## ..... an academic definition of PACIFIC, QUICK!

Some people have called Pacific "that little music school" — others have regarded it as "a teachers college" — and there are those to label it a "football college."

Pacific is all of these things and many others, no one of which even begins to give a complete picture of this remarkably versatile "little university."

In the drama world Pacific also is famous for its theatre production and training. Men of business know it has a fine department of business administration. The church recognizes that the largest department of Religious Education on the Pacific Coast is at Pacific. The rapid growth of physical and biological sciences at Pacific is eyed by the scientific world.

But none of these areas alone reflect the real "image" of Pacific. What is the whole picture?

Pacific today is a college of liberal arts organized in 23 academic departments including four professional and graduate schools:

CONSERVATORY OF MUSIC  
SCHOOL OF EDUCATION  
SCHOOL OF PHARMACY  
SCHOOL OF ENGINEERING

To give you an idea—quick—of the complete academic anatomy of C.O.P. a list of all major departments and curricula follows:

Tonight the College of the Pacific Band pays tribute to one of America's most beloved song writers — Richard Rodgers. For more than a quarter of a century his music has expressed the inner feelings of our country, the vigor, the strength, the pathos, the gaiety and the humor of the American people. In his musical shows he has helped to create for us a new art form in the lyric theatre as significant to our culture as opera is to the culture of Europe. The names of Lorenz Hart, Oscar Hammerstein III and Richard Rodgers are unforgettably linked to American musical theatre.
