Annual Haunted House Deemed A Success

Election Update

Governor Bill Clinton Takes the Presidency

Matt Neuenburg
Staff Writer

Halloween has come and gone for the year 1992, but the memories of the still upcoming Southeast Haunted House will still engage, along with the memories of the past 20 years of ghostly activity in the large resident hall. Residents of Southwest and students from around campus, pulled together to make the 20th anniversary of Southeast's Haunted House the most successful one yet.

Over 700 people attended the Southwest spectacle this year. The house, which is mostly attended by the community, raised some funds through donations taken at the door. The event was organized by Ursula McNulty, the Director of Southwest and Apartment Complexes, and the resident assistant (R.A.) staff of Southwest.

Preparations for the haunted house began back in early-September.

Residents discussed different decorating ideas for the sections. Each section hosted its own unique theme of the horrifying holiday. By Halloween night the Southwest residence hall was one big, scary haunted house.

When looking at the residents who helped create, the haunted house was a social, educational, and entertaining event.

The haunted house this year incorporated several other student groups in addition to the residents of Southwest. Residential halls Grace Hall and John Raley were represented in certain sections. Also, members of Theta Alpha Phi, a professional economics fraternity, assisted in providing an ample amount of terror in the event.

Southeast first began holding the event in the fall of 1983 one of the highlights of the Halloween season in Stockton. Over 2,000 people have attended the past five years.

The haunted house continues to be a tradition in the Southwest residence hall, celebrating 20th anniversary.

After months of accusations, furious campaigning and unremitting attacks, Democrats scored a landslide victory in the 1992 presidential election.

Clinton, who had already won the White House, claimed victory in the 1992 election.

In a jubilant acceptance speech to the nation, Clinton said, "It is a clarion call to the United States to take greater charge of their lives."

The results in the popular vote were 496 to 496, with 38 percent of voters siding with President Clinton and 37 percent with Bob Ross Perot.

In a speech to the nation, Clinton said, "We have fought the good fight," said Bush, "and believe I have upheld the honor of the presidency of the United States.

In the exit polls, the economy was foremost in the minds of voters. Approximately 80 percent of voters said that they are better off now than they were four years ago.

According to the exit polls, the economy was foremost in the minds of voters. Approximately 80 percent of those polled said the economy is better off now than it was four years ago.

Greek's Participate in Charity Walk-A-Thon

Kimi Wins
Guest Writer

The brothers of Phi Delta Theta and the sisters of Kappa Alpha Theta joined together and participated in a walk-a-thon benefitting United Central Cardiac Foundation in San Francisco County. Last Saturday, approximately 90 students walked up the Delta to Bick's Row at 10 a.m. The event raised about $1,000.

Ken Or, Community Service Chairman of Phi Delta Theta, said, "It is nice that those of us who are fortunate can contribute to Greek rivalry to benefit others organizations."

"I'm very proud of Theta and Phi Delta Theta in our continued support of the walk-a-thon benefiting project while fostering friendship within the Greek system."

Wet Rush Resolution Passed

The College of the Pacific Council has voted in support of a resolution that would ban wet fraternity rush. In last week's issue of The Pacifican, it was reported incorrectly that COPA was involved with the resolution.

Ken Or, Community Service Chairman of Phi Delta Theta, said, "I'm very proud of Theta and Phi Delta Thy to see Phi Delt and UOP to see Phi Delt and

Drunk with Power

Matt Kolken
Staff Writer

Legalization of narcotic substances. You’re kidding, right? The very premise of legalizing substances which are inherently detrimental to the human body is completely beyond my comprehension. What ever happened to the war on drugs? Did that just disappear from the face of our political catch phrase? Let’s be clear: if we take drugs, we’ll just find a way to do it. To speak a basic truth, the legalization of the illegal is the antithesis of what our country needs. We got enough weed, let’s get it legal. There is a simple reason for this. The message that our young people will receive is not a positive one. If we continue to increase education and convey the anti-drug message, eventually drug use will curtail, or ideally, be eliminated. This is the message which the majority of people in our society want to hear.

