Martinez Dec. 14, 1890.

Dear Mr Johnson.

I send you a few of
my sketches of the two Kings River Yosemite
some of which you may want.

I went to Robinson's Studio a few days ago
to see what he was doing. He has about
eight large sketches on pasteboard for the
South Fork Yosemite. None for the Middle
Fork which he has not seen. His sketches are
grand affairs but are all made up of rock
showing no level floor. They might be used
as illustrations of almost any of the Grand Canons
Lofty sheer-faced cliffs rising abruptly from a level
park-like floor are the main characteristics
of Yosemite Valley, & I think that there should
be at least one general view showing the range
of wall-rocks & the level park & river between

Ever Yours John Muir.
