# Covell Questionnaire Leads to Open Door

by Paula Xantopoulos

When asked just what he proposed to do to alleviate the widespread discontent indicated by the results of a questionnaire circulated among the students of Elbert Covell College last week, Provost Arthur J. Cullen said "the Dean of Students Life's door is always open."

The questionnaire, which Cullen said he had not yet seen, was "indicative of dissatisfaction." But, he continued, "I can't put my finger exactly on what this dissatisfaction is." The administration of the College will continue to make things as clear as we can.

Cullen revealed that an agreement has been reached regarding those 18 students who failed to retain their scholarships last semester. Covell scholarships are reviewed each semester in spite of cumulative average and must conform to a 2.5 requirement.

## SEDUO SCHOLARSHIPS

The students in question will accept financing in terms of school loans. If they are able to raise their cumulative averages or the year above the 2.5 mark, those loans will be cancelled. They will then be reconsidered for scholarships at the beginning of the fall term.

That decision was reached by the Covell administration and faculty as they met for the third time this year.

Cullen indicated that in the future he prefers to see improvement in the academic quality of the college rather than a change in scholarship policy.

(PSA Vice-President Gene Bigler has reported that the Covell students had indeed requested higher scholastic standards. The point of disagreement apparently hinges on the semester-by-semester review of grades and the application of the new, as of July, 2.5 rule to upperclassmen who entered UOP under the other agreement.)

During the course of a 90-minute interview last Tuesday, Cullen agreed to explain various facets of Covell policy in view of recent pronouncements.

## INSURED PURPOSES

Students from Spanish-speaking America come to Covell under the J-1 visa in order to insure the purposes of the college. That purpose is to "try to help these countries to help themselves."

Therefore Covell students must return home for at least two years between the completion of their studies and any return to the States. It is sincerely hoped that their knowledge and experience will be put to constructive use in their home country. The "followthrough," says Cullen, "is more important than the education in the first place."

Study in the US can continue through the doctoral stage and even apprenticeship, if necessary, under the J-1 visa. Transfer to another institution is limited to those schools who also operate under the J-1 system. According to Cullen, this includes any school which has ever accepted a government-sponsored student.

"Does anyone want any kind of a captive audience," he said. "I don't."

## ANY MAJOR

Any major offered in COP—with an emphasis on business, economics and education—is open to Covell students. Students are encouraged to pursue the courses of their choice "when their mastery of English permits it." Proficiency in the English language is determined by placement test.

"If the students," said Cullen, already know, the English language they could go anywhere." But many Spanish-speaking students can't compete in American universities due to the language difficulties. Covell College provides them with an education; at

the same time they are relieved, at least at first, of the pressures of "monolingual, monocultural grading."

According to Cullen, the language problem is just one of a great many cultural difficulties that the Covell program has to deal with.

Students must complete 62 units in English—including English as a second language—as another purpose of the college is to produce bilingual citizens. A minimum of 6 units in Spanish is required each semester.

## ADVISERS SUPPLIED

Academic advisers have all been supplied, since September, with comprehensive information including University requirements and courses of study.

"The desire has been there constantly," says Cullen, to improve the program. Covell College is still, after all, the first bilingual college in the United States. Nobody ever did it before.

One of the Provost's roughest problems lies with the recruit-

ment of "Latin Americans or North Americans capable of teaching in both languages at the university level." Several of his staff members could easily qualify for jobs with the Agency for International Development and possibly double their salaries.

This year's staff was depleted by the resignation of a full-time instructor who gave notice of his intentions in August and could not be replaced. Covell College is now operating with a teaching staff that includes nine PhDs (four part-time), five other instructors (one part-time), and three graduate assistants who are candidates for the M.A. in Inter-American Studies at UOP.

## CARES TOO MUCH

"Am I satisfied with the program of Elbert Covell College?" Cullen asked of himself. For heavens sake, no. I don't think I'll ever be satisfied. But I'm not about to go on the defensive by criticizing some of the aspects. I care too much."

## QUESTIONNAIRE

(Alianza Estudiantil, Elbert Covell College)

Sample Questions:	Yes	No	Abs.
6. Do you think there is a sufficient number of professors?	6	87	3
7. What percentage of the professors do you consider at the university level?	100%—2	75—6	50—27
8. Do you think that the academic advisers are prepared to accomplish their function?	5	88	3
13. Do you think that Covell is prepared to offer majors in the sciences?	0	82	14
14. Do you think that the administration considers the students' petitions and suggestions in an objective manner?	5	79	12
19. Do you think the rules are well-defined?	3	87	6
20. Are you satisfied in Covell?	8	82	6

Ed. Note—Last semester 127 students were registered in Covell college according to the Registrar. Half of the students are North American. The figures above—not percentages—indicate that at least 75% of the student body participated in this exercise.

