Yosemite March 11th 1885

Mr. John Muir Esq.

Dear Sir

I learned from
Mr. Stegman the Express Agent
here, that the Box of things,
which I sent the next day after
you left Yosemite, was delayed
some where enroute and
I suppose that all the living
plants and shrubs must
have died from want of
attention. Now if I can
be of any service to you
in assisting to get you more
this season, I shall be glad
to do so. Please write me
and let me know what
you would like and I will attend to it

01155

We have had a very mild open winter here. There has not been more than about six or seven inches of snow at any one time here and none at all in the valley for over a month, and no storm of any kind for near two months. The mercury in thermometer has been but little below freezing point at any time for six weeks, a little ice was secured in the fore part of January, but not half enough for the needs of the valley. A party of tourists came in some ten days since in stage via Mariposa, only about a mile of snow in

the route. There are some forty persons big and little wintering here. We have had no sickness and all are anxiously waiting for business to start up. I would like to hear from you. How you and Mrs Muir and the little boy are. With kindest regards to Mrs Muir and yourself I am as ever
Your Friend
