## News Analysis

By ART CAFAGNI

The following article expresses my views only, and not those of the Navy, the Weekly, or, the college.

### PATTERN OBVIOUS

When the war is over, there will be a peace conference, and at this conference there will be addresses of grievances in the forms of economic sanctions and territorial changes forced upon Germany. But after the peace-makers leave for home, the pattern will be obvious—that is only two nations will be dominant in Europe, Russia and Great Britain. Each will be surrounded by its little group of satellite states, and each will reap the full benefit of these states' industrial and agricultural production.

### BRITAIN AND RUSSIA

Great Britain will control all that is not Russian, and vice versa, with a buffer, divided Germany in between. Look at the map. All the countries facing the Atlantic seaboard, Spain, Portugal, the low countries, France, some Scandinavian states, etc., will be firmly in the British column, while the Mediterranean countries will also snuggle for protection under the shadow of the British lion. The rest of Europe, that is the Balkans, except Greece, the Baltic states, and Eastern Europe will be hailing the hammer and sickle. No doubt a double "hands off" policy was formulated by Churchill in his recent visit to Moscow, Russia getting her free hand in the east, Britain in the west.

### WESTERN BLOC

The formation of the Western bloc is beginning to crystallize already, the foreign minister of

STOCKTON J. C. HEAD

## Dr. Bawden Guides the Enrollees Of the Stockton Junior College

To many of the new students on campus, the name Arthur T. Bawden means only the equivalent of "principal of the Junior College," but to older students it has more meaning than that, for besides guiding the destinies of the 1000 plus enrollees at SJC, Dr. Bawden is a genial understanding individual whose prime concern is the welfare of his students.

Rochester, New York is the town into which the Bawden babe was born, but as he grew older, he forsook upstate, and migrated to Ohio, to attend Ohio State University and after that he attended Denison College for a doctor's degree. While at college, he was admitted to membership of Phi Beta Kappa.

### INTEREST

The natural sciences have always had a great deal of interest to Dr. Bawden, and this may be reflected in his book on natural sciences and their place in the universe, entitled "Man and His Physical Universe."

Not to be outdone by Dr. Knoles, Dr. Bawden too is a "joiner" being a Rotarian, Vice-President of the California Junior College Federation, and as was mentioned before, a "philibete."

### HOBBY

Before becoming "big chief" of the SJC in 1942, Dr. Bawden was chairman of the Natural Science department here on the campus. Previous to this, he acted as Professor of Chemistry at the University of Shanghai until 1931.

This time spent in China has left a great impression upon him, so much in fact, that when you trundle over to the Bawden abode, you can see many remembrances from that country in his home. Indeed, it may be called the "Cathay House."

Every busy man has a hobby, and Dr. Bawden is no exception, his being the science of aeronautics, or more specifically—flying. However, military restrictions, as well as much responsibility at SJC have deprived him lately of exercising his hobby to the fullest extent.

## J. C. Registration Passes 1000 Mark

The total number of students now enrolled in the Stockton Junior College equals 1,153. This figure consists of 526 freshmen, 93 of whom are boys, and 433 girls; 278 sophomores, including 23 boys and 255 girls; 159 special students, 22 of whom are boys and 137 girls. The balance of the total is comprised of the 190 Navy V-12 boys.

## Bengals Travel To Los Angeles

### Ernie Smith Will Broadcast Game Over Local Station

Once again the Tigers move away from Baxter Stadium and travel to Los Angeles for their game tomorrow with the U.C.L.A. Bruins. The game is to be held in the Los Angeles Memorial Coliseum, and the kickoff will be at 2:00 o'clock.

## Elaine Peterson Elected Editor Of Naranjado

"A bigger and better year book" is the plan of Elaine Peterson, newly elected editor of the Naranjado, the Pacific official yearbook.

Ione Angwin, PSA President, announced that Elaine was officially elected editor at a recent meeting of the Publications Committee held under the faculty supervision of Miss Eleanor McCann. Members of the Publications Committee are: Nancy Kaiser, Jeanne Davis, Earlene Waters, Beatrice Berlander, and Dave Stanford.

### QUALIFICATIONS

According to the Committee Elaine reaches the highest of the qualifications of the other applicants. She is a senior student and has formed a background for her editorial position through her working on the Weekly as Society and Feature Editor and acting as campus correspondent for the Stockton Record. At the present time she is the Chairman of the Publications Committee.

### POSITIONS VACANT

The date of the publication of this official yearbook is June 1945. According to Elaine suggestions as to the theme and what the students would like to see in their yearbook are now being accepted. The suggestions should be placed in the Naranjado Box at the Information Office in the Ad Building, or they should be presented directly to her. At the present time many positions on the staff are vacant, and there is an urgent need for photographers and a business manager.

The new editor is a English and History major, and her present plans include graduate work in Journalism. She is Vice-President of her Sorority Epsilon Lambda Sigma.

## NO WEEKLY!

There will not be a Weekly issued next week due to the Thanksgiving Holiday. Be seeing you on December 1. Happy Holiday everybody. — The Editor.

Once again the Tigers move away from Baxter Stadium and travel to Los Angeles for their game tomorrow with the U.C.L.A. Bruins. The game is to be held in the Los Angeles Memorial Coliseum, and the kickoff will be at 2:00 o'clock.

Thirty-five members of the Tiger squad are expected to go to Los Angeles for the game. While there they will stay at the Hotel Figueroa in downtown Los Angeles the same as they did for the previous game held in the Southern City earlier in the season. The team will go by Southern Pacific and will leave Stockton on Friday and return late Sunday evening.

### BROADCAST

Admission to the game will be \$1.80, general admission; students with P.S.A. cards, 75c. For those students unable to attend the game, it will be broadcast through the facilities of local radio station KWG. Ernie Smith, sportscaster for the Tidewater Associated Oil Company, which is sponsoring the broadcasting of all of Pacific's football games this season, will be the announcer.

### TUNE IN

Don't forget, if you can't go—tune into KWG, Saturday afternoon at 2:00 o'clock for the Pacific-UCLA game!

## First Faculty Recital Will Be November 28th

Miss Mary Bowling, who is replacing Miss Miriam Burton will be the featured soloist at the First faculty recital November 28, at the Conservatory at 8:15 p. m. Miss Bowling has received two fellowships to the Juillard School of Music, one in piano and one in composition, before coming to College of Pacific to teach, she taught at the State College at Fredonia, New York for seven years. She will play four selections from her original composition "From the Northwood Sketches," they are "The Lake," "Leaves," "A Thought of Spain," and "Kalescope," she will also play "Dance of the Olaf" by Pick & Mangialli, "The White Peacock," by Griffes, and "Scher-

(Continued on page 3)

## Messages Can Be Sent to Persons In Philippines

The following letter has been recently received here from the San Joaquin Chapter of the American Red Cross:

"Arrangements have now been completed whereby you can send a special message to the Philippines. You may write as many words as you wish on the form which we will provide for you. These messages which we are now sending can be accepted only during the month of November, so please go to the Red Cross office or branch in your vicinity, at your earliest convenience."

