Martinez, July 31, 1914

Dear Mrs Arnold.

I am very glad to get tidings of you after so long a silence

The plant you sent is a polygonum or eriogonum of which there are many species

The specimens you forwarded by mail were very dry and crushed to scraps & dust. so

I can't make them out without infinite time.

Send carefully pressed specimens to Miss Eastwood who is familiar with all the big family.

With best wishes & hoping to hear from you again ere long I am faithfully your friend  
John Muir
