Obedience to the chief cook, good naturedness, and doing one's assigned task thoroughly are three of the principal reasons why the block 48 mess was declared the only kitchen that met all standard of cleanliness, sanitation, and mess management last week by the Project Steward. Only through these three principles and through block support can any mess hope to have an efficient dining hall was the statement given by Chief Cook S. Nakata of the honored kitchen.

Also helping to keep the kitchen in harmony is the full cooperation of the block members who follow the mess regulations set up by the coordinated decision of the system. The regulations posted read as follows:

**ACT ACCORDINGLY**

Every young person knows how limited recreational facilities are in the Center. Take the matter of dancing as an example.

When a certain block or group sponsors a dance and make it invitational, it isn't that they are trying to be exclusive or snooty. They realize that everyone desiring to dance cannot be accommodated at our public dances. Therefore, these groups hold their own dances and in all fairness to the invited they are forced to limit their bids.

So, when certain outsiders try to crash these affairs and are ejected the dance crashers have no justification for crying. After all, the line must be drawn somewhere.

When and if we get adequate facilities for everyone then all concerns will be happy. Until then, we should realize the circumstances under which many of our social and activities of the like are operating and act accordingly, K.H.