By WAYNE PERRY

Cleo's coming (that's what the paper said last week), and the rains have come. In other words it's a little moist at the present time—so moist that I've been using my water wings and a Water-Hag outboard motor to get to classes. Last Thursday in the assembly after I had squeezed the water out of my books and squishily settled myself for the weekly student body meeting in the auditorium, I noticed something very startling.

As I sat listening to the various people on the stage, I glanced up at the chandeliers hanging high over my head. Immediately I began to wonder how the bulbs are replaced in them when they burn out. Then the answer came to me—Batman does it. But at that same moment I made another discovery—a horrible discovery. For there, hanging from the middle of the high ceiling in the auditorium, were the remains of our one and only bulb-replacer, Batman. (I'm not kidding. If you'll look you'll see Batman's shriveled little body hanging from the ceiling).

## THE QUESTION

Now, the big question is—who will replace the bulbs in the auditorium since Batman is gone? Are we to live in eternal darkness? Or is there a Superman in the house?

Wait! Don't lay the paper down yet—the vegetables are passed and the second course is coming up. There's going to be a great dance, given FREE for everyone, upstairs in the S.C.A. on Saturday night, November 25. You have all been to the "get-acquainted" dances and entertainments which have been held, so now we can get together like old friends and make a real success out of this dance.

The "Li'l Abner Polecat Polka," presented by Lambda Nu Phi—the civilian fraternity on campus—is a dance planned in the true Yokum fashion. Everyone should dress the part—as Daisy June, Li'l Abner, Moonbeam MacSwine, and Earthquake MacGoon—and appear promptly at 8:00 p. m.

## REMEMBER

Don't forget the "Li'l Abner Polecat Polka." The place—top deck of the S.C.A. The date—November 25. The time—from 8:00 p. m. until 12 midnight. The music—off the records. The clothes—strictly Dogpatch style. We're going to dance Skonk Hollow fashion, and we're going to have FUN.

Homing pigeons were used extensively by both sides during the first World War.

The blood you give will help our injured soldiers to believe in miracles.

Vatican City is foreign territory even to Romans, who must add extra postage to mail going over its borders.

## CADAVER HALL

By ART CARFAGNI

A few days ago, the following letter arrived from a buddy now stationed in the south Pacific area. It had been passed by the military censor, but here and there the all powerful pencil pusher had deleted some words, that I guessed were important for reasons of "military security." Here it is for what it is worth:

Dear Cads:

I received your last letter, and appreciate very much your sending me that food and gift subscription to the Weekly. We had a hard time in taking (one word censored) from the Japs, but after a hard fight, we won. A few weeks ago, we went across to another island and picked up some old sad-looking (one word censored) that the Japs had left behind in their retreat. When they brought these over to our island, the (one word censored) of our men shot sky high, and a big (two words censored) was planned for that night. In fact the (one word censored) officer said that he had never seen more cases of (one word censored) in his life. But now our unit is on the move to (one word censored) so I'll have to stop this letter. Say hello to all for me. P. S. I would have written sooner, but I came down with (one word censored).

## CONFUSED

Naturally, when I first read this letter, I was pretty confused, and I wondered what he had been doing, but a few days ago he returned on a furlough, and he explained all to me, that is what the censor cut out. It seems that the Japs had left behind some boxing gloves, and when these were brought to the island on which he was stationed, the morale of the men shot sky high, as it was announced that big open air boxing matches would be held. The men fought hard and were battered, the morale officer commenting that he had never seen more cases of battered but happy bodies in his life. My friend then went on to say that he had come down with a cold, caught while boxing in the open air. So calm your fears—or emotions.

## LETTERS TO ED.

I noted that in this week's issue there appeared in the "Letters to the Editor" column a little "from a friend note," addressed to fellow columnist G. Reiss. While I shall not waste space to review the contents of the letter, I shall answer for Mr. Reiss, as his column had gone to press at the time of the letter's arrival. You claim that "this statement had a profound effect on those who are not interested in the above afore-mentioned purpose." Naturally, your first reason to come to college is for educational advancement, but then again, don't ever try to say that you did not have the slightest intention of seeking male companionship, be it naval or civilian, for that statement seems illogical—unless of course, my anonymous writer, you are forced to adhere to this position by circumstances beyond your physical control. Then again, a good course in

(Continued on page 3)

## FORMER PACIFITES

Jack Lagoria

In last week's issue **Ralph Scheurer** was somewhat or other listed as being in the European Theatre. However, the October 23rd issue of Life magazine mentioned him as having helped to do some of the ship-sinking that was so important prior to the Leyte invasion in the Philippines.

From Avenger Field in Sweetwater, Texas, comes the news of the graduation of **Margery Jean Downey** as a WASP pilot. Before she joined the WASPS, she was a mechanic at the Reno Army Air Base. Some of you Epsilons should remember her as a sorority sister.

Do you remember **Norman H. Nordwick**, who married Rose Bartlett? For him it is Lt. Nordwick now—since his graduation from Carlsbad Army Air Field in New Mexico after completing bombardier training.

A former SJC student, who received his wings in October of 1943 at Stockton Field—**Dexter B. Lasher**—has been awarded an Oak Leaf Cluster to his Air Medal. 1st Lt. Lasher has participated in several bombing attacks upon war plants in Germany and other military defense points.

Just returned from the Pacific war zone after 23 months is Marine Private First Class **Milton K. Callas**. Recognized as a veteran of the Marshalls campaign, Private Callas awaits furlough orders at the Marine Corps Base reassignment center in San Diego.

Two newly commissioned Marine Second Lieutenants at Quantico, Va., are the former Tigers, **Jack Eugene Lagoria** and **William John Foelker**. While here at C. O. P. Lt. Lagoria was a major in political sciences, and Lt. Foelker majored in physical education.

Home on leave this week is Lt. (jg) **Frank L. Matteoni** from his base at Corpus Christi, Texas. Before entering the Air Corps in August of 1942, Lt. Matteoni was one of our "Swimming Tigers." He is looking forward to his assignment in the Pacific area after the first of the year.

And here is news of another Rhizite, **John Dinubilo**—a C.O.P.

William Foelker

graduate in 1943. At Camp Lejeune, N. C., he has completed the course in Quartermaster Administration and is now ready for assignment to duty. Believe it or not, Lt. Dinubilo was a Business Administration major here at Pacific.

Marine First Lieutenant **Joseph A. Mitchell** after being commissioned in May 1943, has served overseas at American Samoa and the Ellice and Marshall Islands. While in the Marshalls he experienced a crash landing and drifted for more than a half hour before being rescued. But that has been his closest call in more than 12 months of combat fighting in which he has rolled up a total of 40 bombing and strafing missions against enemy-held positions while flying with a unit of a Marine Air Wing.