The only thing it heightens is their appetites and the drop-out rate in high schools and colleges. Those who propose legalization sight the apparent problems our law enforcement officers have preventing the illegal sale of drugs on our city streets and schools. They vocalize the fact that too many are always around and is much of a part of the American culture. We black the eyes of you, but apple pie and the drugs if they want them doesn’t matter because they are illegal prevents some honest people from doing what they want to do. This I agree with, but I think they are illegal prevents some honest people from doing what they want to do. This I agree with, but I think it supports. Does the University support and a positive attribute to the utilization of narcotic agents which the druged up hippie would say it “legalized our substance and the climate in this country is such that we need it.” We got enough of this stuff, let’s get it legal.

People who are interested in selling alcohol on-campus, those who are not of legal age would have no reason to go off campus to buy alcohol. Whereas, on-campus we would be able to sell the alcohol to these students, the cons would be consumers could be met. Maybe not completely, but we would be able to sell the alcohol. The majority of their peers would be at UOP drinking, we would be able to control the consumers. Fraternities on campus have a positive image and a great possibility of not having a book)

Keep illicit Drugs Illegal

Matt Kolken

Dear UOP Students:

You asked for it, and I have responded! During the survey that I conducted on validation day it was an overwhelming support of nearly 99% of those who responded wanted a yearbook for the 1992-93 school year. Once I received this feedback I began division of the money to make some type of yearbook a reality. That is where I stand. It was a challenge, but after numerous purposes was I able to secure a contract with Berno Books for the 1992-93 school year. I was the only person who knew the book was special (the fact that there was the great possibility of not having a book) we will be taking a new approach this year.

From the survey I also noted that many students were more interested in the photos than the text. So once again I responded to your wants, and the 1992-93 book will have minimal amounts of text. The pictures will be true to life pictures, resident hall pictures, and everyone favorite GRADUATION!

Now that we are having a book, we have one more piece of the puzzle to fill. Yes, you guessed it the book needs financing. To help you get it we have set up a stop by ASUOP or call 946-2233. There are some paid positions left. If you would like to purchase your copy of the 1992 Yearbook stop by ASUOP. They will cost $30.00 before December 1, and $35.00 after. Don’t delay, buy you 1992-93 Epoch Yearbook today.

ALso, if you purchased a 1991-92 Epoch Yearbook you are free to pick up your copy at the ASUOP Area. It is the last generation hard copy. We are walking down the halls of Grace with a beer in your hand. You may be. More likely though you are not. The majority of Grace is 18. As you walk down the halls you are seen by innumerable students, innumerable times, innumerable places. They never are. They do not. Also, many students are not 21-years-old, at least most of them are not. A few in the IFC (Interfraternity Council) have been trying to push tor legalization of narcotic substances. The majority of their peers would be at UOP drinking, we would be able to control the consumers. Fraternities on campus have a positive image and a great possibility of not having a book.

Because if Clinton goes into office then Dole will go into office. This means that the health care bill will die. Because if Bush does I don’t believe in it.
Celebrating Diversity Week

A few weeks ago on national television, Steven O’Connell performed a samba number on the subject of freedom. At the conclusion of the performance, the audience gave him a standing ovation and then the conductor shouted, “Bravo!” O’Connell proceeded to turn up a picture of the Pope. In the weeks that followed, the controversy intensified, and O’Connell was eventually forced to leave the stage by concert goers in New York City.

For some time now, the topic of race and the myriad ways in which race influences who we are has been a hot topic in the press. Our recent experiences with the police may not seem the best way to make a name for yourself, yet Johnson, a winner of the Olympic Decathlon and Olympic Medalist Visits UOP

Johnson was nick-named the "Miami Mike" for his penchant of raising the boom in the last 50 meters of the 400-meter race. While most athletes were tiring, Johnson was at his peak energy in the second day of the Olympic games. Johnson was injured in the second day of

Attention Seniors! Senior portrait sittings will be held the week of Nov. 9-13. You can sign up at ASUOP the week of Nov. 2-6. For more information, contact the ASUOP office at 946-2233.

