PACIFIC REVIEW

Volume 8—No. 5

March, 1974

Teacher Corps students work successfully with children in the community schools as part of their education training.

Education Celebrates 50th Year

The University of the Pacific School of Education celebrates its 50th anniversary during Pacific Day, April 27. Looking at its history, filled with expansion and innovation, one might say that it is indeed a time for celebration, acknowledgement and praise.

In 1923, when Pacific made its move from the San Jose campus to the new Stockton campus, Dr. J. William Harris, head of the Education department, Pacific President Tully C. Knoles and the board of trustees saw the need for a school of education.

Futhermore, the state superintendent of public instruction and the president of the state board of education both expressed their desires to Knoles that Pacific should be more actively involved in preparing more and better teachers for California schools.

A plan was submitted to the state board of education in the fall of 1923 and on January 10, 1924, the new School of Education with Harris as dean was established. It was then formally recognized by being placed on the official list of colleges and

universities in California authorized to grant recommendations for general high school and special secondary teacher credentials.

Harris served as dean from 1924-1944. During that period, he was instrumental in expanding the offerings in education and in serving the growing needs of the teaching

"... the school has also been at the front end of other programs ..."

profession. Under Harris, 216 degrees and 1,615 credentials were awarded.

In 1940, Dr. J. Marc Jantzen came from the University of Kansas to join the School of Education staff. On July 1, 1944, he became dean, and the school under Jantzen has been prosperous in terms of development of new ideas and expansion of programs.

Among the private colleges and universities in California, Pacific is

second only to University of Southern California in the number of degrees and credentials that have been awarded. From 1945 until 1973, the school has awarded 1,179 degrees and 5,244 credentials. Degrees include the Bachelor of Arts in Liberal Studies, Master of Arts in Education, Master of Arts, Education Specialist and Doctor of Education. Credentials include those in elementary school, secondary school, and administration and supervision. Additional credentials awarded in which Pacific's School of Education was a leader in the development of the programs include early childhood, speech and hearing, mental retardation and pupil personnel services. The school has also been at the front end of other programs.

One of UOP's successful programs, Teacher Corps, had as its model a pilot study designed at Pacific. In 1954, Jantzen chaired a state committee on "The Role of the Junior College in Teacher Education." Through its studies, the committee discovered a potential group of economically disad-

vantaged students in the junior college system that could be recruited into a teacher education program. Pacific accepted the challenge to work with these students. The Rosenberg Foundation funded the administrative costs and the Pacific Alumni Fund supplied tuition scholarships for the students. So the "Pilot Study in Elementary Teacher Education" was started in 1954. The program trained three groups of students, many of whom were minority students who would go back into the community schools and teach. The study proved successful but, due to lack of funds, was discontinued in 1958.

The pilot study at Pacific was not forgotten, though. When the late President Lyndon B. Johnson passed the bill approving the Federal Teacher Corps Program, Pacific was interested. This new teacher corps was very similar in structure and operation to the pilot study program designed at Pacific, although the federal program consisted only of graduate students. The program wasn't recruiting the undergraduates

(continued on page two)

Education Celebrates

(continued from page one)

who would go back and teach in the economically-deprived schools. Pacific argued that undergraduates were mature enough to handle the program. In 1968, Pacific launched the first teacher corps program for undergraduates. As a result the two-year project was so successful that in 1970, 11 schools nationally adopted it.

Also in 1970, as a result of this first national undergraduate Teacher Corps, the School of Education personnel, in cooperation with the Stockton Unified School District, became the focal point in drafting and passing legislation, creating the first California New Careers program at Pacific, essentially a state version of the undergraduate teacher corps. The program was under the sponsorship of Robert Monagan, assistant secretary of transportation who was then a California assemblyman and a holder of a teaching credential from UOP's School of Education. A new careers program has since been developed at Sacramento State University.

In addition to training teachers, the School of Education has

striving to produce better and more competent teachers by setting up learning activities of theory and practice. It is more realistic to relate theory in practice, with actual teaching experience in the community schools, says Jantzen. For this reason there must be increased communication and activity between the university and the public schools. This new way of teaching, along with the other programs, is in the forefront of education, and teachers and administrators in the schools have to become more aware of the importance of such programs, Jantzen adds.

Another interesting aspect of teacher education at Pacific today is that 80 per cent of the work for the bachelor's degree is done outside of the School of Education. "We are the center at the university responsible for teacher education, but all segments of the university must contribute to the training of the students," says Jantzen.

And now, what of the future? Jantzen reflects: "When I first came to Pacific, there were only four staff members. Since then the school has come a long way, numerically and program-wise. Our job as a private institution is that of a pioneer and innovator. It is good for us to look back, but we can't sit on our laurels. We must also look forward, keep active, keep alive. If we don't we will stagnate."