Here is another reminder to write to someone overseas and let them know a little about the home town or Pacific. Some will thank you for it. **Bud Stefan**, an Omega Phi man who hails from Galt has been tripping around between England and France and can be reached through the following address: Ens. Robert J. Stefan, USNR, U.S. L.C.T. 515, % F.P.O., New York, N. Y.

**Sgt. Russel Jones** was a visitor here last week from Italy en route to Santa Monica for reassignment. He made 50 missions as a tail gunner in a bomber

(Continued on page 3)

By GIL REISS

Situated ideally in the beautiful San Joaquin Valley amidst the picturesque town of Stockton surrounded by an abundance of farming acreage, find ourselves at the College of the Pacific. The town of Stockton, two miles distant provides in moments of leisure for the college student, a playground for the socially inclined. Yes, it is a unique college town providing things to do for everyone. So away we go for a round of fun and gaiety in Stockton.

## GAY WAY

We enter the city and the gay white way, Main Street, Stockton. Here many a college student has found an escape from the strain of cramming our tests. To the right and to the left and everywhere is entertainment, gaiety, fun, excitement; there is the Fox California now! On the left the Ritz, there on the right is the Sierra, now flashing on are the bright lights of the State, the Rialto, and the Roxy. Around the corner we go and then on the right is the world famous Trianon, where the name bands play Wednesday and Saturday nights. After an evening packed with excitement we adjourn to the quaint Stocktonia across from the Santa Fe depot, where we quench our thirst and have a lively conversation with Pop.

## COMPLIMENT

Compliments to Alpha Theta for putting on a highly successful "open house" for the sailors on campus, last Friday night, and an added bit of thangs to the Coast Guard Pilots Bands that staged a swell dance after the game last Saturday night.

Oh, to have as good a time as any three sailors seem to be having.

These are hot days that call for sweeping the house with a glance and going to the bathing beach.

Navy officers in Washington may go coatless due to the heat—the only thing able to lick the Navy.

# MIKE CHAT

By VEE PLUMMER

The Mike is Dead in the Campus Studio, (no cracks about the chat,) however opinion has it that it will be alive (the Mike and the Chat) in a very short time, until then.

Here's Your Chance Kids, the campus studio is now open for suggestions, as to the type of productions Pacific Students would like to hear; oh yes we know the Philosophy, "Before you ask others advice use your own head, there may be something in it," however last year 187 productions were presented over KWG, with high hopes of presenting more this year, thus any and every idea (if it is good) will be welcome.

Ideas Already Presented by members of the work shop are: A program interviewing prominent campus personalities, something on the "Meet the People Idea."

Another Suggestion is a Pacific History Program, bringing in the History of various departments, such as A Cappella Choir, and using our present choir in the program.

A Short Skit of "Janie" maybe given, along with a few of Pacific students original ideas, such as Elton Burgstahler's song entitled "Janie."

Variety Shows Have Been Suggested, but any ideas to the type of entertainment for such shows will be accepted.

Any Brainstorms, you may have may be given (written please) to Alta McClintock, Lois Butterfield, Jeannie Hall, Ione Angwin, Mary Flaa, Elton Burgstahler, Shirley Dugas, Gloria Miller, Jack Lyons, Esther Harlow, Lelia Ruggeri, Elaine Peterson, Betty Jean Hull, or Dennis Manion.

## Cadaver Hall

(Continued from page 2)

psychology might alter your behavior pattern!

### PEACE IN OUR TIME!

Believe me though, my intention in writing this is not to start a pitched battle raging, but because Mr. Reiss could not respond, I acted as his substitute. I hope that there will be peace among all concerned, for only unwanted bad feeling will be the ultimate result of a conflict.

## CAREER GIRLS SHOULD EVEN GIVE THE FUTURE A SERIOUS THOUGHT

If you were to get into casual conversations these days with many of the girls on campus about their majors in college, the majority of them would brightly say, "Oh, I'm SO interested in speech; I intend to do something with speech all my life!" The next girl might say, "MY major?" It's business. I'm just CRAZY about rapid-fire dictation. I have two short-hand classes every day." The cute little blonde with the business-like swagger would probably fall over herself telling you about those darling sixth-graders she's going to teach next year. The dimpled brunette from Iowa would say in a throaty voice: "Drama. It's my life. I've acted every day of my existence." She then adds with a Mona Liza smile, "And I always will."

### THAT'S IT

Yep, that's about the size of it this fast generation. You can not get many of the girls now to gush. "I came to college solely for Home Ec. You can't guess how much that course has improved my tailor tacks. I'd be completely happy if I could spend most of my life cooking and sewing."

### IF ??

If everyone wants to go alcaering, that's going to seriously upset the balance of nature. Those creatures who are rumored to have a heart than can be reached only after one has satiated the stomach aren't going to like it. The next generation of females will hate their mothers for not being at least semi-skilled in the art of preparing food tastily, because the mater has to teach and give good example.

The Home Ec. department here is making the cutest bedroom slippers. Be serious, you females, and think about the future.

You can't expect a face to look too cheerful in the early morning—after it has been slept in all night.

## Confusing, But Also Amusing

The large roar of laughter which poured forth from room 210 last Tuesday afternoon was due to Dr. Tully Knoles telling his first story of the semester to his World Today Class.

This is the story . . . A student attended the lecture of a certain college professor on the first day of the meeting, but he did not turn up again until the finals. The professor was very angry that this student could think that he could pass his course with only attending the first lecture. Immediately when the papers were turned in, he singled the boys out of the stack and corrected it. The paper had the amazing score of 98 per cent. The professor was perplexed so he called the boy into the office. He asked the boy what the meaning of this was; how could he get such a high score without attending the lectures? "Well, said the student, "I would have gotten 100 per cent, but you confused me on the first lecture."

## Faculty Recital

(Continued from page 1)

zo in C sharp minor," by Chopin.

Others to be featured at the Recital will be Professor J. Henry Welton, tenor, and Professor Allan Bacon, organist.

Professor Welton will sing: "Would You Gain the Tender Creature," (From Acis and Galatea), Handel; "To the Sun," Curran; "London Rain," Klemm; "Ring Around the Roses, Bellini; "Chicken Dinnah," Kingsford.

He will be accompanied by Mrs. Wilhelmina E. Harbert.

Professor Bacon's organ selections will be "Prelude in G Minor" by Bach, "Pyramids," by Stoughton, (from the Egyptian suite) "Little French Clock," by Bornschiew, and "Toccata on a Gregorian Theme," by Barnes.

from Italy over enemy area and was awarded the Air Medal and Oak Leaf Cluster. He took a post-graduate course in physics at C.O.P.

Aviation Cadet Robert A. Wilson is stationed at Gardner Field Taft, as an OLT. He was chosen to serve as life guard and head swimming instructor at the pool there. He trained under Coach Ralph Wright while a member of the Stockton High School swimming team. He attended C.O.P. until receiving notice in April, 1944 to report to the AAF. He was sent to Amarilla, Tex., for basic training.