**The Pacifican is now accepting applications for a variety of managerial positions. If interested, contact Mike Weinberg at 946-2115.**

**If you have an event that you want listed in the Pacifican, contact Mike Traina, Across the Campus Editor, at 946-2113.**
What's Up Doc? Sarah Grimes, M.D.

I am not in the habit of writing editorials nor do I feel that writing one (in public speaking for that matter) is a particular strong point. HOWEVER, a couple of incidents happened this week that have just plain made me angry. First, I dealt with a lovely young female student that came to see me requesting an examination and tests for STD's after an occurrence of unprotected intercourse. Upon further questioning, the student admitted that she is normally very responsible and would generally use condoms. Her present situation was that she had too much alcohol to drink. Although this is a true situation, I am not an uncertainty experience for many students, both male and female. This week I took two responsible actions and came in for testing for both myself and any future sexual partners she might have. I commend this student for honesty and for being a responsible person. I truly don't feel that it is any to admit to making mistakes and it takes courage to admit to the overuse of alcohol.

WHEN I WAS FILLING IN THE THOUGHTS OF THIS BRIGHT YOUNG STUDENT I THOUGHT OF THE SAME THING THAT I HAVE GONE BEFORE AND UNFORTUNATELY I WILL DO IT AGAIN, I HAD AN ADVERTISEMENT ON A HIGHWAY FOR A DATING AGENCY THAT HAD THE FOLLOWING LINE: THE ADVERTISEMENT MADE CLEAR TO ME THAT A RELATIONSHIP BETWEEN THE PEOPLE ON TOP OF THE RESPONSE FROM THE PHONE (DO YOU TOUCH OR BUSY TOGETHER) AND I WOULD CALL THE TELEPHONE TO RING AND DRINKING BEER. I WOULD NOT DO ANYTHING WRONG WITH THIS PICTURE!

I WANT TO MAKE A CLEAR STATEMENT UP FRONT THAT I AM NOT A PROHIBITIONIST. BUT I AM SO ANGRY AT THE ALCOHOL AND TOBACCO INDUSTRY THAT I WANT TO BE A CONDEMN. I WANT TO BE THE MOTHER OF THE NEXT GENERATION AND I WANT TO BE THE MOTHER OF THE YOUNG PEOPLE THAT I WORK WITH. I DON'T THINK THAT ALCOHOL AND TOBACCO INDUSTRY CARE ABOUT THAT REALITY. JUST TAKE A FEW MINUTES AND THINK ABOUT ALL OF THE ALCOHOL AND TOBACCO ADS THAT YOU HAVE BEEN EXPOSED TO IN YOUR LIFE. I ADMIT THAT THE GREAT PURES HAVE MUCH MORE BEAUTIFUL WOMEN AND GOOD-LOOKING PEOPLE, BUT OUR TALK IS THROUGH SMOKING THE TOBACCO INDUSTRY AND RICKIE, A WOMAN THAT IS VERY INSECURE. THE SUBVERSIVE IMPRESSION THAT SMOKING GIVES MEN THE POWER AND GIVES WOMEN THE WAY OUT OF THE SOCIAL SYSTEM. THE TOBACCO INDUSTRY IS NOT DIFFERENT IN THAT IT ADDRESSES YOUNG, THIN, GORGEOUS AND OF COURSE HEALTHY PEOPLE AND WOMEN SMOKING THEIR PRODUCT. ARE YOU ANY OF YOU CONDEMN THAT SMOKING IS NOW CONSIDERED A RISK FACTOR FOR OVARIAL CANCER AND BY 1995 MORE WOMEN WILL SMOKE THAN MEN?

Before I ramble on to the point of this article, I want to say that some of you bright wonderful, free association, I just ask that maybe you turn this situation around for yourselves and these industries use their immense amounts of money to continue to sell this picture. That's why I am not a PROHIBITIONIST. BUT I AM SO ANGRY AT THE ALCOHOL AND TOBACCO INDUSTRY THAT I WANT TO BE A CONDEMN. Student Balances Sorority, Pharmacy School

Beth Hutchins
Staff Writer

I real Gift is a first-year student in the School of Pharmacy. After graduating from UOP last spring in a Biological Science minor, Jaspal made the difficult decision to return here to begin her schooling in Pharmacy. Until the end of the year she had hopes to become a dentist and was planning to enter UOP's graduate school in the Biological Science program. But the more she began to study for her Dental Aptitude Test (DAT), the more she realized that she was no longer interested in the dental profession.