An important aspect of the future is the upgrading of the school's facilities. With all the progress and expansion that has taken place, the UOP School of Education still remains in temporary housing. When the campus moved to Stockton in 1924, there were plans for a School of Education building. By 1947, the plans for housing the school still hadn't materialized so army barracks were assembled as temporary measures. To look at the outside of the building, covered with ivy, one would not guess that it at one time had housed the military. But a look at the inside reveals cramped quarters and a structure with few possibilities.

The school is utilizing space outside of its present accommodations. The education research lab, for example, is located

*"... we can't sit
on our laurels ..."*

on the third floor of South Hall on campus. In its fourth year, the lab provides training for doctoral students, services the needs of the community and is available for use by other faculty members and students of the university.

So on April 27, the UOP School of Education will celebrate its 50th anniversary and rightly so, for it has and continues to make outstanding contributions to education.

UOP student Michael Bailey tests the bio-feedback device. The three sensors attached to his shoulder measure the tension in the muscle and relay this to him in audible form through the device resting on his lap.

Bio-Feedback Studies Help Alcoholics Recover

A University of the Pacific scientist is involved in a program to help alcoholics recover through "eavesdropping" on their body.

Dr. Howell I. Runion, an electrophysiologist at Pacific's School of Pharmacy in Stockton, is engaged in bio-feedback studies of withdrawn alcoholics at Pacific Medical Center's Garden Sullivan Hospital in San Francisco.

"Bio-feedback involves recovering biological signals from the body and converting this into audible or visual information that the patient can understand and thus be able to do something about," explained Runion.

At the hospital's alcoholism recovery program, this involves monitoring chronic muscle tension and translating this information to the patient via a pocket-sized electronic device developed by ETEC Corporation of Hayward. This electronic device, a key element in the project, is now in prototype design and about the size of a package of cigarettes.

Since last summer approximately 25 patients at Garden Hospital have volunteered for the bio-feedback program, where the patient has painless sensors attached from the muscles of the shoulder to the ETEC electronic device. The resulting measurement of electrical activity of muscle contraction, or electromyogram (EMG), allows the patient to become consciously aware of his condition and able to learn to repress the undesired muscle activity.

"The EMG itself is nothing new," Runion added, "but what we believe is unprecedented is use of the bio-feedback techniques to allow the recently withdrawn alcoholic to eavesdrop on his body; he is able to see and hear when his muscles are

tense and relaxed. Many of us take for granted the ability to relax," he continued, "but for the recovering alcoholic this can be extremely difficult. If he can't achieve it, he simply may never recover."

Runion noted that there are some 9,000,000 alcoholics in the U.S. and "one of the basic causes for alcohol abuse is the alcoholic's need to relieve tension and anxiety. For a short period of time alcohol per-

*"... many of us take
for granted the
ability to relax ..."*

forms this task, but—as in the case of addictive materials—the alcoholic soon requires more liquor while realizing less satisfaction."

Because learning to relax is so important to recovery, the patient must work with the EMG three times daily for two full weeks. "Our results so far are very encouraging, but it is too soon to draw any definite conclusions," Runion added. He did stress, however, that this project is an aide to recovery from alcoholism but not a cure for alcoholism.

The scientist at Pacific also credited ETEC, a private corporation that produces scanning electron microscopes, with being "extremely helpful" in developing the device needed to translate the EMG process.

Runion, a UOP faculty member since 1969, has been interested in the relationship of electronics to pharmacology—physiology for the past 15 years. He directs what is believed to be the only program in the nation that involves undergraduate instruction in electropharmacology.

*"... but all segments
of the university
must contribute ..."*

developed a program where teachers meet other teachers. In 1960, the California Teachers Association (CTA) and Jantzen, a member of CTA, organized a program, taking teachers overseas to give them the opportunity to talk with other teachers and leaders of education. In 1964, the CTA and Jantzen planned another trip, but the CTA later discontinued its program with Pacific. In 1967, the Educational Travel Institute, a subsidiary of People-to-People, the organization founded by the late President Dwight D. Eisenhower, offered to sponsor the trips and Pacific organized its Teacher-to-Teacher Overseas Seminars. Jantzen has since taken teachers to many parts of the world to meet with educators.

Jantzen has also done much to further the summer sessions program. Dean of Summer Sessions for 32 years, he sensed the need for increased intercultural relations. He therefore brought to campus many foreign professors, including Wilhelm Ebert, president of the Bavarian Teachers Association in Munich, Germany; B. C. G. Folsom, professor of political science at the University of Ghana, and Bryan T. Peck, lecturer in education at the Jordanhill College of Education in Glasgow, Scotland.

Today, the School of Education remains active and involved with innovative projects. The school is

McCrone Named New President At Humboldt

UOP academic Vice President Alistair W. McCrone has been named president of Humboldt State University by the Board of Trustees of the California State University and Colleges.

