To John Muir.

My dear friend,

I have received two very sym-  
-pathetic and encouraging letters from you as well as the M.S. I did  
<sup>not</sup> intend that you should take the trouble to return the M.S. as it is only a  
copy of what I have. You say that you was sorry when you got to the end  
of it. I may not be right in my surmise as to what you were sorry for  
but for fear that it was because there was not more of it, I send you  
all the printed clippings that I intend to let stand as they are, and also  
some matter that I intend to add to them which is all that I have in any  
kind of shape at the present time. I would like to have the clippings  
returned. The rest I have no use for as I have the M.S. from which it  
was copied. I am improving in health right along. The mountains  
that I climb are not very high as they are in the neighborhood of  
Alum rock-springs to which I go every other day to drink the water  
and take a bath once in a while. I think that if I keep this up for  
a month longer I shall be quite restored to health. I have not recieve  
any more news from the east but expect another letter from William  
shortly. With all best wishes I am -

- affectionately yours -

Peter L Trout.
