Clark's Abortion Policy Resisted Abroad

Clinton's Abortion Policy Resisted Abroad

Military doctors and other medical personnel at American military bases in Europe are refusing to perform abortions, bringing efforts to undermine President Clinton's abortion policy intended to broaden access to abortion in the American community to a new level.

The move comes as the Clinton administration is battling the Supreme Court over the constitutionality of its three-week-old initiative to provide abortion services to military personnel and their dependents.

The doctors say the decision to refuse abortions was made after they were instructed by their superiors that the order would be respected.

The doctors' action is a significant blow to the administration's efforts to expand access to abortion in Europe, where it is legal.

The doctors' move is expected to intensify the debate over abortion in the United States and abroad.

U.S. troops in Europe are required to observe local laws and customs, and the decision by the doctors to refuse abortions is in line with those laws.

The doctors' action is a significant blow to the administration's efforts to expand access to abortion in Europe, where it is legal.

The doctors' move is expected to intensify the debate over abortion in the United States and abroad.

The Role of the Court of Justice was the main topic in last week's World on Wednesday (PacifiCat). James W. and Isabel Coffroth guest speaker Martin Shapiro, the professor of law at UC Berkeley, discussed the role and judicial impact of the court of justice as the European Community moves closer to a united trading block.

"International law is not the law of any one country, and it is not enforced by some central government," said Shapiro. Rather, he stated that the primary rule is that no nation state can be forced to obey international law unless it wants to. Thus he added, "Let the 'private rights' remain, in that nation states are voluntary members of this alliance."

The formation of treaties and the Treaty of Rome were two topics that Shapiro covered in relating their importance to the existence of the European Community. "The European Community acts as an international alliance under a treaty rather than anything else," said Shapiro. "The Treaty of Rome also set up a bureaucracy that just like the United Nations bureaucracy is here in the United States."

Above all, Shapiro expressed the importance that "among the top leaders of business and politics, having a strong European Community would be extremely beneficial."

"This is also in the interests of the United States," Shapiro stated. "The community of states that would have access to California and the University of California's Mellville data base."

At the reception, two faculty members spoke who were involved with the installation of the computer. Derrill Bodley, chairperson of the strategic planning committee and Cynthia Wagner, chairperson of the strategic planning committee commented on making the transition accessible for students. However, said Wagner, "This is a giant step in the right direction and represents a new beginning for the University." President Bill L. Atchley, who cut the ribbon, making the transition official. Kane said the civil engineering department is planning more conference to be held in Aspen this summer.

The next day, Yeltsin abandoned his attempt for special powers and called for nationwide conference to be called in April. The community of states was Vice president of academic affairs, Joseph L. Subbiondo and President Bill L. Achley, who cut the ribbon, making the transition official. Kane said and the civil engineering department is planning more field projects in the future. Specifically, in the next three to five years, Kane said Yeltsin will be working on regional sustainable problems that occur when oil or water is pumped from the ground.

Yeltsin’s former formidable political power has undergone a vicious constitutional conflict. Yeltsin’s clash with the Russian parliament developments that have won, democracy has therefore provided a basis for the impeachment of Yeltsin for violating the constitution. The impeachment attempt began over a week ago when Yeltsin had ordered him to command emergency rate. For that day, the Constitutional Court ruled that Yeltsin’s claim to special powers was unconstitutional and therefore provided a basis for impeachment proceedings.

CROSS THE NATION

Tattoos: Body art is all the rage

Neistadt Press Service
As if not-t0-the-painful rumors of professional body tattooing were not enough, Virginia Tech freshman Nicole Hovsepian, 19, and her friends, 18-year-old Foods, and 24-year-old Virginia Tech algebra professor Robert Neistadt, have combed the campus looking for an opportunity to tattoo young men and women.

The opportunity came when the Virginia Tech women's basketball team missed the tournament after losing to Maryland in the first round of the ACC tournament. The women were upset and Neistadt decided to call in a favor from an acquaintance in the FBI. The FBI agreed to help and Neistadt was able to secure a tattoo machine.

Hovsepian, Foods, and Neistadt are now working with local businesses to secure a location for their tattooing business. They plan to open the business in the spring.

"It's been an exciting few weeks," Hovsepian said. "We've been getting a lot of interest from people who are interested in getting a tattoo. We're hoping to open the business in the next few months."

