Vol. 47

NOVEMBER, 15, 1960

No. 8

PUBLISHED 16 times a year: Once in April, May, June, September, and October; twice in January, February, March, and November; and three times in December.

PACIFIC REVIEW issues are published in October, November, December, January, February, March, April, and June.

ENTERED as second class matter at the Post Office, Stockton, California, April 15, 1924, at special rate of postage provided for under section 110, Act of October 3, 1917.

EDITORIAL STAFF: E. M. Crigler, Joan Ulrich, Donald Smiley.

Pacific Progress Report

"What's

The familiar greeting of "What's new?" got a fresh answer this fall when C.O.P. students returned to find the campus boasting a new dormitory and a newly re-decorated Anderson Social Hall, the institution's "front parlor."

For 45 freshman girls, their move into the new dormitory was closely followed by a change in the name of their campus home.

Known as "East Hall" during its construction, the \$140,000 structure was formally named "McConchie Hall" in honor of the parents of Mrs. Fannie McClanahan of Reedley.

Mrs. McClanahan unveiled the name, which is fashioned in bronze above the main entrance to the building, during a dedication program held in conjunction with the annual fall meeting of the Pacific Associates.

Introducing the benefactress, E. M. Crigler, C.O.P. director of public relations, said that Mrs. McClanahan has long been a member of the corps of persons who undergird Pacific through their prayers, gifts, and interest. A regular contributor to the institution's Annual Fund, she has long taken a personal interest in C.O.P. students, providing most recently financial assistance for a 1960 School of Pharmacy graduate. Her grandniece, the former Martha Jean Osborn, also is a Pacific graduate.

Desiring to do even more for the College, Mrs. McClanahan recently gave Pacific title to her 55-acre fruit ranch near Reedley, valued at \$110,000. Her gift made possible the naming of the hall in memory of her late parents, John D. and Marietta McConchie.

New" IN CAMPUS BUILDINGS

During the ceremony, Mrs. McClanahan said, "I know my parents would be happy to know that the ranch which they developed has been made such good use of in the dedication of this hall today."

The two-story structure, located behind Manor Hall, contains 21 rooms for students, a living room, an apartment for the head resident, and, in the basement, a recreation room, laundry facilities, and cooking and storage units. It is finished in brick veneer and plaster to harmonize with the other campus buildings.

The redecoration of Anderson Social Hall also mirrors Pacific's concern for quality in its physical facilities.

Used extensively as the "formal parlor" for college activities, the room now serves as an elegant background for important functions.

Master-minded by a college committee with the help of a professional interior decorator, the new decor was planned around the huge, antique, gilt-framed mirror which was given to Pacific 30 years ago by the widow of Rolla V. Watt, a long-time member of the Board of Trustees.

To carry out the coloring and style of the mirror, the room was papered in a gold and white adaptation of a 150-year-old design. The gold wall-to-wall carpeting and draperies and predominantly gold and green-gold furniture are accented by touches of royal purple picked up from the portrait of Chancellor Tully C. Knoles which hangs above the fireplace. Portraits of other former presidents are grouped near the fireplace in a specially designed molded frame. An accoustical tile ceiling and modern rheostatically controlled lighting complete the room.

The modernization project was made possible by a gift from Mrs. Winifred Olson of Turlock, a Trustee.

NEW DORMITORY: Mrs. Fannie M. McClanahan and Miss Paula Nissen, freshman from Williams and living group president, look over the plaque which officially designates the new dormitory "McConchie Hall." The plaque says, in part: "Representing a lifelong devotion to the church and her faith in Christian higher education, this building to serve new generations of youth is named in consideration of the generous gift of Fannie M. McClanahan in loving memory of her parents John D. and Marietta McConchie."

NEWLY REDECORATED PARLOR: The comment "I can't believe it's the same room" often is heard when alumni and students see revitalized Anderson Social Hall for the first time. The gold and white decor, with touches of purple, direct the eye to the two main focal points in the room: the Watt mirror and the Knoles portrait.

Open Letter from your Fund Council Chairman

Dear alumni.

As Pacific moves into one of the most exciting phases of its 109-year history, we'll be there! Alumni annual giving is becoming an increasingly important factor in Pacific's progress, and we have proven through past performance that we are becoming more and more aware of our role in this phase of the life of our alma mater.

But we cannot rest on our laurels, with a pat on the back for a "job well done" in past years. Just as Pacific maintains a forward look, so must we not only look back with satisfaction, but also look ahead with the conviction that "we can do even better!"

With this in mind, the various committees and sub-committees of your Fund Council have mapped out a "Three Point Program" that will characterize the Fund effort for 1960-61.

POINT ONE: PARTICIPATION

The Fund emphasis again will be on participation this year. We feel it is important that this be a project binding as many of the alumni together as possible in a united effort for alma mater. Participation last year was 24.5%; we'd like to see it take a big jump this year as more and more Pacific graduates become aware of their ongoing and essential role in the life of Pacific.

POINT TWO: "COMMITTEE OF 100"

For the past two years, the Trustees have offered a challenge to the alumni. In 1958-59, they promised \$1,000 for each percentage point of increase in alumni participation. This challenge boosted the participation from 6.2 per cent to 26.4 per cent and added an additional \$20,000 to the Fund. In 1959-60, the alumni again met the Trustees' offer to match the Fund dollar for dollar after it reached its 1958-59 total of \$14,981 by increasing their total giving by slightly under \$5,000.

We feel now, however, that the Trustees have supplied the challenging incentive long enough. It is time that we, as alumni, challenge ourselves. With this in mind, the Fund Council adopted the following plan:

"To secure 100 individuals who will agree to give \$20 for each percentage point the participation increases over last year's percentage. These individuals would commit themselves to paying a maximum of \$100."

This means that, with a minimum goal of 5 per cent increase over last year's 24.5 per cent of participation, the committee would add \$10,000 to the Fund!

POINT THREE: SOLICITATION PERIOD CONDENSED

February will be THE month! In past years, the Alumni Fund has been an all-year project. It still will be for the committees involved in planning, training, and organization. For most, however, the month of February has been set aside this year as the time of concentrated effort. This will be the one month of the year in which we, as alumni, will be asked to contribute. This intensive campaign in, incidentally, the shortest month of the year means that we will have the eleven longer months to turn our efforts and attention to the other phases of our Alumni Association.

