MARSDEN MANSON, C.E., PH.D.

SAN FRANCISCO, CAL.

San Francisco, May 5th, 1903.

Prof. A. Karpinsky,  
Director Geological Survey,  
St. Petersburg, Russia.

Dear Sir:-

I beg leave to present my friend, Prof. John Muir, L.L.D.  
- a scientist of high distinction. He visits Russia to study the general  
geology and particularly the glacial geology of Eastern Europe and Siber-  
ia.

I bespeak for professor Muir the warm and generous courtesy which  
myself and my countrymen received at your hands during the memorable  
7th session of the International Geological Congress.

Bearing this in kind remembrance, and with sentiments of the highest  
esteem, I remain

Respectfully,

Marsden Manson