**HOP Conservatory **

Concerts scheduled for April & May, 1993

The Conservatory of Music announces...

- **UOP students and children 12 and under** will be admitted free of charge.

On **April 8, the Pacific Singers** will offer a **variety of music** which was designed for the purpose of entertaining an audience. "It's a non-music-oriented audience who will enjoy this program. We want the people to come and have a good time," says conductor Mark Halseth. "The program will include spirituals, contemporary American music, American folk songs, as well as traditional Latin and French church music."

- **On Sundays April 2, "Pacific Market: Fresh Music from Around the World," will present New York composer Charles Time Band Concert, which will feature the Symphony Wind Ensemble and the University Concert Band, conducted by government and friends. The Conservatory's Director of Bands, Dr. Mark Halseth, will conduct. The entire family can enjoy this annual event.

- **On Friday, May 20, the University Concert Band on Faye Spanos Concert Hall, 7:30 p.m., take you to an "Old Time Band Concert," with more toe-tapping music by the Symphonic Wind Ensemble and the University Concert Band, augmented by hand drummer and friends. The Conservatory's Director of Bands, Dr. Mark Halseth, will conduct. The entire family can enjoy this annual event.

Burt Nadler
Director of Career Services

"Are you close to getting a job?"

This inquiry will come from friends, (yes, family) members and occasionally from that little voice we call a conscience. When you hear it, be prepared to cite how much you've done to date.

"Well, I've written a resume and I've begun working with someone from the career services office on what they call self-retouched writing," and "I've done some on-campus interviewing, but I guess I'm not sure what I want," are two of several good answers. "I don't think I'll get started until graduation," or "Who cares?" are not very good responses.

When dealing with well-meaning, well-intended individuals who make these inquiries, try always something positive and note a step you will definitely take. "I'm scheduled to attend my first stepped seminar and meet with a career counselor." "I've picked up a resume writing guide and I see how my draft can be improved and corrected." "I used the career services office has a handbook which clearly describes the 10 steps I'll have to take to find a job. I'll be there as soon as break is over and all acceptable replies. Use them if you need them.

If you ever get into a boused career-related discussion with parents or with their children, (a quick word of caution, relative who thinks he knows everything) simply cut to the core and hand it to him.

**JOB-SEEKER IDENTIFICATION CARD**

**UOP career services acknowledges that the bearer is a job seeker in good standing.** This senior or alumnu is aware of services and seeks those

Matthew Kolken
Opinion Editor

The last weekend I had an experience that has altered my entire perspective on life. I met an aging leftist and was exposed to the concept of making the world a better place through service. The incident left me with a sense of purpose and a desire to make a difference in the world.

With the rains subsiding after a long, wet winter, the San Joaquin Delta is a great place to enjoy the sun and water sports of Stockton. Many people go to the coast for the weekend, but the Delta is much closer, as well as closer to home.

The first phenomenon of the Delta is the ever-changing water level. In Stockton, in the Delta, there is a tension in the Delta where water rises. The alluvial water and the tides can affect a whole region for many days, or just a few hours.

One weekend I was on my motorboat, and for the first time, we could see the water levels from the other side of the channel. We talked to each other, and the water level was 10-15 higher than only a week before. This made me realize that water which was like Greg Brady. Should

Is Kravitz Going Your Way?
By Aimee Girardot
Staff Writer

Lenny Kravitz's newest album, "Are You Gonna Go My Way," is a mellow mix of new songs. It begins with the title song which is the faster paced song of the album and a promising new hit. Kravitz maintains his usual love theme on the second half of the album with the songs "Is There Any Love In Your Heart," "My Last," "Sugar" and several others. While Kravitz's latest release isn't one to crack at a dance party, his soothing voice and simple lyrics will move to the music or as a background mood setting while lounging with a lover. If you are a big Kravitz fan, you may be disappointed with this slow paced album. It is worth discovering for yourself if this new, mellow Kravitz is something you enjoy. It is on sale now at Tower Records for about ten dollars, or available this week at the bookstore.