McCrone, who became academic vice president in 1970, will succeed Dr. Cornelius H. Siemens, who retired last fall. His appointment will be effective after the end of the current academic year.

Approximately six months after his arrival at Pacific, McCrone was named acting president following the death of Robert E. Burns. He held this position for 10 months until the appointment of Stanley E. McCaffrey.

McCrone, who holds the rank of professor of geology at Pacific, is credited with initiating the UOP University College and Inter-college Bachelor Degree Program, a new academic administrative information system, organizational consolidation and strengthened administrative roles in academic

Dr. Alistair W. McCrone

promotions, tenure and sabbatical leave policies. He was chairman of the UOP President's Commission on University Goals and the university's Academic Affairs Committee. In 1970, he headed the President's Committee on Governance.

A search committee to select a successor to McCrone has been established, composed of faculty members, administrators and students from the various schools and colleges in the university. Committee chairman is Dean Gordon Schaber of the UOP McGeorge School of Law.

Activities Scheduled During Pacific Day

Two anniversaries and the annual alumni-varsity football game will be highlights of the second annual Pacific Day on April 27.

Started a year ago in observance of the university's 50th anniversary of its move to Stockton, the spring event includes a general campus open house, special displays and exhibits by the various schools, colleges and departments, and numerous programs of interest to the public and special groups. All alumni, parents of current students, prospective students and the general public are invited to attend.

The School of Education will be observing its 50th anniversary on Pacific Day with a luncheon featuring Dr. Wilson Riles, state superintendent of Public Instruction, and a banquet with Dr. S. I. Hayakawa as the speaker. Workshops on various topics will be held throughout the day.

Elbert Covell College will be celebrating its 10th anniversary on

Pacific Day. Founded as the only Spanish-speaking college in the nation, the anniversary celebration is being designed to be of special interest to alumni of the school. Details will be announced in the next issue of the Review.

A day-long open house at the School of Pharmacy on Pacific Day will precede its annual commencement ceremonies on Sunday morning. The school also plans several exhibits and demonstrations during Pacific Day.

The annual alumni-varsity football game is slated for Saturday evening, April 27. Plans currently call for the game to be a twilight contest to be preceded by an all-university barbecue.

Virtually every department of the university is in the midst of planning programs which will be of interest to the general public and returning alumni. Complete details will be featured in the April issue of the PACIFIC REVIEW.

Briefly Noted

The UOP School of Pharmacy was recognized recently in a report by the American Association of Colleges of Pharmacy for its work with "drug analysis services." Drug education programs at Pacific include courses for students, continuing education programs for area pharmacists, courses for educators, and involvement of students in a "Straight Drug Talk" project at area high schools and drug analysis programs.

The Art Marathon at Pacific, involving 55 art students and five staff members, netted \$2,300 from 500 pledges received from local individuals and small businesses. The 33-hour marathon, held last December, "exceeded all expectations for success," says Larry Walker, chairman and professor of the art department.

April 27, 1974

Bangladesh Fund Drive a Success

As a result of a nationwide fund raising drive held during November 1972, commercial kitchen equipment is now arriving at the newly established Bangladesh Food Service Institute.

CONCERN FOR BANGLADESH, a charitable organization founded by students and faculty at UOP, sponsored the drive in conjunction with the National Association of College and University Food Services and Saga Food Service Corporation. The drive netted \$15,000, as well as \$50,000 worth of food service equipment which was donated by the United States food service industry.

The equipment, which includes such items as modern refrigerators and freezers, electric steam tables, gas steam tables, gas steam kettles and ranges, will help to feed the patients of the Sher-E-Bangla Orthopaedic Hospital. Some of these patients will then learn to use the equipment as students in the newly formed school of the culinary trade.

During the fund raising drive, CONCERN FOR BANGLADESH and the other related organizations sponsored a National Feast Day for Bangladesh on campuses all over the nation. On that day every participating college and university served a simple Bengali dinner, with more than 1,000,000 students

donating funds for the project.

A goal of \$30,000 has been set for the 1973-74 fund raising drive, according to Paul Fairbrook, UOP director of auxiliary services and

coordinator of the campaign. CONCERN FOR BANGLADESH, the organization which is again helping coordinate the drive, is headquartered at the Bank of Stockton, Stockton, California, 95201.

Concern's representative in Bangladesh, Dr. Michael Doheny (kneeling), shows future Food Service Institute trainees how to assemble an under-counter refrigerator.

Baseball Team Ready For Winning Season

Tom Stubbs is expecting his 1974 UOP baseball team to make another run at the Pacific Coast Athletic Association championship.

And, there's good reason for his optimism.