"Dub" Smallwood recently was a visitor here. He and Beverly (Crofton) are the proud parents of a 16-months-old boy. "Dub" is picking up his crew. He is flying B-17's. He was previously instructor in glider school. After eight months of training six of the instructors were picked and sent to a southern college, and out of 300 men "Dub" finished eighth.

Dan Ostrander is now in flight training at Stockton Field. He was prominent on the track team at C.O.P.

We have heard that Ethen Higgins is a lieutenant (j. g.) on a Corvette and also that Dave Brownell has married Frances Brandstead. Dave was last heard from at Stockton Field.

The 1906 fire in San Francisco progressed at the rate of about one block every two hours.

## Engagement of Suzanne Brown, Bob Pearl Revealed at Saturday Luncheon

### Alpha Thete Holds Open House Party For Navy Trainees

Alpha Theta Tau held an Open house for the Navy V-12 Trainees, last Friday Night from 8 to 10.

Guests of the evening were Mr. and Mrs. C. Finn, and Mr. and Mrs. J. Greenwood were Patron and Patroness.

The chairman of the function was Barbara Merrell, and the committees were as follows:

Food: Betty Holt, Helen Graham, Marilyn Padula, and Merile Johnson; decorations, Jean Comartin, Joyce Harrau, Frances Brujton, Peggy Fronefield; clean-up, Jancie Gosling, Mary Henley, Viola Burres, Sally Fenton, Dorothy Gelatt.

### Women's Hall Holds Formal Installation For New Officers

The formal installation of new officers and council members, was held in Women's Hall on the evening of November 7, in a candlelight ceremony.

The girls initiated to preside as officers for this semester were Misses Virginia Malsbary, President; Eugenia Nance, Vice President; Lesbia Malatesta, Secretary; Marjorie Quisenberry, Treasurer; and Lenora Gebbert, Historian.

The new House Council consists of Misses Phyllis Sears, Beverly Goodale, Phyllis Duval, Carolyn Larson, Mariluise Rautzahn, Meda Aden, Marion Phillips, and Juliette Barman.

At the conclusion of the meeting Mary Jean Blossom sang.

### Women's Hall Prexy Reveals Engagement At Installation

Virginia Malsbary, new house president of Women's Hall, revealed her engagement to Earl Cornwell, V-12 trainee now at UCLA, by presenting chocolates to housemother Mrs. Ralph Brady.

The occasion was the installation of officers on Tuesday evening, November 7, 1944, in Women's Hall.

Virginia, a senior and a music major, is the daughter of Mr. and Mrs. A. A. Malsbary of Riverside, California. She graduated from Visalia J. C. before coming to Pacific.

Earl is the son of Mrs. W. D. Cornwell, Laton, California. He was stationed for three years in the Pacific, before becoming a V-12 supply officer trainee at the College of the Pacific.

The couple met at Riverdale High School. They plan to be married when he completes training.

College friends of Miss Suzanne Paula Brown, daughter of Mr. and Mrs. Kenneth R. Brown of Sacramento, bidden to a birthday luncheon at Tiny's restaurant Saturday afternoon were informed of Sue's engagement to Mr. Robert Clare Pearl, son of Mr. and Mrs. Frank A. Pearl of Lodi.

Following the opening of the birthday gifts by the honoree, the guests were seated at a long table centered by a bouquet of chrysanthemums in graduated shades from lavender to deep purple. Before each place was a miniature gift, which when opened revealed a card announcing "Betrothed: Bob and Sue." The gifts contained individual pairs of pearl earrings, significant of her fiance's name.

Guests bidden to the luncheon and engagement party by the honoree, include Mrs. Kenneth Brown, Mrs. Frank Pearl, Mrs. Wayne Delzell of Sacramento, Misses Arlene Stoy, Helen Cummings, Helen Thatcher, Alta McClintock, Betty Coleman, Marybelle Goodrich, Bette Schultz, Beth Outsen, Earlene Waters, all of C. O. P.; Ruth Cook, and Yvonne Brown, sister of the honoree, of Sacramento.

Suzanne is of high freshman standing in Stockton Junior College where she is a music major and lives at Sophomore Hall. A graduate of McClatchy high school in Sacramento, she was affiliated with the KT Club and Kappa Tau Chapter of Omega Nu sorority of that city.

Bob graduated from Lodi Union high school where he was active in the Lodi Chapter of DeMolay. He attended S.J.C. and is at present a junior at the University of California, where he is an engineering major.

No definite wedding date has been set.

### Ortha Meta Para Initiates Four New Members

Last Wednesday night, the COP chemical society, Ortha Meta Para held its first meeting of the winter semester at which time four new members were initiated. They were, Gus Raney, Jim Ritter, Nola Garrison, and Phil Taylor.

#### OFFICERS

Officers for this semester are, President, Arn Beisser; Vice-President, Art Carfagni; Secy-Treas., John Grubb; Initiation Chairman, Ray Olivieri. Plans were laid for a Christmas dinner which the members hope will be held in the SCA. However, definite announcements were not yet in order. Also at the meeting, a resolution was introduced to permit reelection of officers.

Following the meeting and initiation ceremonies, the group retired to the solutions room, where the chemical composition of their gastric hormones was determined by cake, ice cream and milk.

## Girls Will Hold Dance In Dorm Saturday Night

Pumpkins and cornstalks will carry out the Thanksgiving theme planned for the Turkey Trot Dance to be given by Women's Hall on Saturday night, November 18, from 8 to 12.

Deviating from former years, the dance will be held in the dormitory instead of Anderson Hall.

Serving as chairman for the various committees are Misses Marjorie Quisenberry, Meda Aden, Mary Alice Yelland, Shirley Lamar, Rachel Wright, and Betty Hardie.

## Sophomore Hall Elects Officers

Miss Dorothy Persell was elected President of Sophomore Hall in an election of officers held Nov. 9 at the newly organized campus living-group. Other offices will be filled by Miss Betty Maley, Vice-President; Miss Bernice Temple, Secretary; and Miss Joyce Atwood, Treasurer.

The remaining members of the house council as appointed by the President are the Misses Marie Rhein, Helen Cummings, Marie Hansen, and Mildred Griffin. Miss Pam Mitchell is the house historian.

Plans for future social events were made at the first official council meeting Wednesday evening and tentative dates have been set.

## Dancers Will Meet At Stanford Soon

Orchesis, the honorary dance group on campus, has been invited to attend the Dance Symposium to be held at Stanford University the last of this month. This meeting is held annually, and Mills College, Fresno State Teachers College, Stockton Jr. College, University of California, College of Pacific, and Stanford University are among those participating. However, due to transportation facilities, the entire group will be unable to attend this year, so Mrs. Rogers plans to take a representative from the group.

## Urge for Learning Embarrasses Girl

The freshman, in his eagerness for knowledge, often proves himself to be too enthusiastic. Such was the case of a certain little "freshie" in Dr. Werner's "History of Western Europe" class.

