SPAIN CONSUL WILL
AID RESIDENTS

Expressing surprise after hearing of the condition existing in the hospital, the Spanish Consul, F. De Amat, who was here last Wednesday, assured the local residents that he will personally see to it that the center will get adequate medical supplies and equipment. He added that if there is a need for additional Japanese doctors to take care of the local patients such persons will be added to the present staff.

He told the representatives that not with him that as he is the official representative of the Japanese government, he is responsible for the safety of every resident. For this reason he asked all residents not to take needless actions which may lead to injuries.

He asked the committees to present any further problems to him directly.

There are many among us who still insist upon congregating whenever the soldiers come in, in other ways proving themselves nuisances to soldiers; there are those who still persist upon taking individual actions.

There are many who still insist upon congregating whenever the soldiers come in, in other ways proving themselves nuisances to soldiers; there are those who still persist upon taking individual actions.

Such actions upon the part of a few unthinking persons is just creating undesirable and injurious impressions of the Japanese. We are certainly not getting any benefit from this cheap conduct of a few.

All of us want to return to the normal life as soon as possible. Let's all cooperate with the committee in restoring the usual functions of the center.

All that we ask you is to remain calm. Residents! Don't be a bottleneck.