He has 17 lettermen returning from last year's 24-26 team, which battled grimly for the PCAA title until the last week of the season before settling for a three-way tie, for third place at 9-9.

The Tigers opened a 48-game schedule Feb. 19 against Cal.

There's an experienced, talented letterman returning at every position except third base—and even then, an ex-outfield starter has moved into that position.

"I think we've got the experience and the ability to make another run at the title," says Stubbs, who is entering his tenth season as Tiger Head Coach. "On the basis of individual performances in our winter-league program, our 1974 record should be much-improved over last year's. The hitting should be improved (UOP hit .250 as a team last year) and the defense should again be solid.

"As always, though, the key to any UOP success this season will rest in the pitching staff," Stubbs adds. "I think we've got a good one."

Stubbs' mound corps will be packed with veterans. It will center around senior lefthander and three-year letterman Rod Bovee, who notched an 8-4 record, a 1.53 ERA and racked up a school-record 149 strikeouts en route to all-PCAA and all-District 8 recognition last year. Bovee owns almost all of UOP's pitching records.

He'll be supported by junior right-

hander Bill Keim, a two-year letterman who registered a solid 6-5 record last year while earning second-team all-PCAA recognition.

Junior lefty Russ Word (3-4) and converted outfielder Rod Beilby, who pitched well during winter league, will also challenge for starting jobs. Larry Prewitt, a left-handed transfer from Sierra J.C., senior righthander Bruce D'Ambra (0-1) and junior lefthander Ted Seghesio (1-1)—both returnees—will bolster the mound staff.

UOP's catching chores will be in competent hands. Junior Dave Abdalla, a two-year letterman who hit .238 and clubbed a school-record six home runs last year, keys the catching corps. Senior Bob Bloomer, a three-year letterman, is also back after hitting .260 last year and sophomore Gary Miyama, who has fared well in winter league, adds valuable depth.

UOP's infield appears to be solid once again with veterans at every position but third base. Senior Scott Boras, a converted outfielder who hit .281 last year, will be Stubbs' third baseman.

Junior Ron Zakoor should lay claim to the shortstop job after hitting .296 and sharing the school home-run hitting record with Abdalla after socking six last year.

Senior Bill Ringer, a starter for the last three years at UOP, returns as the team's first baseman after hitting a career-high .248 last season. Second base is again a UOP stronghold with senior veterans Paul MacDonald (.233), Chris Equinoa (.200) and George Ramirez (.556) returning.

Senior lefthander Rod Bovee gained a school record of 149 strikeouts last year and holds almost all of UOP's pitching records.

The Tiger outfield will be one of UOP's major strengths. Stubbs' outfield crew is fast, can hit with authority and boasts proven defensive ability. Senior Franz Vaiarello, an outstanding hitter whose three years at UOP have been marred by injuries, returns to anchor the outfield. He led the Tigers in hitting for the second time in his

career last year with a .323 average that included four home runs and 26 RBI's. Senior Ken Marshall (.266) is also back along with senior and three-year letterman Mike Backovich. Senior letterman Glen Kaiser, Bloomer when he's not catching and sophomore Tom Sperry, a .250 hitter as a freshman last year, are also available.

Communications Class Examines Rock Music

What was believed to be the first course at an American college to consider rock music as a means of mass communication is being repeated this spring at Pacific.

Scheduled by the Communication Arts Department, the course will examine the many links rock music has to contemporary society, and the influence of this music upon society.

Larry Seidman, a UOP graduate student who will again be teaching the class, said a main objective this year will be how popular music, i.e. rock and roll, becomes a product. He said the business side of rock music will be studied more closely than last year, and he will be receiving assistance in this area from The National Academy of Recording Arts and Sciences Institute. "We will look at the popular

music industry and its relationship to its audience and to society," explained the 24-year-old Seidman, who attended an institute symposium last summer in Nashville, Tennessee on popular music.

Several guest speakers, such as music critics Philip Elwood and Ralph Gleason, University of California History professor Leon Litwack and rock promoter Bill Graham are scheduled to visit the class, according to Seidman. Also planned will be the showing of selected films, field trips to rock concerts and visits by rock bands.

The class, already with a maximum enrollment of 60 students and a waiting list, began February 7 with a program by "Quicksand," a rock band. Several of the sessions later in the semester will be open to the public.

Recruiting—You Can Help

We are interested in spreading the word about UOP to students who might be interested in Pacific. If you know of any prospective student(s), would you please fill in his/her name on the form below and send it to the Public Relations Office, University of the Pacific, Stockton, CA 95211.

PACIFIC REVIEW—Volume 8, No. 5, March 1974. Published by the University of the Pacific, 3601 Pacific Ave., Stockton, CA 95211 nine times a year; October through June. Editor: Chris May. Entered as second class mail at the Post Office, Stockton, CA.