## Blue Collar Priest

Tuesday in the chapel the Reverend Hap Cribb will speak, and present the sights and "the sounds of the day," in hopes of dealing "God not restricted to rich experiences as the rise of sun Easter Day, but rather included in all, even the 'rainbow of the soapsuds.'"

Cribb (he does not like to be called Reverend) calls himself a "blue collar priest" because he works in the "nitty gritty of big business" for a personnel counseling firm called Success Motion Institute. Consequently, he said he is not dependent on the "coins of the congregation or the blessings of the Bishop."

His presentation will be aimed at making the everyday experience "the exciting and the dreary," into a positive encounter. He says that an individual should (Continued on Page 4)

## Brazil '66

Stockton music lovers are in for a musical treat in the form of Sergio Mendez & Brazil '66. This talented group will appear at the Stockton Junior High School on April first. Tickets for the concert will sell for \$2.50 and \$3.50.

Brazil '66 has met with speedy success, with their first album reaching the national Top Ten within five weeks.

Mendez himself is a pianist-composer-conductor: small, smiling, bearded, neat, compact, and very entertaining. He has been sponsored on a national tour by Herb Alpert, leader of the Tijuana Brass.

According to Steve Michelson, Social Chairman of the PSA, if the Brazil '66 concert is a sell-out or a near sell-out, the PSA will bring in the famous Ray Charles for a show on May 18.

## Committee Seeks Ecumenical House

An experiment in approved off-campus co-educational living is being planned by the Ecumenical Relations Association for the fall semester of next year.

United in the promotion of Ecumenical Student Community are the Anderson "Y" and the organized Methodist, Episcopalian and Catholic groups on campus.

The basic plan calls for a student supported and governed co-operative. Major requests made by the administration are that liquor be kept from the premises and that the door between the male and female sectors be closed at 9:00 p.m. Most of the remaining regulations will be determined by the inhabitants.

Wes Brown, Director of the Methodist Student Movement, feels that increased student control over their own affairs is only realistic.

The conditions of ESC are constructed to help the student develop through self-examination and thought into a worthwhile individual. Students will scrutinize Christian doctrines in an effort to conclude whether the teachings remain a relevant, dynamic force in the 20th century.

To increase interaction and understanding within the greater community, each member of ESC is required to be involved in a project on the campus or in the Stockton area.

A residence vacated by the MaryKnoll Sisters will house the co-operative. Available living space covers three floors, not including the basement. Separate quarters are designated for girls (Continued on Page 3)

## Annual Funfest Moves off Campus

The curtain rises tonight for the Thirty-ninth annual Band Frolic in which twelve living groups will present fifteen minute shows. Curtain time is 7:30 p.m. at the Scottish Rite Auditorium.

The shows will be judged on the merits of the plot, music, and dancing. Scores of students have worked many long hours to prepare their group for the scrutiny of the judges.

Band Frolic is rich with traditions, and we can all expect spirited and intricate dancing, good music with novel lyrics, white dinner jackets, and endless enthusiasm.

A special addition to this year's Band Frolic will be the appearance of the Jazz Workshop, a

sixteen piece jazz band featuring a big sound and talented soloists.

Be sure to leave early for either tonight's or tomorrow's show because a full house is anticipated for both nights. The Jazz Workshop will start playing at 7:00 and continue until 7:30. They will also perform during the intermission.

Who will win this year? For those who like to figure the odds, the statistics for the last two years are: (1) mixed division, Raymond (1965) Quads T, V, W (1966); (2) Women's division, Delta Delta Delta (1965, 1966); (3) Men's division, Phi Kappa Tau (1966, 1965, 1964, 1963).

Scores of students have worked many long hours to prepare their groups for the scrutiny of the judges. Tonight marks the opening night for Pacific's 39th annual Band Frolic

## McGeorge Ranks High

Judge Gordon D. Schaber, Dean of the McGeorge School of Law of the University of the Pacific, has announced that the results of the Fall 1966 California Bar Examination give McGeorge first-time examinees a score of 86.9 per cent.

