ARNOLD ARBORETUM, HARVARD UNIVERSITY.

*Jamaica Plain, Mass.,* January 2, 1897.

My dear Muir:

That handsome shrub with smooth red bark and minute leaves which we saw in the cañon below Hemet valley is *Adenostoma sparsifolium*, a species which is confined to that part of the state and which I had not seen before.

I am now able to get about a little without crutches and mean to start for Washington next week to see if I can do anything about reservations.

Faithfully yours,

*C. S. Sargent.*

John Muir, Esq.  
Martinez, Cal.