Alumni Participate In "Pacific Calling"

The results of the first two of 12 alumni telephone campaigns point toward a potentially substantial increase in the percentage of alumni participation during the 1973-74 fiscal year, as well as additional scholarship funds.

In both the Walnut Creek-Concord and the San Jose "Pacific Calling" campaigns, the percentage of new and recovered alumni contributors ran into the mid-90's.

At Walnut Creek-Concord, conducted on February 4 under the chairmanship of Timothy G. Royse, COP '62, 96 per cent of the alumni pledging were either brand new or recovered donors, while the San Jose effort conducted on February 6

under the chairmanship of Philip C. Bush, Education '48, produced a 95 per cent factor in those two categories.

The three-fold objective for the 1973-74 "Pacific Calling" campaign is to 1) increase the percentage of alumni who contribute to the support of their alma mater, 2) raise additional funds for the university's extensive scholarship program for qualified and worthy students, and 3) alert alumni to the university's regional meeting in the area.

All together over 500 alumni were on the combined calling lists for the two campaigns. A large percentage of those alumni who did not pledge indicated they might consider a gift

at a later date, before the end of the fiscal year on August 31.

Campaigns yet to be held are as follows: March 19-20 for the Alameda-Oakland area, Thomas R. White, COP '73, chairman; March 19-21 for the San Francisco area, Peter E. Davis, COP '66, chairman, and April 2-4 for the San Joaquin-Stanislaus area, Gordon O. Clark, COP '72, chairman.

These alumni-sponsored and conducted telephone campaigns are

a vital aspect of the university's 1973-74 development requirement of \$856,000; to date, 30 per cent or \$252,300 has been realized.

Of the \$90,000 minimum goal for alumni, \$33,232 has come in thus far.

The telephone campaigns are under the staff direction of Diana Lee Clouse, director of Alumni and Parent Relations, and Marilyn Dunlavy, development assistant in the Office of Development.

Class of 1927 Builds Scholarship Fund

For the past 11 years many members of the Class of 1927 have been building an endowed scholarship fund from which the annual income is used to assist qualified students.

The chairman for the "Class of '27 Permanent Fund" is B. E. Claypool of Sacramento, who was one of the founders of the fund in 1963. Claypool is assisted by two committee members in the continuing promotion of the fund. They are M. P. Stark of Santa Clara and Henderson E. McGee of Sacramento.

The fund was launched in 1963 with a five-year solicitation period to raise the basic principle before announcement at the 40th reunion of the Class of '27. The initial five-year campaign produced \$11,788.90 and the ensuing six years has produced an additional \$7,968.74 for a current total of \$19,757.64.

The fund is combined with the rest of the university's endowment funds, and the annual interest is

used for the scholarship awards, but the fund maintains its own identity and recognition through its name.

The members of the committee, with the cooperation of Donald G. Smiley, director of Financial Aids, meet annually with the award recipients on campus in order to get to know them on a personal basis. The committee, with the cooperation of the Office of Alumni-Parents Relations, under the directorship of Diana Lee Clouse, also continues to follow the careers of the '27 Fund recipients after graduation from Pacific. The committee reports annually to the remaining members of the Class of '27 on their visit with the recipient and on the career development of the past winners.

During the past six years that the income from the fund has been awarded, a total of \$4,900 has been awarded to four recipients, three men and one woman. Three of the four held the scholarship for two

years. The income from the fund is now at such a level that two awards are made annually.

The most recent recipient is still in school while one is pursuing a law

degree at the University of Notre Dame, another is working toward a Ph.D. at Rice University, and the other is a music therapist in Stockton.

Whites in Black Studies

A changing view by both black and white students involved in black studies programs at University of the Pacific was noted recently by Professor Mark Ealey, director of the black studies program at UOP.

"The significant change we see in our program is an increasing percentage of white students enrolled and a decreasing percentage of blacks," explained Ealey, who came to Pacific five years ago from the University of California faculty in Berkeley.

"We think this means the white students are just as curious and in need as before of courses that deal with an area unfamiliar to them," he said. "We know a lot of whites come to UOP with limited knowledge of the black experience. They are concerned, and justifiably so, because they have little knowledge about groups other than their own."

Only about 160 of the 4,100 Stockton campus students are black, Ealey said, but—in contrast—about half of the students enrolled in black studies are white.

The UOP professor also voiced his thoughts on why the percentage of blacks enrolled in black studies is decreasing. "These students are becoming more aware of their need to diversify their career involvement in various fields. This means they have less time and interest for courses of this nature, except as electives. However, there is a continuing need to provide some course material that will help blacks and other minorities with their identity building."

At Pacific, black studies, started in 1969 with some five courses and 90 students, has gone to 11 courses and 225 students.