"The relation of this statistic to that of other schools is never available until sometime in the Spring when the complete statistics are printed in the State Bar Journal," Dean Schaber said. "However, compared to years in the past, this result would certainly be one of the highest in the state. It is, of course the highest ever achieved by this institution in the Fall examination." The statewide average for this examination was 52.5 percent.

A more meaningful statistic, according to Dean Schaber, is the three-year cumulative average

which includes the Bar examinations beginning with the Spring 1964 examination. As a comparison, the three-year rank for California law schools through the Spring 1966 examination lists Stanford University, 82.5 percent; U.C.L.A., 80.6 percent; U.C. Berkeley—Boalt Hall, 80.3 percent; U.S.C., 75.0 percent; University of San Francisco 72.3 percent; and McGeorge 71.1 percent.

"When the Fall 1966 figures are averaged into the three-year cumulative averages, McGeorge will have a record of first-time examinees of 79.5 per cent, which will undoubtedly put us right near the top in the state," Schaber said.

The McGeorge School of Law is one of six professional schools of the University of the Pacific and is located in Sacramento. Founded in 1924, it became amalgamated into the University's structure this fall.

## MJQ Booked For April 6

Lovers of jazz rejoice! The Pacific Students Association is providing (for \$1.50 a seat) an evening of jazz with the incomparable Modern Jazz Quartet. This group, which was ranked above Dave Brubeck and Ramsey Lewis in some of the latest jazz polls will perform in the UOP Conservatory on April 6.

All seats to the Thursday night performance will be on a first-come, first-served basis; there will be no reserved seats.

Don't miss this opportunity to hear one of the most exciting sounds on the modern jazz scene Set aside Thursday April 6 for a date with the Modern Jazz Quartet.

## Scholarships

University scholarship applications for the 1967-68 academic year are now being accepted by the Office of Financial Aids. All students who plan to apply for a scholarship must submit a formal application and a Parents' Confidential Statement by March 1. All necessary forms may be obtained at 109, Administration Building.

Current scholarship recipients are reminded that they must apply to be eligible for further assistance. Renewals are not considered without a new application.

# Jantzen Leads Educational Tour Group

Dean J. Mark Jantzen of Education leaves tomorrow for a round the world educational tour with a group of California teachers. This will be Dr. Jantzen's fourth year as a tour leader for the annual Teacher to Teacher Overseas Field Study Seminar.

### TOUR PURPOSE

The purpose of the tour is to allow public school teachers, during school time, to visit schools in foreign countries, to talk with foreign educators, and to observe different classroom techniques. Dean Jantzen feels that since school administrators are allowed to undertake foreign travel during school sessions, communities whose teachers are allowed to travel abroad will reap the benefits of their broad experience in classroom teaching.

The schools in question seem to agree with Dean Jantzen as almost all of the teachers concerned are receiving full salaries for the time they are absent from their posts.

Dr. Jantzen as tour leader, Mrs. Jantzen, and Miss Doris

Meyer a member of the physical education department who is taking her sabbatical with the group, will be Pacific members of the tour. Mr. William Anttila from Delta College, Miss Lucy Gomez from Stockton Unified Schools, and Mrs. Tennie Bascon from Lincoln High School,

J. Marc Jantzen

and Mrs. Muriel Carr from Escalon are teachers attending from the Stockton area.

### FOREIGN HOSTS

The foreign hosts for the group will be teacher organizations of the countries visited. Teachers will receive briefings from the various National Ministries of Education, in Thailand from the Minister of Education himself.

Dr. Jantzen will address the PTA of the American school in Tokyo, and the group will make new acquaintances with former Pacific graduate student Pradit Fautiwongse, a native of Bangkok. Their host in Paris will be Wilhelm Abert, Paris director of the World Confederation of Organizations of the Teaching Profession who will be a faculty member during Pacific's summer session this year.

The tour will leave from San Francisco and follow the Great Circle Route through Japan, Thailand, India, USSR, Australia and France, returning on March 22.

Drivers Training will be available for all Pacific students during the current semester. For further information contact the Physical Education Department or David Kendall, who is coordinator of the program.

College Arts magazine is sponsoring a \$200 poetry contest, open to all poets. The first four grand prize winners will have their own book of poetry edited and published by the JTC Publishing Co., where every entrant will receive an anthology of the top 100 prize-winning poems. Write for details: Poetry Contest, Box 314, West Sacramento, Calif. 95691.