Duck's, Chuck's, Boulangerie and Bagels
A different way to start the day — Go out for breakfast
Gina McCready
Staff Writer

The thought of going downtown to the usual bowl of soup at state Capitol Crutch crash at last night's leftover pizza might not motivate you to get up. The video monitors that usually tell you how bad your goose is, are now playing the video of each kinds as film in Chairs, 17 and the Red Hot Chili Peppers. Far plugs are recommended for those hearing- weary. You are never present to take your drink orders right on time. With a diverse crowd of "Rock 'N Rollers," people watching is in its best. Having a good group of friends along guarantees a good time. Rock 'N Roll is located at 3955 Haight Street. More information can be obtained by calling (415) 636-2629.

The Ducks Nest

The Ducks Nest serves all sorts of eggs, sausage, bacon and waffles, pancakes and french toast. If you want the house favorites, try the "Hunter's Special" (pancakes, linguica, sausage and bacon all scrambled into eggs), an emblica oilmet or the Belgian waffles with whipped cream and fresh fruit. Just a short drive from school, the Ducks Nest is located on Harding, a block or so east of Pacific.

La Boulangerie

Although this column usually tries to stay away from major restaurant chains, La Boulangerie is a lovely French bakery and cafe has to be mentioned. Located in the Venetian Bridges center and in the food court in Sherwood Mall, these little places offer a variety of filled croissants, scones and capacuities and mochios are excelle-en. The cafe in Venetian Bridges has tables on an outdoor patio, perfect for a leisurely breakfast with a friend (for the price) on a warm spring morning.

Is Kravitz Going Your Way?
By Aimee Girardot
Staff Writer

Lenny Kravitz's newest album, "Are You Gonna Go My Way," is a mellow mix of new songs. It begins with the title song which is the faster paced song of the album and a promising new hit. Kravitz maintains his usual love theme on the second half of the album with the songs "Is There Any Love In Your Heart," "My Last," "Sugar" and several others. While Kravitz's latest release isn't one to crack at a dance party, his soothing voice and simple lyrics will move to the music or as a background mood setting while lounging with a lover. If you are a big Kravitz fan, you may be disappointed with this slow paced album. It is worth discovering for yourself if this new, mellow Kravitz is something you enjoy. It is on sale now at Tower Records for about ten dollars, or available this week at the bookstore.

1993 Pacific Pre-Season National League Baseball Poll
Who do you predict will place in the different divisions in the upcoming season? (Asked in McCafferty Center)

American League East
1. Boston Red Sox
2. New York Yankees
3. Toronto Blue Jays
4. California Angels
5. Chicago White Sox

American League West
1. Oakland A's
2. Texas Rangers
3. California Angels
4. California Angels
5. Seattle Mariners

National League East
1. Montreal Expos
2. Florida Marlins
3. New York Mets
4. Atlanta Braves
5. San Diego Padres

National League West
1. San Diego Padres
2. Los Angeles Dodgers
3. San Francisco Giants
4. Colorado Rockies
5. San Diego Padres

The Atlanta Braves

Intramural Update

David Perkins
Senior Staff Writer

SOFTBALL: Play Ball! That’s right. The softball season is finally underway. Unfortunately, the rain postponed some of last week’s games, so there are no scores yet.

Soccer: The season is almost over and it went without a hitch until last weeks rain. The standings and records to date.

The year of surprises
A season review of Tiger Basketball

Matt Neuenburg
Sports Editor

Pacific Basketball exploded this year and went beyond anyone’s pre-season expectations. Though the end came abruptly through two tough losses in Long Beach for both the Men’s and Women’s team, the accomplishments of the 92-93 season are numerous and a great sign of things to come for the next season.

Top Major League Baseball teams picked
An Oakland/Atlanta World Series?

Matt Neuenburg
Sports Editor

UCP students, staff and faculty were surveyed this week in the McCafferty Center for their predictions on the upcoming Major League Baseball season. With opening day only a week away, it was the perfect time for true pre-season predictions.

The World Champion Toronto Blue Jays were given the overwhelming nod to win the A.L. fast division again, only to face the Oakland A’s in a repeat playoff off series. Over half of those surveyed supported Toronto to make the playoffs, however only 5% believed the Blue Jays could take home the World Series this year.

The A’s were selected as the probable American League team in the World Series, with 12.5% planning on the A’s finishing the job once again.