Names in the News

Deborah Kasiga, a UOP pharmacy student, has received a \$750 grant from Altrusa International Foundation. Miss Kasiga, from Daresalaam, Tanzania, is scheduled to graduate from the School of Pharmacy in April with a Doctor of Pharmacy degree. Altrusa is an international women's service organization that is represented

locally by the Altrusa Club of Stockton.

Jeffrey Jellin, Robert Campbell and Elizabeth Corbett have been honored for their work in pharmacy. Jellin and Campbell have been selected as the 1973-74 recipients of the National Association of Chain Drug Stores Pharmacy Award for demonstrating special interest in pharmacy administration or community pharmacy. Each winner received \$1,000.

Miss Corbett was elected to the Council of Students, American Association of Colleges of Pharmacy, for Region 8, of the Student American Pharmaceutical Association.

Jellin, Campbell and Miss Corbett will graduate with a Doctor of Pharmacy degree in April, 1974, 1975 and 1976, respectively.

Richard G. Landis, president and chief operations officer of the Del Monte Corporation in San Francisco, has been named to the UOP Board of Regents. Landis, a Piedmont, California resident, is director of Crocker National Bank and the Potlatch Corporation. He is a trustee of the San Francisco Bay Area Council and a member of the Board of Trustees for the Boy Scouts of America, Bay Area Council. He is also a member of the Advisory Board of the Northern California Industry-Education Council and a member of the Advisory Committee of the University of California School of Business Administration.

cable systems to pursue experimental local programming ideas for cable television. Brown, 24, will attend classes at New York and will conduct research in Stockton.

Ellen Anderson Werner, active at Pacific for many years, died September 26, 1973 in a car accident. Mrs. Werner was the wife of the late Dr. G. B. Werner, chairman of the UOP History and Political Science Department and dean of the Summer Sessions and Tours. Mrs. Werner was an active member of Faculty Dames, Omega Phi Alpha Mothers' Club, the Central United Methodist Church and the Philomathean Club. She also contributed many hours as a volunteer worker in the historical archives at Pacific.

Dr. Warren J. Schneider, associate professor in the School of Pharmacy, had a paper entitled "Viral Pathogenesis during Experimental Pseudorabies Keratoconjunctivitis in the Pig," published in the November, 1973 issue of The Journal of Infectious Diseases.

Vince Brown, a UOP graduate student, is one of nine young people interested in a career in cable television who have been selected from throughout the U.S. for a year-long training program.

The program is funded by local

Tuesday, 9—Baseball—Stanislaus State, 3 p.m.

Alumni Receive Decal

Judith McMillin Chambers, COP '58, dean of students at Pacific, affixes one of the new U.S. Alumni decal emblems to the rear window of her automobile.

Each alumnus who contributes to the support of Pacific during the current fiscal year will receive this red, white and blue decal. All alumni who have already contributed since the beginning of the fiscal year, September 1, will be mailed a decal as soon as they are

received from the printer.

The program was conceived by the development staff at Lewis & Clark College in Portland, Oregon, in an effort to stimulate a turn-around in the percentage of alumni who do not now support their alma mater. Nationally, only 17.1 per cent of alumni made a gift during 1971-72; at Pacific, the percentage was only 13.1 last year. However, Pacific has been climbing steadily over the past six years from a 2.5 per cent low during 1967-68.

Tiger Tracks

'28

Howard A. Christman, COP, retired from the Y.M.C.A. in 1962. Since then, he has organized and conducted tours to Alaska, Europe, Aegean Sea, South Pacific, California missions and The Mother Lode. He will be leaving for a 30-day Scandinavian tour in May.

Mrs. Tom Connolly Jr. (Agnes McGee), COP, was elected president of the Dameron Hospital Auxiliary here in January. Mrs. Connolly's many affiliations include Delta Gamma Sorority, past president of Philomathean Club and Stockton Children's Home Board of Directors, member of the vestry at St. John's Episcopal Church and member of the board of trustees of the Pioneer Museum. She was also presented with a 4,000-hour pin symbolizing the 4,000-hours of volunteer time to the hospital.

'38

Forrest H. Darby, COP, Sacramento County agricultural commissioner and sealer of weights and measures for the past 13 years, has announced his retirement. Upon doing so, he was commended for carrying out the responsibilities of a "sensitive job with little controversy."

'39

Betty Bush, COP, and her husband separated in February, 1973, and Betty has moved to Cambria, California. She has a part-time job as a guide at San Simeon State Park (Hearst Castle). She just completed two trips, one to Colorado, Arizona, New Mexico and Utah and a second of 12,000 miles through 32 states and two Canadian provinces. She writes, "If we can accept and believe that everything is for the best, we will grow and adjust to being happy as all God's creatures must, if they are to survive."

