Feb. 3, 1902.

My dear Mr. Muir,

I am preparing my annual report on the Variations of Glaciers, and hope you can give me some information about the Alaskan or other western glaciers. I have not yet had any definite information regarding the effect of the earthquake of 1899 on the tide-water glaciers; have you? I was very much interested in your account of the Alaskan glaciers in the Report of the Harriman expedition, and the pictures in the two volumes are splendid.

I was at Mt Hood and Mt Adams last Summer and saw their glaciers pretty well, but I had to come home without going to Mt. Rainier, on account of the illness of Mrs. Reid's mother, resulting, I am sorry to say, in her death.

With kind regards

I am yours cordially

Harry Fielding Reid.