#### URGE FOR LEARNING

The urge for "learnin'" was buried deep within her soul, so much so that when Dr. Werner asked for the definition of the word Culture, she waved her hand frantically in the air to answer: "Culture, is the appreciation of—of—Oh Dear!" stated "freshie" weakly. "Well," said Dr. Werner, "I can easily see by the tone of your voice you don't mean me when you say 'Oh Dear!'" Whereupon "freshie" sank deep, down in her chair, to quietly "blush" the period out!

## Marilyn Van Sandt Weds Otis Harvey In Morris Chapel

Miss Marilyn Van Sandt, daughter of Mrs. Margaret Van Sandt, become the bride of Ph. Mate, first class Otis Harvey, son of Mrs. J. A. Garibaldi, on the sixth of this month. Dr. G. H. Collier officiated at the ceremony held at 5 p. m. in Morris Chapel.

The bride, dressed in a white satin gown and a finger tip veil, carried a bouquet of gardenias and orchids. Miss Margery De Witt, maid of honor, and Miss Charolette Caldwell, bridesmaid, were gowned in pink and blue and carried pink baby roses. The chapel was decorated in white chrysanthemums.

Mrs. Harvey, a graduate of Stockton High School, attended Stockton Jr. College where she was active in the S.C.A. Ph. Mate, first class Harvey is a graduate of Stockton High School, and he attended the University of California prior to his entrance into the Navy.

At the present time, the couple is making their home in Stockton.

## Newman Club Plans Special Activities For this Month

What is the Newman Club? It is a Catholic organization formed for both social and religious activity. Dues are fifty cents a semester and all Catholics on campus are not only invited but urged to join. The meetings are held the first and third Tuesday of every month in the S.C.A. building at 12:55.

#### FIRST MEETING

At the first meeting, which was held last Tuesday, Nov. 7th, officers were elected to assist the already elected president, Greg Ahern. They are as follows: Arnold Pagano, vice-president; Lois Witherow, corresponding secretary; Becky Roset, recording secretary; and Barney Murphy, treasurer.

#### COMING

There are two big events coming up in which Newman Club members should be interested. One is religious and the other social.

#### RETREAT

A retreat is to be given on campus Monday and Tuesday, Nov. 20th and 21st. It will be held in the Catholic Chapel, Room 201 of Morris Chapel, and Father Bolger, well-known in Stockton for his many missions, will conduct it. Mass will be said and a sermon will be given each morning at 6:15, and another sermon followed by benediction will be given at 5:00 in the afternoon. Retreats are always worth while, but this one will be especially so, because it is being conducted solely for college students. It is open to everyone on campus.

#### HARVEST DANCE

The social event is the Harvest Dance to be held Saturday, November 25th, at the Italian Athletic Club on the corner of Sutter and Weber. It is sponsored by

## Freshman Hall Is Name Selected For Dormitory

Complete with new name and new girls, Freshman Hall has opened as the first of its kind on the College of Pacific campus. According to Mrs. Graham, housemother, the hall has been in turn a sorority house, Women's Hall Annex, and navy barracks E, better known as Cadaver Hall.

#### TO BE REDEDICATED

After the Navy pre-meds took over in July of 1943, the third floor on the left-hand side facing Sorority Circle was well occupied. Due to all the activity in this portion of the hall, complete redecorations have been ordered for the new girls. At the present time, the third floor is a sleeping dorm for the extra girls. It was known as Room X.

#### ONE GIRL MISSING

Of the forty-one girls in the house, only one has not as yet arrived. She is coming from Honolulu, Hawaii, and the girls are wondering if she has read reports of Pacific's man shortage and decided to stay home.

#### HAVE ADVISER

Barbara Roth, sophomore adviser, is helping the girls become better acquainted with campus life, and all the girls desire to set an example for all future girls who may come to Pacific and reside in Freshman Hall.

## ATTENTION GIRLS!

A deposit on room reservations for the next semester, will be accepted, beginning November 20, in the office of the Executive Vice President and Comptroller. The deposit has been raised from five to ten dollars.

All women students who are interested in campus accommodations for the March term, are asked to consult the bulletin board in the Personnel Office before placing their deposits.

## Tau Kappa Installs New Officers

Tau Kappa Kappa elected officers for the ensuing term November 8, and a candle light ceremony was held to install the new officers. Mrs. Anita Perry installed the new officers in setting of white candles and chrysanthemums. The president, Virginia Huntley, Treasurer, Janice Potter, historian were the ones who took their places as officers for the semester.

the united Catholic Organization of Stockton and members of Newman Club are to be given of honor; non-members will be charged seventy-five cents. "Not be a member? Your dues are more than paid by the admission to one dance. Remember it is harvest dance so wear gingham or anything else appropriate harvest time. There will only be dancing, but concession a barber-shop quartet, a comedy store, and to top it all there will be refreshments. Don't do anything else for November."

## U. S. Secret Service Continues Campaign Against Forgeries

Because of the increase in the number of checks issued by the Treasury Department, the United States Secret Service continues its campaign against the check forger through its "Know Your Endorser" program.

### MANY CHECKS CASHED

Millions of Treasury checks are issued monthly to dependents of men in the armed forces; more millions are sent to Social Security beneficiaries, to pensioners, to Government employees, and others. When one of these checks is stolen and fraudulently negotiated, the person who is entitled to that check may have to go without some of the necessities of life, and may wait months before another check can be issued to replace the stolen one. This type of crime is particularly despicable because it means that families of men serving their country in the armed forces may be deprived of money which they count upon heavily for support. The Office of Dependency Benefits of the War Department has characterized the crook who pilfers allotment and allowance checks from mailboxes as "the meanest man in the world at war."

### CARELESSNESS IMPORTANT

Forgery depends for success upon the carelessness of its victims. The Secret Service has developed certain simple rules to help those who receive checks from the Government, and to safeguard those who cash these checks when presented for payment.

### RULES TO FOLLOW

1. Be at home, or have a member of the family at home to get the check when it is due.
2. Be sure your name is printed clearly on your mailbox, and if your box doesn't have a lock, get one for it.
3. Try to cash your checks in the same place each month. This will make identification easier.
4. Do not endorse your check until you are in the presence of the person you will ask to cash it. If you endorse your check and lose it, you will lose the money it represents.
5. If you change your address, notify your local Post Office and the Agency which issues your checks.

## LOST

## Cub House Has New Schedule

Twelve o'clock on Tuesday saw the opening of the Associated Women Student sponsored Cub House, for the first time this semester. The Cub House under the management of Dorothy Emigh is located in the Book Store Building across from Women's Hall.

At the present time the Cub will furnish fountain service and will serve sandwiches and pie.

The Cub will be open from 11:00 to 1:00, from 2:00 to 5:00 and from 7:45 to 9:45 in the evenings.

Any woman student who is interested in working at the Club can apply to Dorothy Emigh. She can work at any time that her schedule permits and she will be paid 50c an hour.

## Conversational French Class Open to Students

An experimental class in elementary conversational French, meeting Tuesday and Thursday at 8:55, for one unit of credit, is now being held in room 212, with Miss Ruth Smith as instructor.