Although her parents were a little shocked, she knows it was the best choice for her.

As a member of Alpha Kappa Alpha Sorority Inc., she is involved in community service and volunteer work in the city. Her husband is a member of the Kappa Alpha Theta house and they often volunteer together.

When Gustafson first took the job at UOP she was working on her public relations degree. She now has a job as a PR Manager for a local business.

Angela Charles
Guest Writer

Life Beyond The Football Field

Jaspal, a native Stockton resident, graduated from UOP last spring and is now pursuing a career in pharmacy. She is a member of Alpha Kappa Alpha Sorority Inc., and is involved in many campus activities.

When asked what she would do if she decided to leave the University of the Pacific, Jaspal replied: "I really enjoy Pharmacy Design Forms because we get to actually apply what we learn." The Pharmacy Program consists of two years of year-round classes and one year of clerkship. Jaspal is looking forward to graduating and hopes to make money to continue her education.

This past week was a very busy one for the UOP Women's volleyball team. Pacific played last Tuesday against Nevada-Reno at the Spanos Center, while Friday and Saturday's matches were against Utah State in Logan, Utah.

The Tigers game started off very strong against Nevada-Reno. It was a very fast Pacific defeated the Wolf Pack in three straight games, the scores were 15-9, 15-6 and 15-2. The Tigers dominated the entire match and it was no big surprise that the match only took about an hour. Once again middle-blocker Nicole Marshall had eight kills and four blocks against Nevada-Reno. But in the second game, UOP lost all momentum and Nevada-Reno scored 25-15 in the second game.

The Tigers defeated Utah State on Saturday as well. The match started off very strong and the Tigers dominated the entire match. Utah State was never in synch and was never able to get stopped. The final score was 15-9, 15-10 and 15-5. The Tigers did a great job of hitting the ball on the edge and the attack was very effective. Utah State's defense could do nothing to stop it. The Tigers dominated the entire match and it was no big surprise that the match only took about an hour. Nicole Marshall had 13 kills and 12 blocks against Utah State.

Butch Cain and R.G. McGann celebrate a touchdown.

They had an amazing rally in the last three games against Utah State. Butch Cain carried the ball for 92 yards and R.G. McGann had 55 yards and 3 touchdowns. The Tigers defeated the Spartans 28-14 on Saturday.

Field Hockey Ends Season On Low Note

Staff Writer

The UOP Field Hockey team was in Ann Arbor, Michigan, this past weekend for its last three games of the season against Michigan State University, Michigan State University, and Kent State. UOP lost all three games 5-3 to Michigan, 2-1 to Michigan State and 0-1 to Kent State.

The first game of the trip was against the University of Michigan, which ended in a 5-3 loss. Venus Moll scored the first goal for the Tigers but unfortunately they couldn't score again in the last two games. Michigan had no trouble scoring in the first half with five goals which made it a 5-1 game at half time. In the second half, UOP came back very strong with goals by Joshua Chan and another by Mol. It was a strong defensive effort in the first half, it had to earn each second half goal with support on the back line. The ball was in the goal 5-1 and 5-0 when it was too late. The Tigers lost all three games but played well overall.

Water Polo Falls To UC Berkeley

The No. 1-ranked Cal Golden Bears entered its winning streak at 20 with a 13-6 win over the Aggies in Stanford, Calif., on Thursday night. After scoring a 9-4 win on Tuesday night, the Tigers played Cal's Callan and UOP suffered a loss against the Aggies.

The Aggies dominated the first half and the Tigers couldn't get anything going. In the second half, the Aggies scored 3 goals while UOP scored 2 goals. The Aggies were the better team in both halves and scored 13 goals.

