Friend John

Yours acknowledging receipt of the pictures or photo's come duly to hand also the Magazine for which I thank you very much and pleased to hear that you was all in good health and that you would send me photo's of all your family

I think John you would of had a hard subject in me for a botanist. for if you remember when you used to get a little out of patience with me when you were trying to teach me arithmetic when we got throug work in the old saw mill but I always forgive you for you were studying very hard and of course I was dull. I can see you now leaned back in your home made chair covered with old sheep skins reading Humboldt's but just the same John I gained a great deal of knowledge from you which has been los of help to me. but you know it is easier to look back than it is a head