'42

Edward W. Ludwig, COP, has opened his own publishing company, Polaris Press, and has just published the book, "A Mexican American Coloring Book," which is being widely used in Santa Clara, Los Angeles and San Francisco. Ed is living in Los Gatos and is the general book manager at San Jose State University.

'49

Alice Elsa Smith, COP, is teaching English and Bible Literature in several Japanese universities and resides in Tokyo.

'50

Chaisoon Cha, COP, is now Mrs. Ilhong Oh. She is a professor of Education at Ewha Women's University, Seoul, Korea. She and her husband will be spending her sabbatical year studying in the Graduate School of Washington University in St. Louis, Missouri.

'54

Dr. J. Phillip Wogaman, COP, has been named to the advisory panel of the newly formed World Population Society of Washington, D.C.

The panel is composed of persons distinguished for their contributions to population-related fields. The World Population Society is the only major population group that is both international

and multidisciplinary in its focus and "hopes to avoid the traditional narrow approaches to population issues which are not adequate to meet the complex and critical problems of today," says Phil.

Phil received his Ph.D. from Boston University, and is now dean and professor of Social Ethics at Wesley Theological Seminary in Washington.

'56

Paul H. Slattery, Conservatory, is finishing his 10th year as instrumental music director for the Cupertino Elementary School District, which includes 42 schools. He is currently president of the Santa Clara Valley Music Educator's Association.

Kenneth D. Swearingen, COP, received his Doctor of Education degree from University of Southern California in January, 1974.

'63

John E. Alsup, COP, completed his doctoral degree in Theology from the University of Munich, Germany in November, 1973. He is currently looking for a teaching position in the field of New Testament Studies. He spent an interesting period of time with the ABC-TV sports staff during the Munich Olympic Games, working with Jim McKay in the main stadium as translator/interpreter.

'65

David S. Toy, School of Pharmacy, was married last September to Catherine Sui Fong. David and his wife are living in the Fresno area where David is a pharmacist.

'66

Ariane Furst, COP, is now the wife of **Jorge Ciro Santa-Maria, Elbert Covell College**. The couple resides in Quito, Ecuador. Jorge is loan officer for the Bank of America, and a part-time faculty member at Catholic University.

'68

Kimun Lee, COP, has traveled these past few months in the United States, Europe and Hong Kong. He is finding Indian law and politics quite interesting.

Richard D. Stein, School of Education, was married in March, 1973. He and his wife, Katherine, have a son, Jason Daniel.

Richard has just completed his Ph.D. in Educational Psychology at the University of Kansas. He is school psychologist for the Olathe District Schools in Olathe, Kansas. Currently, he is also serving as chairman of the Professional Standards Committee of the Kansas Association of School Psychologists.

'69

Jerry E. Cook, COP, was married September 22, 1973 to Suzanne Marich, a Fresno area girl. Jerry is manager and superintendent of the Shaw-Peach Industrial Park in Fresno as well as being chairman of Fresno Greater Awareness, an active group of Pacific volunteers in Fresno. Right now, Jerry is organizing the Pacific Telephone Campaign for Fresno County.

Jay W. Preston, COP, received his Master of Science in Safety degree from University of Southern California in January, 1974.

John L. Patton, School of Engineering, has completed his master's degree in Civil

Engineering from the University of Arizona, and taken a bride, Caryn. John was a Titan II Missile Combat crew member with the Air Force for three and one-half years. Following his military service, he was working as a designer civil engineer with two consulting firms. John is currently a cost engineer in the Bechtel Corporation in San Francisco.

Sandy (Kimbrow), COP, and Lagelle Jeter, COP, D.D.S. '73, are the proud parents of Jason Lagelle, born in October, 1973.

Sue (Caton), COP, and Kent Nelson, School of Pharmacy, are living in Mountain View and are the proud parents of Cameron.

'70

Allen R. Goss, Conservatory, was married in February, 1973. He and his wife, Patricia, are presently at the University of Washington in Seattle where he is completing his master's degree in music.

Suzanne R. Close, COP, received her Master of Library Science degree from University of Southern California in January, 1974.

Russell Thomas Lund, COP, following graduation, entered the army and was commissioned a second lieutenant. Although trained in the infantry, he spent most of his time in the finance corps. After being discharged, he was hired by First Mutual Savings Bank in Bellevue, Washington, and is now their operations manager. Russell is planning to return to school to work on a Master of Arts in Money and Banking degree.

'71

Margret J. Pollock, Conservatory, is currently employed as an administrative assistant for a music publishing company in Minneapolis. She has been looking for a position in music therapy, she holds her degree in this area and has done a year's internship at Essex County Hospital Center in New Jersey.

Stanley R. Yon, Callison College, received his Master of Planning (Urban & Regional Environment) degree from University of Southern California in January, 1974.