This, then, is our plan for the future. More complete details will appear in future issues of the "Review." The success of the program, inevitably, rests on each one of us.

Clyde Jones
Chairman
Alumni Fund Council

An Investment in Knowledge

For brown-haired Dianne Decatur, our cover girl this month, her long-planned education at her "ideal of the perfect college" has finally begun. In itself, this statement could probably be applied to a number of those who donned their freshman beanies and orange hair ribbons in September. But, for Dianne and for us, as alumni, this is especially meaningful because she is the recipient of the 1960-61 Alumni Association Scholarship.

Awarded annually by the scholarship committee of the College to the son or daughter of a Pacific graduate, the scholarship funds are received from the income derived from invested Alumni Association life membership dues.

Dianne is the daughter of the late John V. Decatur '30, former principal of the high school in Sutter, California. A "Who's Who" biography of the scholarship recipient might read, in part, as follows:

Student body secretary, president of Girls Athletic Association, president of Future Homemakers of America, life member of California Scholarship Federation, member of Spanish and science clubs, and yearbook editor, Sutter High School; National Science Foundation summer school at Humboldt State, 1959; Girls' State delegate, 1959; Vacation Bible School and Sunday School primary teacher, Sunday School pianist, Methodist Church; English major, secretary-treasurer of dormitory section, and secretary of the dorm treasurers' council, C.O.P.

Dianne is but one of the approximately 300 students benefiting from \$77,000 in scholarship moneys which were granted by the College this academic year.

From where do these funds come?

In general, the awards, which range from \$50 to \$800 a year, come from (1) organization grants for specific endeavors, (2) estate grants, (3) grants from charitable foundations, and (4) grants from individuals.

Under the first heading—organization grants for specific endeavors—come those scholarships awarded to deserving students indicating certain major areas of interest, areas which are of specific concern to the granting organizations and which they wish to better through the education of qualified youth. A partial list of these would include the Crown Zellerbach and Fibreboard scholarships in chemistry; the Koehring Company and West Coast Electronic Manufacturers Association scholarships in engineering; the Coffin-Redington Drug Service Company and various women's Pharmaceutical Association auxiliaries scholarships in pharmacy; and scholarships from the California Congress of the Parent-Teachers Association for both potential elementary and secondary teachers.

In some cases, individuals have perpetuated their aid to education through the establishment of estate grants or trust funds. Examples of this would be the Ophir Ore Schroeder estate and the Erma L. Boyce estate

grant, which instructs that a percentage of the returns on her vineyards each year be used for scholarships for men.

Charitable foundations also are responsible for the establishment of a certain number of scholarships. Some of those included on the Pacific roster are the McMahan Education Foundation, sponsored by the McMahan furniture stores; the George H. Mayr Educational Foundation; the A. P. Giannini Scholarship Foundation; the Farmers Mutual Insurance Company; and the Walker-Scott Company of San Diego, which has set up the Eliza Fitzgerald Walker Scholarship.

Then there are the individuals, such as Mrs. A. R. Arnold or J. Winters Smith, who recognize the importance of making available to as many students as possible the advantages of higher education. This is done by their establishment of scholarships, either in their own names or in memory of loved ones.

The most recent addition in this field was the gift of Miss Lottie Wyer Ruggles of Stockton, who came to Elliott J. Taylor, director of admissions, in August and placed on his desk a collection of stocks on which her attorney had placed a market value of \$10,200.

"Because of the need of young people today, I want to do something for them, and I just wanted to do it now so that I can enjoy seeing some of the results," Miss Ruggles, who never had the opportunity to attend college herself, said.

Taylor expects the resources to yield at least \$400 annually for scholarships, with the awards to students denoted as from the Ruggles Scholarship Fund in honor of the late Charles Lincoln Ruggles and Stella Richardson Ruggles, Miss Ruggles' parents.

Many of the scholarship grants cannot be fitted solely into any one of the four areas mentioned above. For

Mr. Elliott J. Taylor and Miss Lottie Ruggles look over a stock certificate that will be used for scholarships at C.O.P.

Physics

instance, the Myrtle L. Atkinson Foundation gives scholarships specifically for students preparing for careers in the field of religious education, while the Presser Foundation and Edwin B. Garrigues Foundation both provide scholarships for music students.

In addition, the National Board of Education of the Methodist Church provides scholarships annually for Methodist students on the basis of leadership, scholarship, and participation in church activities.

There are also scholarships coming from a combination of sources, such as the Sandy Price Memorial Scholarship, set up in memory of Sandy Price, a former Pacific student who was killed during World War II, and sustained by the Caldor Lumber Company and the Mildred Kellogg Estate.

The monumental task of considering applications and awarding scholarships is the Number One project from mid-March to mid-June for a faculty-administration committee headed by President Robert E. Burns and Taylor. While students at all stages of their college careers are eligible to apply, upper division students are encouraged to take advantage of the numerous loan funds available at the College if at all possible.

The scholarship picture at Pacific does not stop here, however. Many additional students come to the campus with state scholarships, civic organization and service club grants, and other awards, bringing the grand total of academic scholarship aid on the campus to over \$100,000 this year, a figure which increases each year.

Thus, the scholarship picture at C.O.P. serves as a living illustration of the Benjamin Franklin adage: "An investment in knowledge always pays the best interest."

FRESNO PRE-GAME DINNER

Pacific alumni, parents of students, and friends of the College will usher out the 1960 football season November 26 at a gala dinner preceding the C.O.P.-Fresno State game.

Sponsored by the Fresno-Madera Alumni Club, the event, featuring broiled chicken with all the trimmings, is set for 5 p.m. at the Cedar Lanes Bowl at the corner of Cedar and Shields Avenues, Fresno.

To get the diners "into the spirit" for the Tiger-Bulldog clash, a Pacific pep band and the College yell leaders will be present. Also scheduled for an appearance is the bagpipe band from Fresno's McLane High School, where Paul Easterbrook '24 is principal.