## NROTC Applicants Needed

Students at any accredited college, junior college, or University who have reached at least the sophomore level are eligible for enrollment in a two year program which leads to an officers commission in the Navel Service.

Applicants are required to attend a summer training session immediately prior to enrollment during which time they receive \$87.90 per month plus transportation, tuition, room and board. Upon acceptance and enrollment at one of 53 universities offering this program, successful candidates receive \$40.00 per month plus Naval Science textbooks and uniforms during their remaining two years in college.

Eligibility for acceptance into this program requires that the applicant: (1) have completed two years of college with at least a "C" average; (2) be enrolled in or tentatively accepted in one of 53 universities offering this program; (3) be unmarried, never have been married and agree to remain unmarried until commissioned; (4) be at least 18 and of such age that he will not

have reached his 25th birthday on June 30 of the year in which he will have completed the requirements for a commission; (5) possess officer like qualifications and character as evidenced by appearance, scholarship, extracurricular activity and record in his community; (6) be approved by the Chief of Naval Personnel if he has previously been enrolled in any officer training program; (7) be physically qualified in accordance with prescribed standards; (8) have successfully completed either mathematics through trigonometry in secondary school or college or one quarter of college mathematics; (9) be a male citizen of the United States; (10) not be receiving a disability pension or retirement benefit from the government and (11) not be a member of any military organization other than the Naval or Marine Corps Reserve.

Application for this Naval Reserve Officers Training Corps (NROTC) program must be made between 1 January and 15 March 1967 at any Naval Recruiting Station or NROTC Unit.

# Swagerty Breaks Russell's Scoring Record

Keith Swagerty scored his 1445th WCAC point last night and became all-time scorer of the conference.

Previously, the coveted record belonged to Bill Russell, a college and professional basketball great. At the time Swagerty broke the record, Russell was leading the Boston Celtics (who he is player-coach for) to victory over the New York Knickerbockers. Russell established his record during his 1954-56 career at University of San Francisco. The record was considered unbreakable until the previous mark had been set by Ken Sears of Santa Clara in 1955.

During Russell's career at USF, the Dons dominated the national cage scene with a 60 game victory streak and, two consecutive NCAA championships. This record has never been equaled. The Dons controlled the WCAC with a 34-4 three-year record, and two consecutive titles. Russell was named All-American, and Most Valuable Player of the WCAC during his junior and senior years.

The scoring record was the second of Russell's records to fall to Swagerty. Russell's rebound

record for a single game (35) was broken by Swags last season when he pulled down 39 against Santa Barbara.

In breaking these records of a very respectable basketball figure, Swagerty has again shown All-American potential.

Swagerty broke Pacific's all-time record earlier this month when he netted his 1445th point. Since then he has scored 64 points bringing his total to 1509 with six games remaining in the season.

Swagerty is currently third in the nation in rebounds with 376 for a 18.6 average. Also, he is leading the WCAC in rebounds with 153 for a 19.1 average. Although Swagerty has broken the all-time scoring record, he is in second place for scoring this WCAC season. Mike Gervasoni of Santa Clara has a 22.4 average, while Swags has 181 for a 21.1 average.

Between the Pacific's big three, the scoring has been fairly even. Swagerty's overall average is 19.3, Fox's is 16.4 and Krulish has 13.6 per game.

Krulish has moved into third place in Pacific's all-time scoring. He has 1220 points for his career, placing him 230 points behind second place Ken Stanley.

## Track Squad Takes First Place

The Northern California all-comers track meet at San Mateo was won by the Tigers last Saturday.

Merlyn Grubbs, a Tiger 330 intermediate hurdler, highlighted the meet as he smashed a school record. The previous record in the 330 hurdles was 40.1 set by Harold Griswald in 1964. The new record is 38.8.

Placing second in the same event was Larry Aldrich who ran 39.0 which broke Griswalds record also. Steve Pearson placed third with a 40.2 time.

Coach Darrell Zimmerman said he was impressed with this season's victory. The Tigers compiled 48 points by taking 3 firsts, 5 seconds, 2 thirds, 2 fourths, and 1 fifth.