Walter M. Genuit, Graduate School, is opening a new branch of Glicks Jewelers this March in Stockton. Walt is a certified gemologist with the American Gem Society.

'72

Ann E. Edelman, COP, reminds her classmates that she is still class secretary and wants very much to keep in touch. She is teaching at Cordova High School in Sacramento. Ann's address is 9736 Fair Oaks Blvd. #410, Fair Oaks, CA 95628.

John A. Romeri, Conservatory, after completing his Master of Music degree at Westminster Choir College, is now employed by Church of the Assumption as director of music in Pittsburgh.

Paula J. Blair, COP, received her Master of Library Science degree from University of Southern California in January, 1974.

Juliet A. Messimer, COP, received her Master of Arts in American Studies degree from University of Southern California in January, 1974.

Karen Lee Welty, COP, married John Snyder in October, 1973, in Morris Chapel. John is a Chico State University graduate. The couple are living in Stockton.

'73

Ronald L. Champion, School of Dentistry, graduated with honors and is now practicing in Belmont. His wife, **Ann (Lowry), School of Education** '69, just co-authored the book, "Beginning Discovery," a resource book on early childhood education. She is organizing and will direct a preschool at Crystal Springs School for girls in Hillsborough. Ann has just

completed three years of teaching and consulting work for various elementary schools.

Alison Thompson, Raymond College, married **David McKee, Raymond College** '72, August 4, 1973 in Lake Tahoe, and have made their first home in Minneapolis, Minnesota where David is currently in Graduate School at the University of Minnesota.

Alexis A. Flippen, Raymond, is teaching at Hyde Park Gate School in Danville. Following her graduation, Alexis attended UOP's School of Medical Sciences for a semester of graduate work in neurology. She fills her weekends by working as a professional assistant at the State Hospital here in Stockton.

Susan E. Reed, COP, is a graduate student in the School of Librarianship, University of Denver, Denver, Colorado.

Dale E. Young and Bob Black, Elbert Covell College, were married on September 15, 1973 in Morris Chapel. Dale and Bob are living in Houston, Texas, where Dale is working for Concept Marketing Corporation, a frozen food importer. Bob is field program coordinator for Amigos de Las Americas, an organization that sponsors a health and immunization program to several Latin American countries.

Melissa R. Markey, Elbert Covell College, was chosen by Rotary Foundation of Rotary International to receive a graduate fellowship for 1974-75. Melissa plans to use her fellowship to study political science at the University of Concepcion, Concepcion, Chile.

'74

Johanna R. Goldsmith Baner has received her Doctor of Education degree from Pacific. Her thesis was titled "Toward An Interactional Theory of Educational Therapy."

In Memoriam

Russell Keppel Aitken, COP '51, M.A. '61, passed away in late November after an illness of several weeks. Aitken had been a fourth-grade teacher in the Sunnyvale School District. He was principal of Morse School from 1961-65, and of DeAnza School from 1965-68. He had been teaching at Fair Oaks since 1968.

Alice B. Coon, School of Education '44, passed away in December of cancer. Miss Coon retired from teaching in 1966 after 41 years. She received her B.A. degree by attending Pacific at night. Her first teaching assignment was a four-student class in 1925 at Clements School. Before joining the staff at Lindberg School in Manteca, she taught two years each at the Banta and Copperopolis schools. She was called "Miss Teacher" by many who knew and admired her.

Warren P. Dayton, COP M.A. '27, passed away at the age of 86. Dayton was a long-time Sacramento educator and Boy Scout leader. His participation in scouting dates back to 1928, and he was twice president of the Boy Scout Council. He also developed a program of vocational education for the Sacramento city schools, starting in 1943, as part of the war effort.

What have you been doing lately? Tell us what's happening with yourself and your family. We are interested in hearing all the news. Write to **Diana Lee Clouse, director of Alumni and Parent Relations, University of the Pacific, Stockton, CA 95211.**

The Student Center

Photographs by George Vogt
Freshman, COP

Construction still continues on the University Center complex on the Pacific campus in Stockton. The multi-story complex is being erected directly north of Anderson Y, in the heart of the campus, and will contain some 70,000 square feet. The project, involving a total cost of approximately \$3 million, is due for completion this summer.

Included in the student center portion on the lower level and first floor will be a bookstore, dining area, rathskeller, arts and crafts room, 240-seat theater, bank, multi-use room, art gallery, grocery-delicatessen, dining room and information center. The second and third floors will be apartment-type living accommodations for approximately 150 students.

The entire structure will include exterior courtyards, approaching ramps, deck areas and an open arcade in the center of the building. The structure is being designed to compliment existing university architecture.

The architect for the project, the Bay Area firm of Ratcliff, Slama & Cadwalader, defined the building on paper. The main contractor for the work, the Stockton firm of Roek Construction Company, is now putting the plans into concrete shape.