Reservations for the event, at \$2.65 per person, may be made by writing Herbert Ferguson '29, general chairman, at P.O. Box 1589, Fresno, or the Alumni Association Office on campus.

Reservations for football tickets in a special reserved section, at \$3 per person, also are available through the Alumni Office. Those who reserve tickets may pick them up at the dinner.

Deadline for dinner and ticket reservations is November 24.

AT WORK: Walt Bodley '60, C.O.P. graduate student, takes a reading on a machine designed to measure the velocity of light.

(Below) Gilbert White '55, physics instructor, demonstrates the process used in removing radioactive materials from their underground chamber.

in the Pacific Picture

A growing department in an expanding subject field is one of the most apt general descriptions that can be offered of the C.O.P. physics department.

The increasing importance of training in this physical science is reflected in the number of those who are taking at least introductory courses in the subject and the number who are selecting physics as a major.

This semester, there are 120 enrolled in the three basic courses being offered. In the fall of 1955, 45 were students in the two courses being given.

Up until 1955, there was about one physics major graduated every two years, Dr. Alfred Kraus, department chairman, has said. Now, about three are graduated annually.

The department offers three degrees: a bachelor of science degree; a bachelor of arts degree, tailored to those who intend to go into high school teaching; and a master of science degree.

Students take between 50-70 units of physics and mathematics for their undergraduate degrees. In subject matter, the department "specializes in spreading out," according to Dr. Kraus. Students are given a good core in the basics and brief introduction to many of the specialized fields encompassed in the area of physics. They then can go on to specialize in a chosen area, such as atomic physics, theoretical physics, mechanics, sound, optics, electro-magnetism, or the tongue-twisting magnetohydrodynamics, a field which is investigating use of oceanic substances to make energy.

To carry on this teaching task, the department, which has been housed for the past 4½ years in one of the simple quonset structures near North Hall and fraternity circle, boasts some of the most up-to-date equipment available for the teaching of and research in physics.

In addition to a machine shop and electronics shop, there is equipment for measuring the velocity of light; X-ray equipment used to investigate the structure of the atom; scintillation counter equipment, said to be 100 times more effective than a geiger counter in detecting and measuring radioactivity; a vacuum system capable

of producing a vacuum of one-billionth of atmospheric pressure; and an analog computer which can solve in three minutes a calculation it would take months to do otherwise.

The department also has for use a stock of radioactive materials. These are kept safely stored in a pit four feet under the building. Small portions of the "hot" substances are made into capsules for classroom use. These contain enough radioactivity that close track is kept of them, but they are used for such a short time that there is no danger involved, according to Dr. Kraus.

Although the main emphasis is on teaching, research is not forgotten. For instance, Dr. Kraus currently is investigating the bond which holds together the alpha particles in the nucleus of a beryllium atom. In the field of bio-physics, Gilbert White '55, instructor in physics, is tracing where vitamin B₁₂ goes in mice. A graduate student, interested in the astrophysical area of subject matter, is trying to discover why the universe is expanding.

In addition, a group of undergraduates have begun construction of a 1/3 million volt accelerator that will produce 14 million electron volt neutrons to be used to study the structure of the nucleus of the atom.

Job openings for young graduates? Good, the department head has stated. In several instances, recruiting people have come to the department in search of promising physicists. Of recent graduates, one is doing graduate work in Germany, one is working for Lockheed in its satellite operations, and three are employed at the Livermore atomic energy plant.

MECHANICAL HELPER: Jim McRae of North Hollywood uses the analog computer to solve a difficult calculation under the watchful eye of Dr. Alfred Kraus, department chairman.

Information Please: NEW

Coming from homes as close as Stockton itself to sites as far away as Spain to serve in a variety of departments ranging from art to zoology, 15 full-time and four part-time teachers and staff members joined the Pacific faculty in September, with two more slated for part-time teaching assignments in the spring.

The various science departments top the list of those welcoming new staff members, with five new faces seen in the classrooms and laboratories.

Heading the new department of biological sciences, a combination of the former zoology and botany departments, is Dr. Ernest P. Edwards, formerly associate director of the Museum of Natural History in Houston, Texas. A member of Phi Beta Kappa, he received his bachelor's degree from the University of Virginia and his master's and doctor's degrees from Cornell University. The department chairman and professor of zoology is a national lecturer for the Audubon Society and the author of numerous papers, many of which deal with the birds of Mexico. He presently is writing a book entitled *A Guide to the Birds of Mexico*.

Dr. Steve J. Grillos is the new associate professor of botany. A member of the Modesto Junior College faculty prior to his C.O.P. appointment, he received his bachelor of science degree from the University of Denver, his master of science degree from the University of Wyoming, and his doctorate from Oregon State College. Dr. Grillos served as a visiting professor at the National Science Foundation Biological Institute at Austin State College in Texas this past summer. He also was on NSF institute faculties at Oregon State in 1958 and the University of Wyoming in 1959.

The addition of Dr. James Blick to the department of geology-geography staff is enabling Pacific to expand its offerings in geography. The assistant professor joined the staff from Fullerton Junior College. He received his bachelor's, master's and doctor's degrees from UCLA.

C.O.P. alumnus Gilbert White has returned to his alma mater as an instructor in physics. A 1955 graduate, he has done further study in physics at Stanford and the University of California and is now working for his master's degree at Pacific. He formerly was a research laboratory assistant at Cal's Donner Laboratory. The new instructor, a member of Phi Kappa Phi, is especially interested in cancer research involving radio-frequency treatment.

Joining the chemistry staff as an instructor is Alexander Vavoulis, who is studying for his doctorate in education at Pacific. Vavoulis received both his bachelor's and master's degrees from Brooklyn College and has done further graduate study at the University of North Carolina.

The department of business administration claims three new members.

Martin S. Greene comes to the department as an associate professor. A certified public accountant and former businessman, he joins the faculty from the University of Nevada. A native of New York, he received

NEW FACES: Gathering in Anderson Social Hall (l. to r.) Arthur Swann, Alex Vavoulis, Norman Gustafson, Dr. Steve Grillos; and (seated l. to r.) Roy Malley, Riddles, and Dr. Ernest Edwards.

his bachelor of arts, master's and bachelor of laws degrees from New York University.