Both beginning and advanced French students may enter anytime within the next week. Students enrolled in NL1 and NL2 are urged to enter.

There will be no home study, no text, and simple, complete French sentences will be studied. Miss Smith is planning to bring the use of Linguaphone conversational records into the course.

A similar class in conversational Spanish, taught by Miss Helen Danner, is being held, also on Tuesday and Thursday, at 10:45, in room 211.

## News Analysis

(Continued from page 1)

Belgium already having been to London, and Churchill and Eden in Paris for "conversations" with DeGaulle. Coupled with this, the addition of France to the European Advisory Council, which in effect gives Britain two votes, and the courtship of Western Europe has reached the proposal stage. Look in the papers for announcements soon to follow that the rulers of Luxembourg, Holland, and even Spain are on their way to London for "security conversations."

## Finding Psych Class Proves Perplexing To a New Student

I thought registration had been a strenuous activity but after the first few days of college life, I realized that it was only a preliminary toughening up process. Trying to find out where your 8:55 Psych class is located is something like trying to undergo a Navy Obstacle Course.

### WAS POSITIVE OF ROOM

I was positive the room was 206 and started hurriedly up the stairs. Before I knew it I was surrounded by V-12s, and the current carried me on up to the third floor, where I found myself in Abnormal Psychology. Amidst a series of long, low whistles, I took myself and my red face downstairs. I entered room 206, found a seat near the rear, and settled myself comfortably. Suddenly the professor's voice burst into my dozing thoughts; his question had been directed at me. I hastily gathered my wits together, while he repeated his question, "Why did Gloucester say, 'Thy son I killed for his presumption.'"

### IT WAS SHAKESPEARE

A Shakespeare class no less. Muttering something about my being in the wrong class, I gathered up my nail-polish, bandana and hair-pins and with my shoes in my hand, made what I thought was a very dignified exit.

## J. C. Students Note Attendance Rule

The attendance rule of the Junior College provides that if a student is absent without excused leave from a class more than one time the number of times the class meets per week, he will automatically be dropped from a class. If his standing in the class at the time of overcutting is not satisfactory, a grade of F will be placed on his record for that course. If standing is satisfactory a W is recorded.

For benefit of new Freshmen, applications for leave of absence to cover legitimate absences should be presented to the respective Deans.

The accordion was invented in Vienna in 1829.

Babylon was a market place for metals, grain and wool as early as 3000 B. C.

## Former Officer Of S.C.A. Holds High Position

Word was received at the S. C. A. that Eleanor Powell, former officer, has been elected co-chairman of the National Intercollegian Christian Council at Geneva, Wisconsin.

This organization is a policy making group for Y. M. C. A.'s, Y. W. C. A.'s, and S. C. A.'s in seven hundred colleges and universities in America. It is the highest honor and responsibility that can come to any student through the Student Christian movement in the United States.

### J. C. GRAD

Mrs. Godfrey is the daughter of Dr. and Mrs. Dewey R. Powell of Stockton. She is a graduate of Stockton High, and a past president of the Christian Endeavor at the First Presbyterian Church and past worthy advisor of Rainbow. At Stockton Junior College she majored in economics. In 1942 she was awarded one of forty-eight scholarships issued by the University of Chicago. It was there she completed her upper division work. At the present time she is contemplating sociology for her degree at Radcliff. She is married to Richard Godfrey, meteorologist who is with the U. S. Navy in New Guinea.

# Pilots Defeat Tigers 13-0

## Tunnell Sparks Pilots' Offensive Oestreich, Easton Are Outstanding

By TOM SPRAGUE

If Newell "Ace" Oestreich and Malcom Sinclair can complete 11 out of 25 passes with a wet ball, what will happen tomorrow when they meet the UCLA Bruins if the ball and field are dry? In the first half of the Tiger-Pilot game last week, 11 passes were thrown by the Tigers, of which 8 were completed.

Pacific had two scoring opportunities, and maybe with another week in preparation for this game, Coach Amos Alonzo could have taught his Tigers enough to make these chances good. This game with the Pilots was like pitting a young boy against a full grown man in a boxing match. Sometimes the young boy has the power, speed and tricks to defeat the more aged man, but usually the knowledge that comes only with practice and actual combat comes out ahead. And it did.

### PILOTS ACE

After our 50 minute glance over Emlin Tunnell, the Coast Guard Negro back, we have decided that he is good. No sport-writers opinions or press agents stories were necessary, we could tell with our own eyes that he was the best thing to hit Baxter Bowl since Johnny Podesto left us last season. On his 75-yard runback of the intercepted pass, over 6 Tigers had a chance to bring the nimble footed halfback to the turf. All 6 slid right off him like water off a duck's back. It reminded spectators of the greased pig contest at the county fair. Some of the more suspecting Tiger football fans reported that they saw Tunnell putting mud on his uniform to add to his slipperiness. In our opinion, he could have handles all over him for would-be tacklers to

Quality Jewelers  
Phone 5-5510  
Main and Sutter Sts.

A well balanced Coast Guard Pilot team spoiled the debut of the College of the Pacific eleven, registering a 13-0 win over the Tigers.

### AT BAXTER STADIUM

The game was played in Baxter Stadium last Saturday night before a small crowd. Continual rain made the field soggy, and the aerial contest between Emlin Tunnell and Newell Oestreich failed to materialize.

### TUNNELL OUTSTANDING

However, Tunnell proved to be up to his advanced notices. Late in the first period, after starting from the 36 yard line, and advancing to the Tiger 20, Tunnell faded back and threw a touch-down pass to John Westrum. The conversion attempt was blocked.

### PACIFIC MARCH

Pacific took the ensuing kick-off and started right down the field, determined to get back in the ball game. Oestreich started throwing, and he led the Orange and Black men down to the Pilot five-yard line.

Here, three line plays failed. On fourth down, two yards away from a score, "Ace" threw to Abel, who got his hands on the ball but failed to hold on.

### TUNNELL SCORES

Late in the second period, Tunnell intercepted a pass on his own twenty, and he went the entire eighty yards for the second and last score of the game. Huey bucked the line for the extra point.

### FAIL TO SCORE

Pacific made a valiant attempt to score in the third period. Easton made a circus catch of a Tunnell thrown pass to give the Tigers possession on their own thirty-three yard line.

Oestreich and Easton carried the ball to the fifty on running plays, and then "Ace" hit Abel with a pass on the twenty. A fourth down pass to Peterson just did miss for a score.

## WATCH HIM TOMORROW

LOUIS PAPIAS

## Easton Will Be Missing From Line Due to Twisted Leg Ligament

Marty Easton, the 17 year old player from Associated, Contra Costa County, will be missing from the College of the Pacific Tigers line up when they travel south to UCLA this Saturday. He was injured in the Pacific-Coast Guard game here last Saturday night where he twisted a ligament on his leg below the knee. The latest work-outs reveal that Newell (Ace) Oestreich and Malcom Sinclair will alternate at the full back spot while the other takes over the tail position. The last few days of practice have been largely dedicated to learning new plays and testing out the ability of the boys that have yet to prove themselves.

