**SUGAR COMPANY LAUDS WORKERS**

High praise for the young men who left the Project to work in Missoula and Ravalli Counties, Montana, was expressed today by Clarence Hagen, of the American Sugar Company, who writes:

"These boys did a very good job. They were liked by the farmers because of their cooperation at all times."

Hagen said that 70% of the beet crop would have been lost if these young men had not answered the call to assist the farmers.

**ARKANSAS CONDITIONS RELATED**

Conditions in Jerome Arkansas Relocation Center, where the people from the assembly centers in California are being housed, were revealed in a letter received this week by Roy Nakada, Block 29 councilman, from his brother Bill. He describes:

"Well, we've been here for a weak and are no having all kinds of weather. One day it's nice and sunny, next day it's cloudy; and then we get a cloudy day and when it rains there are thunderstorms and everything. When it rains it's muddy. Then we get a cold frosty morning. We haven't as yet gotten a storm.

"When it rains it's like pouring a bucketful of water down on your shoe. We have to do good things to cut out but the place isn't completed yet so we have to go to our neighbor's mess hall. If it wasn't for rain I think this camp will be O.K. Everything is better than assembly centers, in fact we have lots of norries here. White people are all kind. The place over here is so big that I haven't seen everything yet."

Rumor prevalent a few days ago that all Californian Japanese workers would be moved to Arkansas seemed to have reached that center, as he writes:

"There's a rumor that they are going to move all the Japanese from California on maybe we might be together after all. Let's hope and pray that we stay healthy till we meet again."

**Board of Governors and past officers of the Sacramento JACL chapter will hold an important meeting in Block Manager George Shimizu's office at 2:00 p.m. Wednesday, Nov. 27 in western Montana. They are optimistic that this was a fine patriotic gesture and the farmers hoped to see the boys back again.

The first contingent of young men who worked in western Montana returned back to the Project on Sunday.

(Workers' reactions will be presented later.)