The 440 relay team placed first with its best run of the season (43.0). Don Moroz took a first in the 220 with his season's best time of 22.5. The other first was in the intermediate high hurdles won by Merlyn Grubbs. The mile relay team consisting of Gordon Wright, Jim Stanton, Dennis Matt, and Steve Pearson

captured second place in the meet. Merlyn Grubbs took a second in the 120 high hurdles and Mike Koerner ran the 880 in 1:57 for another second. Larry Aldrich took second in the 330 hurdles. Pacific also placed second in the tripple jump.

The outlook for the season appears bright as Zimmerman has eight returning lettermen, along with 14 recruits. The Tigers had an 7-4-1 record last season. The season starts officially next Saturday when Pacific hosts Chico State.

## Engineer Cited

Lawrence E. Colip, chairman of the Department of Electrical Engineering in the School of Engineering, University of the Pacific, has been awarded a National Science Foundation Science Faculty Fellowship.

Colip is currently on sabbatical leave at Colorado State University in Fort Collins, Colorado, as a candidate for the Ph.D. degree in Electrical Engineering.

He plans to begin his one-year fellowship tenure in September 1967 and complete the requirements for the advanced degree before returning to his chair in the School of Engineering with the beginning of the 1968 academic year.

## Knolens

The University of the Pacific Knolens, senior women's honorary, has been named a potential Motar Board chapter by the National organization and the district chapters of Mortar Board. Their fate now rests with the vote of the 117 national chapters of the organization.

During their retreat last weekend, the Knolens discussed the impending decision of the national chapters hopefully along with plans for selling Mother's Day and Easter corsages and the few remaining Knolens books.

UOP juniors eligible for membership in this leadership organization will be contacted soon after Easter vacation.

## Brother Happ . . .

(Continued from Page 1)  
be able to be flexible to all experiences just as a rubber ball always bounces back when thrown.

### JAZZ LEADER

Brother Happ, as many of his associates call him, has been a member of the avant-garde in employing jazz music in leading worship. He has been "perplexed by the use of traditional forms just for tradition's sake."

Cribb's service will employ an original play, and guitar and jazz trio accompaniment.

Cribb is the director of "Life-line" for Stockton, which is a 24-hour-a-day emergency problem counseling service for those facing distress. Help through this service is never farther away than the telephone. Cribb is in charge of pointing operations and teaching all counselors.

In the last fourteen years, Cribb has served five churches—both large and small. He has sought to establish closer and longer lengths of friendships and understanding. He has had a weekly radio show called "Now" which presented youth who wanted to express "their ideas and

opinions about life, the church and the world."

Cribb is presently working on an album entitled "Liturgical Jazz." He said that Duke Ellington has written a personal note for the back of the album cover. He hopes that the record will be available by the summer months.

# SLOW DANCE — ON THE — Killing Ground

## Here are 7 knotty problems facing the Air Force: can you help us solve one?

**6. Space propulsion.** As our space flights cover greater and greater distances, propulsion—more than anything else—will become the limiting factor. New fuels and new propulsion techniques must be found, if we are to keep on exploring the mysteries of space. And it may well be an Air Force scientist on his first assignment who makes the big breakthrough!

**7. Pilot performance.** Important tests must still be made to determine how the pilots of manned aerospacecraft will react to long periods away from the earth. Of course not every new Air Force officer becomes involved in research and development right away. But where the most exciting advances are taking place, young Air Force scientists, administrators, pilots, and engineers are on the scene.

Want to find out how you fit into the Air Force picture? Contact your local U.S. Air Force Recruiter.

**1. Repairs in space.** If something goes wrong with a vehicle in orbit, how can it be fixed? Answers must be found, if large-scale space operations are to become a reality. For this and other assignments Air Force scientists and engineers will be called on to answer in the next few years, we need the best brains available.

**2. Lunar landing.** The exact composition of the lunar surface, as well as structural and propulsion characteristics of the space vehicle, enter into this problem. Important study remains to be done—and, as an Air Force officer, you could be the one to do it!

**3. Life-support biology.** The filling of metabolic needs over very extended periods of time in space is one of the most fascinating subjects that Air Force scientists are investigating. The results promise to have vital ramifications for our life on earth, as well as in outer space.

**4. Space orientation.** The orbital problems of a spacecraft, including its ability to maneuver over selected points on the earth, are of vital importance to the military utilization of space. There are plenty of assignments for young Air Force physicists in this area.

**5. Synergetic plane changing.** The ability of a spacecraft to change altitude can also be crucial to space operations. Where but in the Air Force could Sc.B.'s get the chance to work on such fascinating projects right at the start of their careers?