Joining the business administration part-time faculty in the spring as lecturers will be James R. Gardner, director of planning for the City of Stockton, and S. Craig Hubbard, a self-employed realtor. Both will teach courses in the department's new emphasis in real estate.

The addition of Patricia Leyden and Robert Kreiter to the staff of the department of modern languages as assistant professors will help to meet the needs of the phenomenal increase in enrollment in the department since 1958.

A member of Phi Beta Kappa, Miss Leyden received her bachelor's degree from the University of Missouri and her master's degree from Indiana University. She also has studied at the Instituto Tecnológico de Monterrey and Universidad Nacional de Mexico, spent last fall at the Université de Grenoble, France, and studied during the spring at the Universidad de Madrid. Experienced in language laboratory work, she was a lab assistant at Stephens College and Missouri and directed the language lab at Mary Baldwin College, Virginia, during the 1958-59 academic year.

Kreiter, a Fulbright scholar at the Université de Caen in 1956, will teach part-time. He received his bachelor's and master's degrees from Ohio State University and is now working towards his doctorate at the University of California, where he was a teaching assistant last year.

NEW FACULTY, 1960 - 61

social hall chat about their new roles at C.O.P. were (standing Norman Gustaveson, Dr. Laurence McLeod, Dr. Jay Reeve, and Roy Mallery, Martin Greene, Mrs. Erwin Burmeister, James

The School of Education also lists two faculty additions.

Dr. Jay W. Reeve, psychologist and guidance counselor in the Modesto City Schools for the past two years, received his bachelor's, master's, and doctoral degrees from Stanford and holds a diploma in advanced Japanese from the University of Michigan. The new associate professor has been listed in three editions of "Who's Who in American Education."

Mrs. Elizabeth Allen, who joins the staff as assistant professor, taught in primary schools in Brentwood, Missouri, and supervised student teachers at the University of Illinois and Washington University in St. Louis. She received her bachelor's and master's degrees from Drury College, Missouri, and is now a doctoral candidate at Washington University.

Dr. Laurence McLeod is a new addition to the department of psychology. Former dean of liberal arts and dean of the graduate school at the University of Tulsa and a teacher last year at Benedict College, South Carolina, the new professor received his bachelor of arts degree from the University of Arkansas and his master's and doctor's degrees from the University of Chicago.

Mrs. Elizabeth Mason, who received her bachelor's and master's degrees from the University of Louisville, will teach part-time in the psychology department. She

comes to her present position from the Stockton Unified School District.

Joining the art department faculty is Roy Mallery, formerly with the University of Oregon and Eugene School District No. 4. A graduate of George Peabody College for Teachers, he received his master's degree from the University of Oregon and also has studied at the University of Southern California. The assistant professor is skilled in water color, cassein, and oils and has given one-man shows in Modesto and Del Lake, Oregon.

Arthur Swann comes to Pacific as director of libraries from a position as librarian at California Western University. A graduate of the University of Michigan, he received his bachelor's degree in library science from Peabody College, his master's from the University of Michigan, and his bachelor of divinity degree from Vanderbilt University. A former assistant professor of library science at Peabody College Library School, he also served as Garrett Biblical Institute librarian for five years.

Other recent additions to the library staff are James Riddles, reference librarian, who came to Pacific in January, and Mrs. Erwin Burmeister, assistant reference librarian, who arrived in late September.

Riddles received his bachelor's degree in music from Arizona State in Tempe and his master's degree in library science from the University of Southern California. He formerly served for eight years as senior librarian in the San Diego Public Library system.

A member of Phi Beta Kappa, Mrs. Burmeister previously has held librarian positions at Barnard College, New York; Milwaukee Public Library; and Milwaukee Public Museum. She received her bachelor of arts degree magna cum laude from the University of Minnesota and her master's degree in library science from the Columbia University School of Library Service.

Two former C.O.P. students have returned as instructors of physical education. James Pilkington, who received his bachelor's degree from Drake University and his master's degree from C.O.P., comes from a teaching position in Iowa City, Iowa. John Felix, a star C.O.P. water polo player during his undergraduate days, joins the faculty part-time while completing requirements for his master's degree. He served as a graduate assistant in the mathematics department last year.

Mrs. Alice L. Harris, a C.O.P. alumna, will serve as an instructor part-time in the home economics department during the fall semester.

Completing the list of new faculty members is Norman F. Gustaveson, new executive secretary of Anderson "Y." The Y executive, who has just returned from the London School of Economics where he did a year of postgraduate work in international relations, received a bachelor of arts degree from Drake University and both a bachelor of divinity degree and a master of arts degree in theology and higher education from the University of Chicago.

World Premiere Set *"The Outcasts"* ARE COMING

College of the Pacific will be the scene of a world premiere December 2 and 3 when Stanworth Beckler's prize-winning opera "The Outcasts of Poker Flat" is staged in the Pacific Conservatory.

An adaptation of the Bret Harte story, the one-act opera was unanimously selected winner of the Pi Kappa Lambda national Chamber Opera Competition in May, carrying with it a \$1,000 award.

Over 50 compositions, some by nationally famous composers, were entered in the competition, John Gilchrist Elliott, C.O.P. professor of piano and president-general of the national honor society, has said. Judges were J. F. Goosen, professor of composition at the University of Alabama; Ludwig Zirner, professor of composition at the University of Illinois; and Thor Johnson, conductor and former director of the Cincinnati orchestra.

In accordance with contest rules, the opera is approximately one hour in length and suitable for performance in college level opera classes.

Reflecting back on the beginnings of the opera, Beckler, an assistant professor of music at C.O.P., said his adapting the Bret Harte story was first suggested in a Conservatory staff meeting early in January. Immediately taken with the idea, he began collaborating with his longtime friend and classmate, Jon Pearce '49 of Stockton, an English teacher at Lincoln High School, who did the libretto.

The team, which had collaborated previously on an oratorio, completed the opera in seven weeks, just in time to make the contest's February deadline.