### LINEMEN NEEDED

Jake Peterson, right end for the Pacific team, has apparently made a quick recovery from his injury in last Saturday night's game. However more in doubt is Dan Canevari, probable first string starter at the guard, who may be ready for this Saturday's

game.

The Tigers left for Los Angeles this morning traveling by Southern Pacific. The traveling squad consisted of approximately thirty players. Now that the Tigers are over the nervousness of their first game with their almost entirely new team we can really expect them to show UCLA a good game and bring back a victory for C.O.P.

## INTRAMURALS

By DON BLAKE

Barracks A1 and A2 played to a scoreless tie the first intramural football game of the season. The game was played in the mud, and all the boys had a sloshing time. The teams were very evenly matched, and fought hard to the finish, but neither team could quite push the ball over the goal line.

A. Grant and Bob Miller looked good for A1; D. Harwood and D. Jackson were in there pitching for A2.

### NAVY TEAMS

There are four Navy teams to one civilian team in the league. The civilians however are not going to be led to the slaughter without a fight, as they are organized and are supposed to have a pretty good team. They are looking forward to the end of

(Continued on page 7)

## Pacific Blacks Win Over Stockton High In Season Opener

The Pacific Blacks, the varsity reserve team, trounced Stockton High's "B" team 30 to 17 last Monday night in the qualification opener of the industrial league basketball season. Russell King, Nelson, Hopkins, Carmen, Coli, Schwartz and Krukow were a little too much for the kids from the high school. After an opening spurt by Stockton High the Pacific Blacks took control of the game and built up a safe lead.

The Pacific Blacks will compete every Monday night at the Civic Auditorium; so come on down next Monday night and watch our boys go to town with that old "cassaba."

The hand grenade of the week goes to Ed Coli who used everything but brass knuckles on the brave quintet from Stockton High. Next week he may use the hand grenade but do not hold the Pacific Weekly responsible for our little explosive gift to him.

(Continued from page 6)

grab ahold of and still he could average five yards per try.

### EASTON HURT

Another Tiger backfield man was injured in the game with the Coast Guard Pilots last week. Martin Easton, freshman full-back, picked up an injured leg in the second quarter. He joins the roster of Klemenok, Cooke, and Muentner as injured Pacific backs this season. The former three were transferred on the first of this month.

Easton's injury necessitated a change of Malcolm Sinclair to the backfield from his end position. Sinclair is a good back, and a better end, but Jake Peterson and William Able can handle the wing-posts efficiently.

### THIS WEEK

The newest version of the Tigers will have another chance tomorrow afternoon, when they engage the Bruins of UCLA in Los Angeles. With another week of practice under their belts, the Amos Alonzo Stagg coached Tigers should make a better showing, especially if the field is dry and the full fury of the Tiger attack can be unleashed. We pick the Tigers by a one point. According to the latest reports on the 14-day Pickin' Plan, we also choose USC over California by 6 points, and St. Mary's Preflight over the Fleet City Bluejackets by two touchdowns.

### BASKETBALL

The College of Pacific hoopsters got their first try at the local hoops in the Civic Auditorium at the start of the new Stockton Basketball Association season this week. The games were just preliminaries, but the teams will get into full swing next week.

### Intramurals

(Continued from page 6)

the regular football season, as those robust chaps from Pittsburg, Jack Woodyard, John Enea,

and John Bagolea will then become eligible.

## THANKSGIVING DAY

The Pacific Tigers are scheduled to meet the Fresno State College team in Baxter Stadium on November 23.

## TITA COMPARES HAWAIIAN HOMELAND WITH COLLEGE LIFE AT C.O.P.

"Aloha, College of the Pacific," were the first words uttered by Flora Leiomalama Desha Beamer just two weeks ago when she first set foot on Pacific's campus. She went on to explain that in her native Hawaiian tongue, "aloha" not only means "good-bye," but "hello" or "greetings" as well.

Flora, a C.O.P. freshman, is perhaps more widely known on campus as Tita, her Hawaiian nickname meaning sister. Tita is on her initial visit to the United States and an American college. Upon arrival in San Francisco November 6th, she was awed at the size of the city and the height of the buildings. After only a brief look at the bay city, Tita wended her way to C. O. P., her college home.

### BUILDINGS

Here on campus, she is again amazed at the "large buildings," for "at home, they are, for the most part, low and rambling and not so high." Pacific's campus intrigues Tita with its peaceful beauty, and the friendly people have made her feel right at home. She especially commented on the "nice girls," but had nothing to

say about the male of the species. Perhaps it's because she hasn't seen any! They're scarce, you know.

Tita finds it most difficult to get used to our climate — just nice crisp Fall weather. But nevertheless, it's much too cold for someone who is used to tropical climate all the year round.

The American "jazz" or "boogie-woogie" does not appeal to Tita as much as her Hawaiian music for she is an accomplished hula dancer and claims that native chants cannot be duplicated here on the "mainland." Tita dances and interprets some 50 hulas. (Don't crowd, fellas!)

Comparison of the food here on the west coast, finds Tita well satisfied, but longing for the fish and poi served daily in her homeland. Coconut milk and fresh fruits are also very plentiful in Hawaii, whereas we produce only certain varieties during the four seasons. On her way to Pacific, Tita saw her first apple tree laden with the fruit, and after picking one and sampling it, she is convinced that California runs a close second to Hawaii in fruit production.

## Have a Coca-Cola = So glad you're back

...or offering a soldier the comforts of home

HOMES! No place like it. And nobody knows it better than a fighting man back on furlough. Ice-cold Coca-Cola is one of the comforts of home that belongs in your family refrigerator. At the words *Have a "Coke"*, refreshment joins the party. The good old American custom of the pause that refreshes is spreading in many lands around the globe,—a symbol of our friendly home-ways.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY  
COCA-COLA BOTTLING CO. OF STOCKTON, LTD.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

## LET US GIVE THANKS

Never before in the history of the American nation has freedom been prized so high and the torch of liberty been held so valiently. This is not the first time that men have fought and died to preserve the rights they hold so dear, nor will it be the last, but the outcome of the present struggle will not merely determine the freedom of the United States, or of the New World, but also that of Europe and Asia.

### COMMON SENSE

There is an old adage that history repeats itself and this is becoming more and more true. The words of Tom Paine and his pamphlet, entitled "Common Sense", still ring with a clarity and truthfulness that cannot be denied. These are the times that try men's souls. The summer soldier and the winter patriot will, in this crisis, shrink from the service of his country; but he that stands it now, deserves the love and thanks of man and woman." What clearer, more precise statement could describe the situation of the world today, when the very essence of humanity is being trampled under the heels of a few fanatical leaders and their warped minds.