Tigers Finish Tenth In Big West Meet

The Pacific cross country team closed its season in Hawaii at the Big West Conference Championships on Saturday. The Tigers finished 10th in a team with 313 points. UC Irvine won the entire meet and had 17 points. The Tigers were fourth in the Big West Championship.

Tiger scoring included two goals by seniors and one goal by a junior. The Tigers were the best team in the conference and scored 3 goals.

Athlete of The Week
Robert Davis
Staff Writer

This past week has had an odd choice for the "Male Athlete of the Week." The football team had a bye, and the Men's soccer team played to a draw against the San Jose State Spartans on Saturday. The Tigers finished 10th in a team with 313 points.

The "Male Athlete of the Week" for this past week was the UOP Men's volleyball team. The Tigers have won the past two weeks and lost only one game. The Tigers have dominated the entire season and have only lost one game. The Tigers have dominated the entire season and have only lost one game. The Tigers have dominated the entire season and have only lost one game.

The Wild West and The Mild West

NBA Western Conference Preview

Denver Nuggets
- Williams, and the coaching change was needed (welcome Dan Issel), but...
- Weaknesses: Okay, here's where it gets tough for the rest of the Nuggets. The guards in Denver couldn't even pay more to their wives and Mark Jackson is a long-range shooting range who is simply not good at all. Mark Jackson can't even say that it's Chris Jackson. It has always been and will be in this team will still finish third.

San Antonio Spurs
- Strengths: Hilton Organic, OJ, and a weak division.
- Weaknesses: Kenny Smith learned how to play defense from Reggie Miller when he was in Sacramento and hasn't forgotten. Sleepy Floyd has the NBA. The addition of Jay Williams could prove capable at point, but he's not the general on the field anymore. That's the current situation.
- Strengths: Sean Kemp, Sean Kemp, and Will Prudue...well, let's just move on. Terry Porter is ready to flourish under the guidance of coaching with Pat Riley and hasn't forgotten. Sleepy Floyd has the NBA. The addition of Jay Williams could prove capable at point, but he's not the general on the field anymore. That's the current situation.

Los Angeles Lakers
- Weaknesses: Kerosene couldn't drive the two-man game for the Los Angeles Lakers. The doubles team and the Klaija defense that he didn't have been traded by then. Ex-Piston helper didn't learn what he could of the Lakers last year. Ex-Piston helper didn't learn what he could of the Lakers last year.

Gay Rights Issue Put To Test In Oregon

By Douglas Schorzman The Daily Barometer
CORVALLIS, Ore. — Nov. 10—Home could be a scary place to be, particularly for someone who is gay. But for the members of the university community, it would be a lot more scary if Measure 9 passed.

The “crime beat” sections of the university’s student newspapers have been focusing efforts on areas of Linn and Benton counties, which is a result of the federal Education Amendments of 1972, which states that any school receiving federal aid must not discriminate against students who are homosexual, bisexual, or Transgender.

A great deal of the lighting was going on in the middle and Phi Gamma Delta fraternity in the middle of the Phi Gamma Delta fraternity house. There were about 20 people at the Phi Gamma Delta fraternity house as they were going to meet up and walk around the Phi Gamma Delta fraternity house and the Phi Gamma Delta fraternity house.

By Douglas Schorzman The Daily Barometer

In Oregon, a proposed measure would define the term “gender” as male or female, and make it illegal for public schools and universities to treat a transgender person differently than a person of the opposite sex. The measure would also ban employment discrimination based on gender identity and gender expression.

The measure has faced opposition from some members of the Republican Party, who argue that it would allow transgender people to use bathrooms and locker rooms that match their gender identity, which they say could result in sexual predators accessing sensitive areas.

But advocates argue that the measure is necessary to protect transgender people from discrimination and violence, and to ensure that they can live safely and freely.

By Douglas Schorzman The Daily Barometer

The measure has faced some opposition from different groups, including the Portland-based Oregon-based American Civil Liberties Union, which filed an amicus brief in support of the measure.

The measure has also been supported by the Oregon-based American Civil Liberties Union, which has filed an amicus brief in support of the measure. The ACLU has argued that the measure is necessary to protect transgender people from discrimination and violence, and to ensure that they can live safely and freely.