Beckler said that the opera follows the content of the story very closely. Written in the mid-19th century, Harte tells of the plight of the gambler Oakhurst, the Duchess, Mother Shipton, and Uncle Billy as they are cast out of the suddenly-reformed Poker Flat. Stopping to camp in a mountain range as they make their way to Sandy Bar, the party is come upon by a young couple eloping to Poker Flat, Tom "The Innocent" and his girlfriend, Piney. A severe snowstorm strands the travelers in their mountain campsite and serves as a catalyst in bringing forth the true characters of the varied band.

In setting the story to music, Beckler adapted many of its dramatic subtleties into the score. For instance, in creating the effect of Piney's accordion playing as the travelers wait for the storm to pass, the composer scored a section for the woodwinds, purposely writing in wrong notes to simulate the young girl's amateur efforts on the musical instrument.

The play premiere is a joint effort of the Pacific Conservatory of Music and the drama department. DeMarcus Brown, Pacific Theatre head, is working with the dramatic action, sets, and costuming, while Dean J. Russell Bodley is conducting the performances and Arthur Corra is working with the 30-piece chamber orchestra.

Veteran Conservatory performers Malcom Stone '56 and June Hook Spencer '53 will appear as Oakhurst and the Duchess, respectively. C.O.P. students are cast in the other roles.

The Pi Kappa Lambda award is the latest honor to be bestowed on the 36-year-old Beckler.

The composer, who received his bachelor's degree from Pacific in 1950 and his master's degree in 1951, took honorable mention in the national George Gershwin Memorial Contest in 1954 and won the James D. Phelan award in 1955. He also took third prize in the Thor Johnson Composition Contest in Organ and Brass in 1958 and in 1951 won the Centennial Ode Composition Contest at Pacific.

Pi Kappa Lambda has reserved all performance rights on "Outcasts" for the first year, with approximately 20 schools having chapters of the national music honor society scheduling performances of the Beckler opera. It will then be available for general presentation, with scores available for either piano or orchestra.

As a curtain-raiser for the premiere performance, Pacific Theatre will stage "The Sire de Maletroit's Door," a one-act play adapted from the Robert Louis Stevenson story by Lawrence Langer.

Advance tickets for the outstanding event are available by writing or calling the Pacific Theatre ticket office on campus. Seats, all of which are reserved, are priced at \$2 and \$1.50.

THE COMPOSERS: Jon Pearce (standing) and Stanworth Beckler look over a portion of the score of their prize-winning opera "The Outcasts of Poker Flat."

THE *Campus* NEWS FRONT

Colliver Lectureship Set

Dr. L. Harold DeWolf, professor of systematic theology at Boston University and theological consultant for the National Council of Churches, will headline the fourth annual George H. Colliver Lectures in Religious Education, Group Work, and Recreation on campus November 28, 29, and 30.

"Biblical Beliefs and Christian Teaching" is the theme of the three-day program of lectures and discussion sessions. Three principal addresses by Dr. DeWolf are scheduled: "God in Contemporary Theology" on Monday evening, "The Father and the Son in Christian Education" on Tuesday morning, and "The Counselor" on Tuesday evening.

A series of five discussion sessions will meet starting Tuesday morning to consider the areas of Dr. DeWolf's talks. Groups for two of the discussion sessions will be divided according to the participants' specific professions or teaching interests.

Five outstanding resource people will participate in the lectureship, which memorializes the late founder and first chairman of the Department of Bible and Religious Education. They are Dr. James M. Robinson, Southern California School of Theology; Dr. Wayne Rood, Pacific School of Religion; Dr. F. I. Sheeder, executive secretary of the Board of Christian Education and Publication, United Church of Christ; Dr. Henry M. Bullock, general secretary of the editorial division of the Board of Education of the Methodist Church; and Dr. Ruth Sprague, Board of Missions of the Congregational Church.

During the closing summary session, the resource people will present the implications of Dr. DeWolf's presentations as they see them, with time allotted for Dr. DeWolf's answers.

The 1960 Colliver lecturer received his bachelor of arts degree from Nebraska Wesleyan University and his bachelor of sacred theology and doctor of philosophy degrees from Boston University. A minister in Nebraska and Massachusetts for 10 years after his ordination, he joined the Boston University faculty in 1934 and, since 1944, has been professor of systematic theology. He also served for a year on the faculty of the Methodist Theological Institute at Lincoln College, Oxford, England, and this year was Cole Lecturer at Vanderbilt University Divinity School.

Dr. DeWolf has been a special consultant on theological education in Central and East Africa for the Methodist Church and the International Missionary Council. Since 1958, he has been theological consultant

to the curriculum committee of the Division of Christian Education, National Council of Churches.

Open to the public for a registration fee of \$1, the lectureship is designed for parents, teachers, church school workers, youth and character agency personnel, and ministers.

Complete programs and registration forms are available from the Department of Bible and Religious Education, C.O.P.

C.O.P. Invited to Workshop

Pacific has been invited to participate in the fifth annual Campus Community Workshop sponsored by the Danforth Foundation of St. Louis.

The workshop, which will provide for an intensive study of ways and means of raising the level of excellence in such areas as curriculum, administration-faculty-student relationships, counseling, evaluation, and religion and values in relation to educational objectives, will be held from June 19 to July 8, 1961, in Colorado Springs. It will bring together representatives of 30 liberal arts colleges throughout the nation, including four schools of liberal arts within private universities.

The participating colleges are primarily involved in undergraduate education, have a student enrollment under 3,000, are regionally accredited, and "are all highly respected for their academic achievements and the continuing efforts to increase scholastic competence," according to the invitational letter.

Scripps College and the liberal arts college of Stanford are the other California institutions which have been invited. The list of participants also includes Antioch College, Clark University, Hampden-Sydney College, Kenyon College, Oberlin College, Smith College, Washington and Lee University, and the liberal arts colleges of Northwestern University, Tulane University, and Washington University.

