UNIVERSITY OF THE PACIFIC

COMMENCEMENT CONVOCATION

*May 22, 1981
Seven-thirty P.M.*

PACIFIC, HAIL!

From o'er the rugged mountains
standing high:
From out the broad low valleys,
'Neath the sky;
Our Alma Mater calls,
We cannot fail,
Our voices blend in praise
Pacific Hail! Pacific Hail!

Long may her flaming torch
Give out its light:
Long may her spirit guide us
In the right;
To her we pledge our hearts,
We dare not fail;
To her we raise our song
Pacific Hail! Pacific Hail!

HISTORICAL BACKGROUND OF THE MACE

The mace, originally a weapon of offense used in medieval warfare by a king or a great noble, has been refined into a symbolic device which is used on ceremonial occasions. As an academic symbol, the mace dates back to 16th Century England when Queen Elizabeth I presented a replica of her own royal mace to the corporation of the University of Oxford in 1589. She ordered that it be used in all ceremonies to represent the royal presence and the authority granted to the University to issue degrees under the royal insignia. King Charles I made a similar gift to Cambridge University in 1625.

With the establishment at Pacific of the various professional schools and the renaming of the institution from College of the Pacific to University of the Pacific, President Robert E. Burns commissioned Stuart Devlin, internationally known London silver designer, to design and construct a mace for the University of the Pacific. Its first use was at Founder's Day ceremonies, March 6, 1966.

Constructed entirely of silver with gold plating, the mace is approximately four feet long and weighs approximately 15 pounds. It was a gift to the University by Mrs. Winifred Raney, a Regent of the University.

SIGNIFICANCE OF ACADEMIC REGALIA

Distinctive academic dress can be traced back to the universities of the Middle Ages. In the early centuries of its existence, the costume was worn as daily garb, and the several parts each had its practical use. In more recent centuries its use in complete form has been reserved for special, ceremonial occasions.

European universities tend to display considerable variation in their academic regalia. In the United States, however, a standard pattern was adopted over a half-century ago to which virtually all American colleges and universities adhere. This governs the material, style, color and trimmings of the gown and hood, the style of the cap, and the color of the tassel.

This summary has been prepared to assist in recognizing and interpreting the costumes worn at the University of the Pacific's commencement ceremony.

In the United States, gowns generally are black. A few universities have adopted other colors for their doctoral gowns: Harvard, crimson; Yale, blue; Chicago, maroon; Dartmouth, forest green.

The field of learning in which the degree was awarded is shown by the color of the edging of the hood, and in some cases by the color of the facing and crossbars on the doctor's gowns. Some of the more frequently seen colors are: white (Arts and Letters), pink (Music), dark blue (Philosophy), light

blue (Education), scarlet (Divinity), golden yellow (Science), lilac (Dentistry), olive green (Pharmacy), and purple (Law).

The colors of the lining of the hood are those of the institution which awarded the degree. For example, the University of California colors are gold and blue; Stanford University, cardinal; University of Michigan, maize and azure blue; University of the Pacific, burnt orange and black. An olive green tassel is often worn on the cap to signify the Pharmacy field of learning.

An individual's degree is revealed by the type of gown and the width of the edging on the hood. Designs are of three kinds:

BACHELOR'S GOWNS have full pointed sleeves, with no trimming, and the hoods have a two inch edging.

MASTER'S GOWNS, until 1960, had full closed

sleeves, with the arm emerging from the sleeve through a slit at the elbow. The gown has been the despair of wearers because, no matter how hot the day, a coat must be worn under it. In 1960, however, the gown was modified. In place of the elbow slit, an opening was made at the wrist and the gown was made to close. The hoods have a three-inch edging.

DOCTOR'S GOWNS are of silk, have rounded sleeves, velvet facing down the front, and three velvet crossbars on each sleeve. The hoods have side panels and a five-inch facing.

Tassels on bachelors' and masters' caps are ordinarily black, but they may be of the color of the field in which the degree was awarded. Doctor's tassels generally are gold. The left side of the mortarboard is the proper side to wear the tassel.
