One Hundred First
Commencement

Sunday, June 18, 1995

MASONIC AUDITORIUM
San Francisco, California

2:00 P.M.

The Dentist's Pledge

I, (dentist's name), as a member of the dental profession,
shall keep this pledge and these stipulations.

I understand and accept that my primary responsibility is to my patients, and I shall dedicate myself to render, to the best of my ability, the highest standard of oral health care and to maintain a relationship of respect and confidence. Therefore, let all come to me safe in the knowledge that their total health and well-being are my first consideration.

I shall accept the responsibility that, as a professional, my competence rests on continuing the attainment of knowledge and skill in the arts and sciences of dentistry.

I acknowledge my obligation to support and sustain the honor and integrity of the profession and to conduct myself in all endeavors such that I shall merit the respect of my patients, colleagues, and my community. I further commit myself to the betterment of my community for the benefit of all of society.

I shall faithfully observe the Principles of Ethics and Code of Professional Conduct set forth by the profession.

All this I pledge with pride in my commitment to the profession and the public it serves.

(Approved by the American Dental Association House of Delegates)

HISTORICAL BACKGROUND OF THE MACE

Originally a weapon of offense used by a medieval king or great noble, the mace has been refined to symbolize authority during ceremonial occasions. The mace was first used as an academic symbol in the 16th century when Queen Elizabeth I presented a replica of her royal mace to the University of Oxford in 1589, ordering that it be used in all ceremonies to represent the royal presence.

The University of the Pacific instituted use of the mace in its academic ceremonies on Founder's Day, March 6, 1966. Constructed by Stuart Devlin, internationally known silver designer, the four-foot long, 15-pound mace is comprised of silver with gold plating. It was a gift to the University from Mrs. Winifred Raney, University Regent.

SIGNIFICANCE OF ACADEMIC REGALIA

Academic dress was worn daily by university faculties of the Middle Ages. In more recent times, use of complete academic dress has been reserved for ceremonial occasions. While European universities exhibit considerable variation in academic regalia, a standard pattern was adopted for us in the United States more than a half-century ago. Gowns generally are black. A few universities adopted other colors for doctoral gowns: Harvard, crimson; Yale, blue; Chicago, maroon; Dartmouth, forest green.

The field of learning in which the degree was awarded is shown by the color of the edging of the hood and, in some cases, by the color of the facing and crossbars on doctors' gowns. Some of the more frequently seen colors are: white (Arts and Letters), pink (Music), dark blue (Philosophy), light blue (Education), scarlet (Divinity), golden yellow (Science), green (Medicine), olive green (Pharmacy), purple (Law), and lilac (Dentistry).

Colors lining the hood are those of the institution that awarded the degree. For example, the University of California colors are gold and blue; Stanford University, cardinal; University of Michigan, maize and azure blue; University of the Pacific, burnt orange and black.

An individual's degree is revealed by the type of gown and the width of edging on the hood. Designs are of three kinds:

BACHELORS' GOWNS have full pointed sleeves with no trimming, and the hoods have a two-inch edging.

MASTERS' GOWNS have full sleeves with no trimming, and the hoods have a three-inch edging.

DOCTORS' GOWNS are of silk, with rounded sleeves, velvet facing down the front, and three velvet crossbars on each sleeve. Hoods have side panels and a five-inch facing.

Tassels on bachelors' and masters' caps are ordinarily black, but they may be of the color of the field in which the degree was awarded. Doctors' tassels generally are gold. Tassels are properly worn on the left side of the front of the mortarboard.