Faculty "On The Go"

The past month has seen many faculty members participating in conferences and workshops throughout the state. Included in the group were Miss Kathleen Shannon and Dr. Frank Lindhorst, resource people for a Merced Workshop for Church Leadership; Dean J. Russell Bodley, guest conductor at the annual University of California High School Singing Festival; Dr. Lucas Underwood, moderator of a panel discussion on opera repertoire at the Western Regional Conference of the Central Opera Service in San Francisco; and Dr. David Bruner, panel member at a session of the annual meeting of the County Welfare Directors Association of California.

Mrs. Wilhelmina Harbert and Miss Betty Isern served as program chairman and local chairman re-

spectively for the 11th annual conference of the National Association for Music Therapy, Inc., in San Francisco; and Lawton Harris was a resource person in recreation at the Governor's Conference on Aging. He also was a member of the 100-man planning committee for the conference and is taking part in a compilation of a report on the event.

Rev. Tarr Joins Staff

Reverend Robert Tarr will join the Pacific development staff as administrative assistant in mid-November, President Robert E. Burns announced recently.

Appointed to his new position by Bishop Donald H. Tippet, Reverend Tarr is a native of Ohio. He graduated from Mt. Union College, Ohio, and received his bachelor of sacred theology degree from the Boston University School of Theology.

Coming from Oak Park Methodist Church in Sacramento, the new administrator served student pastorates in Ohio, was a pastor in Seattle for a short time, and has had churches in Sonora, El Cerrito, and Sacramento since coming to California.

Tarr has served on various California-Nevada Conference committees, was secretary and a member of the Board of Directors at Goodwill of Sacramento, and is a member of the California National Guard, Masons, and Ft. Sutton Lions Club.

Tarr is married to the former Frances Wagner of Stockton and has a 5-year-old daughter and 8-year-old son.

Associates Re-Elect Officers

Stuart Gibbons, Stockton realtor, was re-elected president of the statewide organization of Pacific Associates at the annual fall meeting of the group on October 1. Also re-elected were Stocktonians Dahl Burnham, vice-president; Nathan White, secretary; and Frank McKeegan, treasurer.

Largest Frosh Class Recorded

The largest freshman class in Pacific's history, 498 strong, leads an impressive array of enrollment statistics for the fall semester.

The freshman enrollment showed an 18 per cent increase over the frosh figure of 423 at the same time last year. Other statistics show an increase of 10 per cent in full-time enrollment, with 1803 registered as of October 15, and a 6 per cent increase in the total registration, with 2233 listed for course work on either a full-time or part-time basis.

Total enrollment by classes are 498 freshmen, 422 sophomores, 438 juniors, 447 seniors, and 259 graduate students. Unclassified students and auditors make up the remainder of the grand total.

Full-time students come from 35 states from Massachusetts to Hawaii and Michigan to Texas. Two interest-

ing sidelights are that Hawaii is second to California in the number of students enrolled, with 15, and that, within California, 88, or 18 per cent of the freshman class, hails from Los Angeles County.

On campus also this semester are foreign students from 20 foreign countries: Philippines, Kuwait, Turkey, Chile, Saudi Arabia, Canada, India, Hungary, Netherlands, Italy, Panama, Cuba, Lebanon, Kenya, Korea, Hong Kong, Syria, Sweden, Peru, and Cyprus.

Chemistry Grants Total \$28,000

The chemistry department began the academic year with approximately \$28,000 in new and renewed grants. Included in the list were a renewal for the second year of a grant from the American Cancer Society for continuation of studies dealing with the use of tetracycline for the transportation of fissionable atoms to cancerous tissue and a Research Corporation renewal for research on the rates and mechanisms of esterification reactions using high frequency methods.

Dr. Jesse Binford will continue research on materials that can withstand high temperatures without disintegrating, changing their atomic make-up, or changing the presence of other substances with which they might react under the auspices of a grant from the Petroleum Research Fund.

The National Science Foundation is again financing an in-service institute for 30 high school teachers designed to upgrade and improve the background knowledge of teachers. The teacher-scholars meet weekly on campus for a two-unit late afternoon course in organic chemistry.

Forensics Team Wins Trophy

College of the Pacific's forensics squad, one of the largest in its history, started out its season in the win column by taking the Northern California Forensics Association sweepstakes trophy for the fourth year in a row at a late October tournament.

The squad scored 236 points out of a possible 246, with Stanford placing second with 220 points. Under the point system, the scores of the top three people only on each squad were used in determining the sweepstakes winners. This gave every school, no matter how large or small their squad, an equal opportunity, according to Paul Winters, C.O.P. forensics coach and president of the NCFA.

Over 300 students from 18 colleges and junior colleges competed in the event, which was held on the Pacific campus. On the tournament schedule were extemporaneous speaking, in which four C.O.P. students went undefeated; impromptu speaking, in which one Pacific contestant scored straight firsts; novice debate, in which three Pacific squads emerged with a 6-0 record; and experienced debate, where one Pacific team was among those scoring 5-1, the top mark for the division.

Keeping Up *with the* Alumni

1925

Mrs. CLAYTON TOZER (DOROTHY HARDIN) writes that she is keeping herself busy lately as a housewife and helping her husband in his drugstore.

KENNETH MACKENZIE, a transportation officer for the Military Subsistence Supply Agency, with headquarters in the Los Angeles region, has been "keeping his hand in" in music, mostly directing choirs.

Mrs. LEVI LUCAS (GLADYS DUFUR) plans to retire in June, 1961, after being an elementary teacher for the past 20 years in Los Angeles, and devote herself to religious work; her family, which consists of two grandchildren so far; and writing. Besides her teaching, she now is active in teacher organizational work in the NEA, CTA, and Los Angeles Elementary Teachers Club.

1929

BERNARD TREASTER has accepted a one-year appointment as acting counselor for Sacramento City College.

1930

GILBERT COLLYER, for 11 years president of Shasta College, has been active in the State Junior College Association and presently is serving on the National Commission for Accrediting Colleges.

Mrs. KARL BOEPFNER (HELEN TRENT) is supervisor of the Society to Protect Children in Philadelphia, Pennsylvania.

1934

Mrs. GREYDON MILAM (BETTY COFFMAN) had a one-woman art show in a Modesto bookstore in September. Exhibited were approximately 20 oils, watercolors, and encaustics and ten sculptures. The alumnus is an art teacher at Modesto High School.

