs within any year of the project period. Include a data sharing plan within application. Sharing of data no later than publication of final results
Funder Requirements:
NSF example

**National Science Foundation**

**Funder Information**
- **Funder Name**: National Science Foundation (NSF)
- **URL**: http://www.nsf.gov
- **Identifiers**: FundRef DOI: https://doi.org/10.13039/100000001
- **Country**: United States of America

**Requires Open Data Archiving**
- **Requirement**: National Science Foundation requires Open Data Archiving
- **Types of Data**:
  - Research Data
  - Specimens and Samples
  - Associated Metadata
  - Program Code
- **When to archive**: Within a reasonable time after completion of the work
- **Where to archive**:
- **Effective for all new projects from**: 18 January 2011
- **Data Access Cost**: Costs of access provision may be recovered on a not-for-profit basis.
- **Special Conditions**: Applies to primary datam samples, physical collections and supporting materials created or gathered in the course of the work. Encouraged to share software and inventions. Data Management Plan must detail the types of data to be shared, the standards of data and metadata format and content, the policies for access and sharing of data, the policies for provisions of reuse and re-distribution, as well as plans for archiving. Data should acknowledge support of NSF and award number. Applies to all approved NSF Individual Research and Development plans for NSF employees and Intergovernmental Personnel Act assignees.
- **Policy links**: Dissemination and Sharing of Research Results (Policy): http://www.nsf.gov/bfa/dias/policy/dmp.jsp
Grant Compliance Checkers