### GIVE THANKS

Let us give thanks that these freedoms, which even the colonists realized as impregnable, have not been disregarded and relinquished with no more than an idle comment in America, as they have been in Europe. Liberty is not ours to give away; it is inalienable; it has been handed down to us by our forefathers as an inherent obligation that future generations may also benefit.

Let us give thanks for the Pilgrims and their Thanksgiving Day, for without them we might have never had our precious freedoms.

LOIS SCARBOROUGH

## INTRAMURAL TIME

Once again the intramural sports slide into the sport light. No, they do not detract from the inter-collegiate sports such as football and basketball. This program is especially laid out for the benefit of the trainees and civilians on campus who do not have the qualifications, time, or desire to participate in intercollegiate sports, a chance to display their abilities and have some fun.

This is one sure way of obtaining relaxation, recreation, and a way to utilize time some fellows seem to have on their hands. It also fosters good sportsmanship which is an asset to any potential officer and/or future citizen of the United States.

### SCHEDULE

The first scheduled sport for this trimester is football after which will follow soccer and swimming. The more fellows who participate, the more teams, and the more fun for everyone. So come on fellows, sign-up with Coach Rube Wood today, and make this intramural season be the best that Pacific ever had.

## W. A. A. COMING

No doubt you girls have heard that a "daily dozen" produces slim waist lines, beautiful legs, and clearer complexions. Well, from the gleam I've seen in some of our sports teachers eyes, we're out for a gay semester of exercise. After all, with so many women on campus and the rainy season upon us, the gym floor is the last resort of our classes and the last resort means literally, "calisthenics." But it's all for our own good and as soon as things are settled we'll be able to have tournaments in tennis, badminton, and swimming. So let's see all of you out there getting in trim for Miss Benerd's W.A.A.

—Dot Coleman.

### LETTERS TO THE EDITOR

Open letter to the author of the Navy column in the Pacific Weekly:

"We have all kinds of girls here at Pacific principally those after a man."

This statement may not have much effect on some Pacificites, but it certainly had a profound effect on some of the girls on this campus who are not here for the afore mentioned purpose.

Of all the unmitigated demonstrations of pure conceit that is it.

Some of us here, are just slightly interested in obtaining an education—trivial though it may sound to those individuals who entertain such inflated ideas of their own fascination and irresistible charm.

"Beware, you are now at college. Act accordingly." Yes, do act accordingly. After all, trainees, you're big boys now.

Sincerely,  
A Friend.

## It Could Be Verse

By V. PLUMMER

Wednesday is here and no column in sight,

What'll I do, stayed up half the night?

Worrying, scurrying, a bromo I needs,

All this for a column that nobody reads.

Now I know some jokes you'd think were O.K.

V-12 fellows tell them most every day.

You'd laugh and you'd laugh, 'til you'd be in tears

But on the way to press the word CENSORED appears.

A lot of you don't know me, at least by name

I write a column and take all the blame

For this paper I live, for this paper I die

My column's not finished so cruel world GOOD-BYE.

## OVERHEARD

A committee of admirers of the president were trying to decide upon a place for a statue of Roosevelt in the Capital. They decided it would never do to place it next to George Washington, who never told a lie, nor next to Thomas Jefferson, who spurned

## Is You Is Or Is You Aint Well Pleased With Assemblies

Do your assemblies seem different lately? Perhaps they could if a few more suggestions were made by General Public along this direction. Some complaints have come our way, and strangely (?) enough, most of them from civilian—girls!

"Girls' schools are all right," says Doris Danska, "but what we need at assemblies are men, men, and more men. I love 'em!" (Apparently 189 Navy fellows aren't enough for her—and the other 900 girls.)

### PRACTICAL SUGGESTION

And then there have been a few practical suggestions made by Barbara Jones, Jeanette Arbicor, and Joanne Jividen, who believe there should be fewer speeches and more entertainment. (As a subtle hint to the PLT, how about a preview of the next play?)

"Thursday assemblies make it pretty tough on those taking America at War," says Mildred Vandergriff, "and eating is almost next to impossible. Can't something be done about that situation?"

### ONE GROUP ONLY

Jeanne Sprott wonders why charge of the assemblies is placed in the hands of one group alone.

"Couldn't more talent be discovered if each house (from co-Ops to sororities) and each barracks were to individually sponsor a Thursday assembly?" Nice idea, Jeanne. (How about it, Ex. Committee?)

### WHAT'S YOUR SUGGESTION?

So remember, all you husky males and gorgeous gals, if these ideas are not satisfactory and you still want the assemblies "so round, so firm, so fully packed," why not drop a few more suggestions this way?

a third term, nor Lincoln, who was always known as Honest Abe. The committee was in quite a quandary; but after a lot of careful deliberation, they decided to place it next to Christopher Columbus, because, Columbus did not know where he was going, did not know where he was when he got there, and did not know where he had been when he got back, and did it all on borrowed money.

## PACIFIC MANEUVERS

Greetings gates!!! Once again your C. O. P. reporter is on hand to give out with bits of campus chatter. Needless to say, yours truly also has the "sniffles" due to this drooley, or should I say drizzly, weather.

Last Saturday night the stands were packed with eager rooters yelling with their right and left lungs, but even so our support was but a "trifles" compared to that of our fighting fellows out on the muddy grid-iron. And say, did you check those flashy new Tiger uniforms.

The dance following the Coast Guard game was quite a success due to the crowd of laughing co-eds, V-12'ers, and Coast Guardsmen. Our cute little Dottie Lightner of Manor Hall seemed to have captured the heart of a dashing "Junior Birdman" from Stockton Field.

Rumor has it that Saturday morning found the pre-meds in Barracks B on restriction—and so early in the semester too! There must be an easier way to protect themselves from the vicious women on campus, or do they enjoy being confined to Barracks.

And have you heard about our boy Thomas from Barracks C who wandered slowly and serenely into class—and ONLY fifty minutes late. This campus must have possibilities if a past student of navigation can lose himself for that length of time!

By the way, have you heard the oh's and ah's echoing from the women's living quarters? It seems as though the gals are mighty blue because of the recent engagement of our "campus Frankie." Now I ask you, is that the way to treat your public, Roger?

## Literature Class Offered

Professor Clair C. Olson has announced that a morning seminar in Contemporary Literature will be held on Saturday morning at 8:10 a. m. where students or inexperienced teachers, that are unable to attend day classes, may earn from two to four units according to the amount of work they do.

The Glomma, largest river in Norway, empties into the Oslo fjord.

## CAMPUS CLEO

## Her Beginning

## Billones & Carfagni

Published every Friday during the College year by the Pacific Student Association. Entered as second-class matter October 24, 1924, at the Post Office, Stockton, California, under the Act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in Section 103, October 3, 1917, authorized October 24, 1924.

our partners for a change.

Over Tee Kay way we hear that a dance is in the air for Saturday night. Well, have a good time kids, hope you don't get lost on the hunt!

flight missions in the Southwest Pacific Area. He also received the Air Medal for over 500 hours of flying time as a waist gunner and flight engineer aboard a Liberator. . . .