1935

Dr. CHARLES WEBSTER is part of a team doing open heart surgery in Sacramento.

GEORGE CORSON is spending this academic year as director of athletics and physical education at the U.S. Armed Forces Dependents High School in Paris, France.

Mrs. DAVID WILLETTE (VIRGINIA TWOMBLY) is now a teacher in the Burlingame schools' gifted child program. She previously was with the American Red Cross as a social worker.

ROY HAMMA, who was with Hughes Aircraft Company for 18 years, has been a self-employed lawyer for 2½ years in Beverly Hills and the Brentwood area of Los Angeles.

JAMES M. BRYAN, M.A. '36, has been elected a member of the Alameda County Board of Education. A long-time educator, he was principal of Alameda High School at the time of his retirement in June, 1959.

1940

CLAYTON LONG, who is principal of Redwood Junior High School in Napa, is currently serving as president of the Napa Rotary Club.

GEORGE BRIARE is now assistant manager of the Country Club Center office of the Wells Fargo Bank-American Trust Company in Sacramento.

GLADYS (SANGUINETTI) and JOHN DE ARRIETA are living in Canoga Park, where she is teaching business education at Reseda High and he is an engineer for Atomics International, a division of North American.

1944

EUGENE EGBERT is now stationed in Japan, with headquarters in Tokyo, where he is passenger traffic manager for American President Lines. An employee of the firm since 1948, he

spent 2½ years at sea on the President Cleveland trans-Pacific and the President Monroe around the world before he was transferred to the organization's Honolulu office for 7½ years. After leaving his Hawaii post, he spent 3½ months in Hong Kong and 3½ months in Manila before being permanently assigned to the Tokyo office.

1945

Mrs. JOHN DOUGHERTY (MARLOUISE ROUTZAHN), her husband and two sons will be traveling from Great Falls, Montana, for her class reunion.

1946

Dr. RICHARD PEDERSEN, former deputy counselor of the U.S. Mission staff at the United Nations in New York, has been promoted to counselor.

1947

Dr. EDWARD L. McCLARTY has been appointed associate director of speech at Stanislaus State College. Part of his responsibility at the new college will be the development of a special workshop in educational television which is being offered on Saturday mornings. The workshop satisfies the California credential requirements in audio-visual education. Dr. McClarty also is continuing as director of radio and television at Modesto Junior College.

Capt. LEONARD A. HUGHES, US AF, recently was awarded a trophy as the Outstanding Speaker at the U.S. Army Information School at Fort Slocum, New York. Picked from 35 contestants, the alumnus has returned to his assignment at Gunter Air Force Base after completing the eight-week course in military information dissemination techniques.

1948

JEANNE INWOOD, who received her master's degree from the University of California in June, is now

assistant librarian at Monterey Peninsula College. Before coming to her new job, she served overseas with the U.S. Air Force and the Office of Naval Research in London and worked also at the Fort Ord Library and in the British Information Service at the British Consulate General's office in San Francisco.

1950

RUDY JENSEN is now stationed in Miami, Florida, on an assignment from the Federal Bureau of Investigation, for which he is a special agent. He recently completed a tour of duty in Washington, D.C.

KENNETH BALDRIDGE left the United States in late August for a four-year teaching assignment at Church College.

VERL SHORT and family are now in Germany where he is an educator with the Department of the Army Dependents' Education Group.

DON BEAVER is presently division manager for Speedee Mart, Inc., in Tustin.

DON DRIGGS is assistant city manager for the city of Fremont, which, he says, is California's third largest city.

HARRIET (SCOTT) SILVER is presently conductor of the San Gabriel Valley Junior Symphony and the Edgewood Symphony in Southern California. She recently had a teaching fellowship at the University of Texas while working for her doctorate.

ROBERT SATTERLEE is now head of the student counseling bureau and professor of English at Cal-Western University in San Diego, a Methodist-affiliated college.

ROBERT PIPPITT was recently appointed quality control manager of the feed division of The Pillsbury Company at its headquarters in Minneapolis.

1951

DOUGLAS CAMPBELL is now serving as deputy superintendent of the Alameda County schools. A candidate for his doctor's degree in edu-

cation from Stanford, he formerly was a general consultant in education for the El Dorado County Schools in Placerville.

KENNETH HILL, who received his master's degree from his alma mater in 1959, has been employed as coordinator of instructional television to serve the 13 Bay Region counties in a liaison capacity with KQED. Hill will work with county offices, school districts, administrator groups, and teacher groups to coordinate the curriculum of the instructional television programs for the schools using the service. As part of his responsibility, he is establishing an information center for the release of publications and other information about the programming on KQED.

JOHN WITHERSPOON, director of broadcasting for Stanislaus County schools for the past five years, has been named supervisor of school program production for educational television Channel 6, Sacramento. A radio and television instructor also at Stanford for the past two years, the alumnus will direct a portion of the programs to be seen in classrooms in 14 California counties and will be in general charge of production of all school programs. His children's radio programs have won, in past years, two national awards from the Institute for Education by Radio and Television at Ohio State University.

CLARENCE WALTHER, who also received his M.A. from Pacific in 1956, is now on the staff of the Sonoma County Superintendent of Schools as a psychometrist and psychologist.

1954

Mrs. RUTH WARREN, who received her master's degree from Pacific in '54, is teaching English at Petaluma Senior High School. She taught previously in King City, Tracy, Stockton, and French Camp.

Dr. PHILIP WOGAMAN, his wife, and small son, are now in Costa Rica attending language school in preparation for a post-Christmas missionary assignment to the Seminario Evangelico de Teologia in Matanzas, Cuba. As of last reports, they anticipated no trouble entering Cuba.

1955

CARROLL BELL is a seventh grade teacher in the Taft school system.

JACK MANSFIELD is teaching U.S. history and speech at San Ramon High School in Danville.

Mrs. LAWRENCE FONES (NADINE REASONER) is serving as a speech therapist and teacher at the Cameron School for the Orthopedically Handicapped in El Cerrito.

