Dillmore, NC.

June 19, 1893.

Dear Dr. Schlich,

It gives me
very great pleasure to introduce
to you Mr. John Muir, through whose
efforts about one half of the Sierra
Nevada in California has been
reserved, to become later on a
regularly managed Government
forest. You will find, as I have
done, a store of scientific obser-
vation open to you through him
which rests upon an unparalleled

06174

acquaintance with the mountains
and I am confident that Mr.
Muir's conclusions about the cause
of the distribution of the Sequoia
and the influence of fire in the
distribution of the western forests,
among many other things, will
have for you the keenest interest.
I can only recommend him to
the hospitality which I have so
delightfully experienced myself.

With best regards to Mrs Kellich,

Very sincerely yours,
Gifford Pinchot.
