Latin and the principal Modern Languages are studies belonging to the entire course. One of them is required of the candidate for degrees.

Composition, Vocal Music, Reading, Spelling and Penmanship, are regular exercises through the Course, and receive the attention which their eminent importance demands.

In connection with the above scheme, Lectures and instructions will be given each year in Chemistry, Mineralogy, Geology, Experimental Philosophy, Astronomy, Anatomy and Physiology, Domestic Economy, etc.

PARTIAL COURSE.

Selections may be made from the Course of Study by those not desiring to complete it, subject to advice of parent or guardian.

The privilege of an extended post-graduate course in Mathematics, Natural Science, Ancient and Modern Languages, and Literature, will be opened to all for whom a more protracted stay in the Institution is expedient.

MISCELLANEOUS INFORMATION.

MALE DEPARTMENT.

ADMISSION, EXAMINATION, ETC.

Candidates for admission must produce testimonials of good moral character; and if from another Institution, must satisfy the Faculty with respect to their honorable withdrawal from the same.

None will be admitted into the Freshman Class under fourteen years of age, nor into an advanced class without a corresponding age. Candidates will be examined on the studies previously pursued by the class which they propose to enter.

Public examinations of the classes are made at the close of each session, and no student who absents himself from examinations, or fails to master the studies of the session, will be permitted to proceed with his class.

DECLAMATION AND COMPOSITION.

All are required to attend, at stated periods throughout the course, to exercises in Elocution and Composition.

SCIENTIFIC COURSE.

The full Collegiate Course, above prescribed, is earnestly recommended as best for all who can possibly command the requisite means; but if any prefer to omit the Ancient Languages, they can pursue the Scientific Course, embracing the remaining studies in the foregoing scheme.

DEGREES.

The degree of Bachelor of Science is granted to those who complete, in a satisfactory manner, the Scientific Course.

The degree of Bachelor of Arts is conferred on those only who pursue the full course, Classical and Scientific.

The degree of Master of Arts may be conferred, in course, on every Bachelor of Arts of three years standing, or more, who has been engaged, since his graduation, in some literary occupation, and has sustained a good moral character. It will be conferred only on those who apply for it at least a week before commencement, and provide for the payment of the customary fee.

LECTURES.

The principles of Chemistry and Natural Philosophy are illustrated by lectures and experiments.

Students in Surveying are trained in field exercises, and ample opportunities are offered, by practical observations, for becoming familiar with the use of the sextant and theodolite.

The study of Natural History is assisted by constant reference to specimens.

Lectures will be given in the Department of Intellectual and Moral Science.

EXPENSES.

The *annual* charges are for

Tuition in Preparatory Department	$50 00
Tuition in Collegiate Scientific Course	60 00
Tuition in Classical Collegiate Course	80 00
French Language	30 00
Spanish Language	30 00
Janitor Fee, $4; Printing, $2	6 00
Matriculation Fee, to be paid only on entering the Collegiate Department	10 00

The *annual* expenses of board, tuition, and washing will not vary much from the following estimates:

Board, including furnished rooms, 41 weeks at $5	$205 00
Washing, say	24 00
Tuition	60 00
Fees	6 00

BOARDING.

A limited number of pupils will be received into the family of the President, who will extend to them special care. Students in the collegiate classes, and others of sufficient maturity to make it proper, will be boarded in good families in the vicinity of the college.

LITERARY SOCIETIES.

There are two Societies (Archanian and Rhizomian) connected with the Institution, which meet weekly for Debate, Declamation, and Composition. Each Society has a good Library,

PUBLIC WORSHIP.

All students are required to attend public worship twice every Sunday; and be present at daily morning and evening prayers in the College Chapel. They may select (subject to the advice of parents) their place of worship, and they will be expected to be *regular* attendants at the church so preferred.

GOVERNMENT.

Believing that the ends of College government can be best secured by teaching students to govern themselves, no attempt is made to render transgression impossible by mere *physical* constraint. The constant endeavor is to inculcate right moral principles, and to cultivate the moral feelings, and that delicate regard to a good reputation which is always a quality of a virtuous mind.

The Trustees have adopted a code of By-Laws for the government of the University, which will be published in separate form. They publish the following rules, more to indicate the *principles* which students will be required to observe, than to constitute a code of statutes:

1. Students will be required to abstain from all obscene and profane language.

2. They will be expected to maintain a gentlemanly deportment towards the teachers and one another.

3. Habits of personal cleanliness will be required of all the members of the Institution.

4. Students will not be permitted to go on pleasure excursions on the Sabbath.

5. They will be restrained from visiting gambling and drinking saloons, and from all vicious companions and demoralizing associations.

6. Students desiring to leave town for any cause, are required to obtain permission from the President or a Professor.

7. They will be expected to practice punctuality and diligence in study and attendance at recitations, and to yield prompt and cheerful obedience to such additional regulations as the faculty may, from time to time, find it expedient to adopt. The more specific regulations relating to the rights and duties of the Faculty and Students, are made known on entering the University.