DUANE BLACKWILL has returned to his high school alma mater, Tulare, as a football coach and teacher.

GEORGE NISHIKAWA is now pastor of the Berkeley Methodist United Church. He previously served for two years as pastor of Pioneer Methodist Church in Sacramento.

Mrs. EDMOUND NIX (PATRICIA BOYER) is working as a library assistant in the Veterinary School of Medicine, Texas A. and M., while her husband finishes his schooling.

LARRY WELLS is presently vice-principal of Franklin Elementary School in Berkeley.

HOWARD BUCKNER has returned from Oregon, where he was classical music program director for a radio station, and is teaching elementary school social studies and elementary and high school music in Geyserville.

ELOISE HALDEMAN received her bachelor of music degree from the University of Southern California during the summer and has stayed in the "Southland" to teach choral and general music to seventh and eighth grades in two schools in Beverly Hills.

1956

BRUCE SHORE received his doctorate from M.I.T. in August and has moved to Washington, D.C., where he is doing work in the field of chemical analysis.

1958

CHARLES (CHUCK) CHATFIELD is teaching physical education at Sacramento City College.

1960

FREDERIC MICHAEL TREVITT is now serving a three-year tour of duty in the Navy. He is stationed aboard the USS Rupertus which has its home port in Japan.

Mrs. MARGARET (KIPP) MACKIE is employed as a kindergarten teacher at Franklin Elementary School in Franklin, near Elk Grove.

Doing graduate study this year are RICHARD WILLIAMS at the Uni-

versity of Washington; GARY CARVER, at Pacific; PHYLLIS ST. SURE, at George Washington University; and RON LOVERIDGE, on a three-year fellowship in Soviet studies and political science at Stanford.

DOUGLAS KELLER is assistant manager of Keller Brothers Meat Company in St. Helena. He assumed his position after spending the summer in Europe with seven other C.O.P. students.

Married

SONJA JOHANSON '60, Kappa Alpha Theta, and TOM ROBINSON '59, Delta Upsilon, in Ebenezer Lutheran Church, San Francisco, on July 16. The newlyweds are living in Fresno.

NANCY PARIS '60, Delta Gamma from Los Angeles, and Andrew Mac-tavish of New Mexico in late August rites in Eagle Rock Presbyterian Church. The couple is living in North Hollywood.

JIM LYNN '60 of San Mateo and Barbara Whitfield in Temple Methodist Church in San Francisco on August 13. The groom is now a student at Drew University, New Jersey.

SHIRLEY DAULTON '60, a Delta Gamma from Yuba City, and Philip Zwanck in Yuba City Methodist Church July 16. The newlyweds are making their home in Sacramento.

DOLORES GIBSON '59 and OM BHARDWAJ x'62 in a ceremony performed by the bride's father in Antioch First Methodist Church on August 11. The bride, a musicologist consultant, and groom are residing in Berkeley.

MARLO GRIFFIN '60 and DONALD JOHANSON '59 in St. John's Episcopal Chapel in Monterey on July 30. The couple is residing in Fresno, where the groom is employed as a pharmacist.

MARY JONES '59 and Alan Smith, University of California alumnus, on June 12. The bride, a teacher at Taylor School, and groom, an attorney with the San Joaquin County district attorney's office, are making their home in Stockton.

BARBARA POLLITT '59, a Delta Delta member from San Francisco, and William Lowery Bunting in a fall ceremony in St. John's United Church of Christ in San Francisco. They are now residing in Lake County.

BILL BECK '57, a member of Archania from Lodi, and Mary Bullock of Dallas, Texas, in the bride's hometown on June 6. The couple is living in Galt, where the groom is serving the Methodist Church.

DOROTHY ANNE BUSHER '60, Delta Gamma from San Francisco, and KIT CARPENTER, Alpha Kappa Phi from Brentwood, in Morris Chapel rites on August 14 at which the bride's father officiated. Both active in campus activities during their undergraduate years, they have established their first home in Stockton.

BARBARA BUTTERBAUGH x'61, of Ventura and JACK BYBEE '58 of Tracy on September 3 in the First Baptist Church of Ventura. The bride, a member of Kappa Alpha Theta, AWS, and associate editor of the yearbook, and her husband, a

member of Alpha Kappa Phi, are living in Berkeley, where the groom is in his second year of law school at the University of California.

KATHERINE LUM '60, C. O. P. pharmacy graduate, and Jung S. Owyoung of Isleton, in nuptial ceremonies in Morris Chapel on August 28. The newlyweds are now residing in Stockton.

CAROL KING '59 of Stockton, and Dr. Thomas Young, former assistant professor of physics at C.O.P., in an informal ceremony in the home of her parents, Dr. and Mrs. Lloyd King, in August. The couple is living in San Antonio, Texas, where the groom is a professor of physics at Trinity University.

JOAN BENDER '60, Kappa Alpha Theta member from Sacramento, and Robert Griffin, a 1960 Sacramento State graduate, in St. Matthew's Episcopal Church in their hometown on August 14. They are at home in Davis, where the groom is a contractor.

BETTY CLAY x'62 from Whittier and WILLIAM NIETMANN '59 from Stockton in a September 3 ceremony. The bride and groom are residing in Alhambra.

JULIANNE KEAST '58, former Epsilon Lambda Sigma affiliate, and GLENN HOIBY in Riverside on August 6.

Births

The Alan Coburns of Richmond added a charmer to their family with the birth of a daughter, Lisa Marie, in Berkeley on June 23. The baby has two brothers: Dale, 4½, and Bobby, 2. Mom is the former Betty Jean Merritt '46.

A daughter, Stacey Lynn, was born to Buck Del Nero, C. O. P. junior and end on the Tiger football team, and his wife September 2 in Dameron Hospital, Stockton.

Monroe '50 and Jeanne (Gist) '51 Hess welcomed a second son in June. Hayden joins four-year-old

brother David in the Hess family nursery in Stockton.

Todd Alex is the name of the latest addition to the Quentin Talbot household in Chico. Mom is the former Virginia Verschagin '54. Pop, a member of the Class of '55, is a history teacher at Chico High School.
