Dear Mr. Muir:

As the time has come when you expected to be again in this country, it is also time for me to write and find out where you are, in the hope that we may have the pleasure of seeing you at Milford. We are all very anxious to have you at Grey Towers. I think you would find some interesting places and formations in the neighborhood, and I should like especially to have you see the ravine of the Sawhill and the gorge it has cut out of the slate.

We have had a very quiet time, but without as much chance to study as I should have liked. We have almost no neighbors, and you would find, perhaps, that my stenographer could be of some assistance. So take it all around, I think it is clear that we ought to expect you, and I hope most sincerely that you will be able to come.