MERIT ROLL.

A permanent record of the recitations and deportment of the students will be kept, which shall be accessible to parents and all concerned.

APPARATUS.

The University is provided with apparatus for illustrating the principles of Chemistry, Natural Philosophy, and Astronomy.

CABINETS.

A good beginning has been made in the collection of minerals and geological specimens, and illustrations of Zoology. The collections are constantly increasing in number and variety.

LIBRARY.

A valuable addition of some six hundred volumes has recently been made to the University Library, making, with previous collections, a good foundation.

THEOLOGICAL SCHOOL.

The Trustees have initiated a Theological Department for the benefit of young men who have the ministry in view. The requisite instructions will be given, for the present, by Professors in other departments. By this arrangement many have been already benefited.

LOCATION.

Santa Clara is situated forty-eight miles south of San Francisco, in the midst of a beautiful valley. It is as free from temptations to dissipation as any town of the kind in the State. It is accessible from San Francisco by railroad every day. It is unsurpassed in pleasantness and salubrity of climate.

FEMALE DEPARTMENT.

RESIDENCE.

Young ladies are required to board either in the Institution or with their parents, and are thus constantly under the special care of responsible guardians. Pupils from a distance should spend the winter vacation at the Institution.

FURNITURE AND OUTFIT.

The rooms are furnished with bedstead, mattress, pillows, chairs, writing table, washstand and appurtenances. Boarders furnish their own bed covering, lights, towels, napkins, and napkin rings. It is suggested that parents furnish their daughters with thick shoes, India rubbers and an umbrella. *All articles of clothing must be carefully marked.*

EXPENSES.

Whole cost of Board, Washing, Fuel, Family Care and Tuition in English course, five months	$150 00
The same with Tuition in Collegiate course	170 00

DAY PUPILS.

Tuition Primary	$15 00
" Preparatory	23 00
" Collegiate	33 00

EXTRAS.

Ancient and Modern Languages, Drawing, Leather Work and Embroidery, each per half-year	$15 00
Music, with use of Piano	40 00
Wax Work	20 00
Hair Work	5 00
Pastel or Oil Painting	25 00

Vocal Music free of charge.

Pupils remaining in vacation will be charged for board and washing.

Payments, in all cases, quarterly in advance. If payment be delayed, two per cent. a month will be charged.

No advances made to pupils for expenses, except by special arrangement. Pupils may enter at any time, and be charged only from the date of entering to the close of the session; but no deduction is made for absence, except in cases of protracted illness. Books, stationery, etc., will be furnished at San Francisco prices, for cash.

GOVERNMENT:

Our constant endeavor is to inculcate *right principles* of action, and to exercise and improve the conscience, and properly cultivate that delicate regard to reputation which is always a quality of a virtuous mind. The Bible is our standard of appeal in morals and religion. But while religious faith is regarded as essential to a stable moral character, no sectarian or special form of such faith is insisted on, or even commended to the pupil, as essential to virtue and happiness. When appeals to the better feelings, to reason and conscience, fail to control, the student will not be retained in the school.

The young ladies are required to attend public worship on the Sabbath at such churches as parents may dictate.

Visitors welcomed at all times, except on the Sabbath.

Pupils holding correspondence of any kind, with persons not connected with the Institute, except by consent of the Faculty and parents, will be liable to dismissal.

Visits by pupils, during the term, are not allowed.

Calls are not received in private rooms, and are limited to hours not devoted to school requirements.

LITERARY SOCIETY.

The ladies' EMENDIAN Society meets weekly for rhetorical reading, composition and recitations, and is supplied with a good library.

TERMS AND VACATIONS.

The Collegiate year is divided into two sessions, one of twenty weeks and one of twenty-one.

The next year will begin Thursday, August 4th.
End of first session, Wednesday, December 21st.
Vacation of two weeks.
Second session begins Thursday, January 5th, 1871.
End of second session, Thursday, June 1st.
Vacation of nine weeks.
☞Commencement exercises, Thursday, June 1st.

ENDOWMENT.

In April, 1866, the Trustees purchased a part of what is known as the STOCKTON RANCHO, situated between Santa Clara and San Jose, containing about four hundred and thirty-five acres. This property fronts on the ALAMEDA, and extends back to the Guadalupe river, and is intersected by the San Francisco and San Jose Railroad.

This land has been plotted, and, after reserving avenues and streets, and a Campus of about eighteen acres fronting on the Railroad, is offered for sale in lots to suit purchasers, at an advance of one hundred per cent. on cost, the profits to constitute a permanent ENDOWMENT FUND. The eligible location of this property, its proximity to San Jose and Santa Clara, the Campus being less than one mile and a half from the business centres of each of these flourishing towns, the fertility of the soil, the salubrity of the climate, etc., make it very desirable for homesteads, and warrant its speedy sale. The prosecution of this enterprise thus far has fully met the expectation of the Board of Trustees, and assures a handsome endowment for the Institution.
