My dear friend. I mean
I drop you this note merely
to learn of your whereabouts - whether at home
with you better help snugly tied up for the winter
If I don't hear from you I shall expect you are frozen
up at Alaska. I think I shall return such
in the Spring. If I could know that you were
within sailing distance I would be in your
track & meet you - some when - before I left for
the States. I can quite well at present & am going
to climb these mts. The old man could do it.
If this finds you at home please let me know if it
is your intention to leave for the mts. & when

Handwritten note on the left margin, possibly a reference or a name, written vertically.

Santa Barbara, July 17, '85.

My dear friend Muir,

I drop you this note merely to learn of your whereabouts,--whether at home with your better half snugly tied up for the winter. If I don't hear from you I shall expect you are frozen up at Alaska. I think I shall return East in the spring. If I could know that you were within hailing distance I would be on your track and meet you, somewhere, before I left for "the States". I am quite well at present and anxious to climb these mts. The old man can't do it. If this finds you at home please let me know if it is your intention to leave for the mts. and when.

Yours truly,

N. D. Stebbins