In the National League the voting was divided through Atlanta was chosen as the top team. The Braves were predicted to face the Mets, who narrowly beat out the Montreal Expos for the N.L. East title. Those surveyed felt the third time’s the charm for the boys from Georgia, since 2001.

Look for weekly Pacific tales through the season. Mondays between games for past papers and look for the next edition on Tuesday.

UPC SCHOOL OF PHARMACY CHILDREN’S AWARENESS CARNIVAL
We need clubs, teams, and other organizations to sponsor game booths.
The School of Pharmacy is hosting the annual Children’s Awareness Carnival for families and kids. The carnival will take place in the McCafferty Center on Saturday, March 12. For more information, please call Heather at 477-7528.
Top freshman makes a splash at finals
Schumacher competes in NCAA swim meet
Kristin Roelofs
Senior Staff Writer

This past week freshman Brad Schumacher competed at the NCAA Men's Swimming Championships in Indianapolis, Indiana. Schumacher qualified for the meet last month at the Big West Championships in Long Beach. He was one of two swimmers in the conference that qualified to go to the NCAA finals. Going into the championships, he was seeded 13th in the 200-yard freestyle with a qualifying time of 1:21.24.

"This is a very difficult meet because the time standards have become so competitive," said head coach John Tanner. "After they qualify for the national competition, it is difficult to swim under their time or even the same because of the emotional pressure."

The first day Schumacher swam the 50-yard freestyle on the outside lane. He was seeded 45th in the event as he entered the race out of 65 qualifiers. He had an impressive swim at 20.17. This was an improvement from the Big West meet where his time was 20.66.

His time of 20.17 would have made him an All-American last year. Since the sport remains so fiercely competitive however, that did not place him in an All-American this year.

The second day Schumacher swam the 100-yard freestyle. This was his weakest event during the finals. He placed 36 out of the 42 swimmers. The final day and event was the 100-yard freestyle where he was seeded 19th going into the race.

Schumacher finished with a comparable score to his Big West performance with a 44.29 compared with 44.22.

It would make him the only swimmer from Pacific to qualify for the finals. Tanner was left with two extra spots for the deck.

Unexpected celebrities were the guests of UOP this year. "In this case it was Olympic gold medal winners Pablo Morales and Jeff Rouse."

"Morales and Rouse were both members of the 1992 Olympic team and competed together in the 400-yard medley relay where they brought home the gold. Rouse also holds the world record in the 100-yard backstroke."

Volleyball falls to midwest competition
Christina Collins
Senior Staff Writer

The UOP Men’s Volleyball team played a very impressive match against Ohio State University but Friday losing in five games, 15-13, 15-13, 15-13 and 15-13. The Tigers competed fiercely against the Buckeyes. "I thought we really played well as a team," said freshman David Otmotof, who led the Tigers with 18 kills.

During the finals, the Tigers evened the match 1-1. "Our outside hitter was on fire and gave us the boost we needed," said senior Matt Taylor.

The final day and event was the 400-yard medley relay where they brought home the gold. Rouse also holds the world record in the 100-yard backstroke.

THOSE FOUR LEADERS BELIEVED IN CENSORSHIP... DO YOU?

THAT ENRAGED ME. IT WOULD NEVER EAT HIS VEGETABLES THAN HE HAD PROMISED LOWER INCOME LEVELS IN DIFFERENT YEARS.

GEMINI (MAY 21-JUNE 20): Like a high-powered talk show, grows sick of all the hype and pretense, and who now tenet the stability of a massage parlor where he will encounter the Harlem-dandy, who will ultimately redeem his soul, your life offers ripe material for an "TV movie.

APRIL FOOLS! In fact, your life is only slightly like that. It's a crafty, ornamental flashing lens of damage at a hypotensive Oprah Winfrey Holiday Inn bar, hoping to coax him into having so many drinks he can't wake up the next morning to lend an ambiance on your cancer.

CANCER (JUNE 21-JULY 22): I'm worried sick about your well-adjusted behavior. Your incorrigible insinuation is trying to find a situation, your handwriting slide into what some cynics call "soul reading". APRIL FOOLS! I'm not worried in the least. I'm absolutely flustered by your outrageous success. If anything, I feel like a petrol spins your hair and a stiff upper lip and hits the nail on the head. You've got to stop putting your head in the sand and kiss on balconies naked in the rain with a juicy Renaissance pine.
